The Discovery of Being and Thomas Aquinas Christopher M. Cullen, SJ, Franklin T. Harkins, 2019 While there has been agreement among followers of Aquinas that being insofar as it is being being qua being is the subject of metaphysics there is not agreement on how this being qua being is to be understood nor on how we come to know the being that is the object of metaphysical investigation The topic of what being is as the object of the science of metaphysics and how to account for the discovery of the being of metaphysics have emerged as central problems for the contemporary retrieval of Aquinas and for the larger project of post-Leonine Thomism in general This lack of agreement has hampered the retrieval of Aquinas's metaphysics The collection of essays within The Discovery of Being and Thomas Aquinas is divided into three major parts the first set of essays concerns the foundation of metaphysics within Thomism the second set exemplifies the use of metaphysics in fundamental philosophical issues within Thomism and the third set employs metaphysics in central theological issues The Discovery of Being and Thomas Aquinas allows major scholars of the different types of Thomism to engage in a full scale defense of their position as well as expanding Thomistic metaphysics to the discipline of theology in important ways

guides and guardian angels in our lives the joyful transition of souls back to the Spirit Side in the afterlife and the illuminating aspects of the Life Review we will all enjoy after leaving our bodies behind The book confirms that God Source does not make rules for us to follow and does not judge or punish souls for what they did on Earth which means that all souls return to the Spirit Side regardless of what they did during their lives In the Spirit Realm he was thrilled to meet several famous historical figures including Albert Einstein Marie Antoinette and Mother Teresa who recalled the wisdom they had gained from their lives on Earth The author describes an astral excursion to a distant planet inhabited with intelligent reptiles who are able to convert energy from their sun into sustenance for their bodies as well as a trip to Earth in a parallel universe where humans learned to drastically reduce pollution by developing a technique to teleport people and goods from place to place without burning fossil fuel On the Earth plane the author travelled to the underground caverns in Area 51 where he saw the spacecraft that crashed near Roswell New Mexico in 1947 along with the bodies of the little aliens who perished in the mishap Albert confirmed to the author that these aliens are one of several advanced and benevolent ET races who have been visiting our planet for eons And his most fascinating experience was listening to a conversation with three wise Masters Jesus Mohammad and Moses who discussed returning to Earth some day as a much needed messiah to lead humans onto the path of spiritual enlightenment

Angels and Demons Serge-Thomas Bonino, 2016 Angels occupy a significant space in contemporary popular spirituality Yet today more than ever the belief in the existence of intermediary spirits between the human and divine realms needs to be evangelized and Christianized Angels and Demons offers a detailed synthesis of the givens of the Christian tradition concerning the angels and demons as systematized in its essential principles by St Thomas Aquinas Certainly the doctrine of angels and demons is not at the heart of Christian faith but its place is far from negligible On the one hand as part of faith seeking understanding angelology has been and can continue to be a source of enrichment for philosophy Thus reflection on the ontological constitution of the angel on the modes of angelic knowledge and on the nature of the sin of Satan can engage and shed light on the most fundamental areas of metaphysics epistemology and ethics On the other hand angelology insofar as it is inseparable from the ensemble of the Christian mystery from the doctrine of creation to the Christian understanding of the spiritual life can be envisioned from an original and fruitful perspective

The Travelers Joseph Lima Sconce, 2013-07-25 The main theme of my book is that the afterlife is real and substantial and that all of us when we arrive there at some point will soon realize this Our spiritual bodies are very much like our natural bodies except that the spiritual bodies are in perfect shape Life in the afterlife is at least superficially very much like life on Earth People in the spiritual world live in real places beautiful cities or country locations in heaven and noisome slums in hell People there work as they do on Earth willingly and joyously in heaven not so in hell They also enjoy time off from work which is marvelous in heaven and within strict limits somewhat enjoyable in Hell We are full human beings in the afterlife up to and including that dreaded word for most religions sex But in the spiritual world time and space function differently being fluid and connected to our thoughts and emotions deception is nearly impossible and the economy is a moneyless one
