Authors and Subjects Army Medical Library (U.S.), 1955 Fields of Vision Leslie Devereaux, Roger Hillman, 2023-04-28 Filmed images dominate our time from the movies and TV that entertain us to the news and documentary that inform us and shape our cultural vocabulary Crossing disciplinary boundaries Fields of Vision is a path breaking collection that inquires into the power and limits of film and photography to make sense of ourselves and others As critics social scientists filmmakers and literary scholars the contributors converge on the issues of representation and the construction of visual meaning across cultures From the dismembered bodies of horror film to the exotic bodies of ethnographic film and the gorgeous bodies of romantic cinema Fields of Vision moves through eras genres and societies Always asking how images work to produce meaning the essays address the way the real on film creates fantasy news as well as science and considers this problematic process as cultural boundaries are crossed One essay discusses the effects of Hollywood's high capital world wide commercial hegemony on local and non Western cinemas while another explores the response of indigenous people in central Australia to the forces of mass media and video Other essays uncover the work of the unconscious in cinema the shaping of

female spectatorship by the women's film genre of the 1920s and the effects of the personal and subjective in documentary films and the photographs of war reportage. In illuminating dark elided or wilfully neglected areas of representation these essays uncover new fields of vision. He considers albums issued from the 1950s to the 1980s, the golden era of record album cover art. The whole album package is studied including the front and back covers, the inside cover, the inner sleeve and the liner notes. Performers in rock and roll, folk and folk rock, soul and disco, psychedelic Americana, nostalgia and singer songwriter genres are included in this study of hundreds of record album covers.

Special Bibliography, 1982 *Picturing Political Power* Allison K. Lange, 2020-06-01 Lange's examination of the fights that led to the ratification of the Nineteenth Amendment in 1920 reveals the power of images to change history. For as long as women have battled for equitable political representation in America, those battles have been defined by images, whether illustrations, engravings, photographs or colorful chromolithograph posters. Some of these pictures have been flattering, many have been condescending and others downright incendiary. They have drawn upon prevailing cultural ideas of women's perceived roles and abilities and often have been circulated with pointedly political objectives. *Picturing Political Power* offers perhaps the most comprehensive analysis yet of the connection between images, gender and power. In this examination of the fights that led to the ratification of the Nineteenth Amendment in 1920, Allison K. Lange explores how suffragists pioneered one of the first extensive visual campaigns in modern American history. She shows how pictures from early engravings and photographs to colorful posters proved central to suffragists' efforts to change expectations for women fighting back against the accepted norms of their times. In seeking to transform notions of womanhood and win the right to vote, white suffragists emphasized the compatibility of voting and motherhood while Sojourner Truth and other leading suffragists of color employed pictures to secure respect and authority. *Picturing Political Power* demonstrates the centrality of visual politics to American women's campaigns throughout the nineteenth and early twentieth centuries, revealing the power of images to change history.
