Alchemy is the quintessence in Nature's highest correlations of forces and potencies. Helena Petrovna Blavatsky, Paracelsus,2022-07-03 Materialism is moral and spiritual blindness Shall we let the blind lead the blind Before Alchemy existed as a Science its quintessence alone acted in Nature s correlations The virtuous man can produce external perceptible phenomenal results by invoking Kriyashakti his own inherent power of creative thought and become a co worker with Nature in her higher departments Like the lightning conductor that directs the electric fluid the force of Kriyashakti conducts the quintessence of life and gives it direction led haphazardly it can kill directed by the potency of human will and magnetic force it can create according to a predetermined plan Poor alchemy Star of the morning daughter of the dawn how fallen from thine high estate That which once was still is

and forever shall be even to the end of time Words change and their meaning becomes quickly disfigured But eternal ideas remain and shall not pass away The ass skin is congenial to the tastes of today s philosophicules and materialistic alchemists who sacrifice the living soul for the dead form than revering Princess Nature in all her nakedness With so many would be alchemists around even Hermes himself would lose his way Only High Initiates are able to unravel the jargon of Hermetic philosophers and divulge their secrets pertaining to all seven realms of nature To the practical alchemist whose object is the production of wealth by the special rules of his art studying their metaphysical basis was a secondary consideration while the Sage who had ascended to the plane of metaphysical contemplation would reject the material objectives of these studies as unworthy of any further consideration The origin of alchemy is lost in the remotest antiquity of the Far East The Chaldeans were only the heirs first to antediluvian and later to the alchemy of the Egyptians The Wisdom of the East no longer exists in the West it died with the three Magi Hermes never was the name of a man but a generic title just as the term Neo Platonist was used in former times and Theosophist is being used in the present Even in the time of Plato Hermes was already identified with the Thoth of the Egyptians Thoth Hermes is simply the personification of the Voice of the sacerdotal caste of Egypt the Voice of the Great Hierophants Alchemy is as old as tradition itself The Golden Fleece was a treatise written on animal skin explaining how gold could be made by alchemical means There still remain underground a large number of such alchemical works written on papyrus and buried with mummies ten millennia old The whole secret lies in the ability to recognise in such works what appears to be only a fairy tale as in the golden fleece and the romances of the earlier Pharaohs Explicit instructions do not come from the sanctuaries of Egypt Most are fractionally correct interpretations of the allegorical stories of the alchemical green blue and yellow dragons and the rose tigers of the Chinese Alchemy was imported to Europe from China transformed into Hermetic writings which were then fabricated by the old Greeks and the Arabs and refabricated in the Middle Ages now jumbled up and distorted beyond recognition The two objects of the Chinese system and the Hermetic Sciences in making gold and prolonging life are identical But the Eastern Adept Initiates despising gold and having a profound indifference for life care very little about such selfish pursuits which in most cases are acts black art The third object of alchemy i e transmutation has been wholly neglected by Christian adepts who being satisfied with their belief in the immortality of the soul they never properly understood the meaning of this object The transmutation of the real alchemist is the occult process by which his debased nature and brute energy are conquered and thus ennobled by his highest intellectual faculties his soul is infused into the spiritual dynamics of the Divine Will Woe to those who seek to obtain magical powers for selfish ends and money making under the cloak of alchemy Alchemy is a noble philosophy purely metaphysical The transmutation of base metals into gold was merely an allegory for freeing man of his ancestral evils and infirmities by redeeming the flesh below and regenerating the soul above It is incorrect to think that there exists any special powder of projection or philosopher s stone or elixir of life The latter lurks in every flower in every stone and mineral throughout the

globe it is the ultimate essence of everything on its way to higher and higher evolution And as there is no good or evil so there is neither elixir of life nor elixir of death nor poison as such but all this is contained in one and the same Universal Essence this or the other effect or result depending on the degree of its differentiations and various correlations The light side of that Essence produces life health bliss divine peace and so forth the dark side brings death disease sorrow and strife This is demonstrated by knowing the nature of the most deadly poisons of some of them even a large quantity will produce no ill effect whereas a grain of the same poison will kill with the rapidity of lightning yet exactly the same grain when altered by a certain combination will heal Seek not the secrets of nature in nature Know your self first and foremost The treasure of treasures lies in the innermost chamber of your heart where the sunlight of truth shines with unfading glory How can those who are fools in nature hope to profit from alchemical works the timeless testimonies to creative powers of Nature Let the seeker of Truth be wary of things that are readily understood especially mystical names and secret operations for Truth lies hid in obscurity Pearls of Truth cannot be given to the profane less so today than when the Apostles were advised not to cast pearls before swine The chemist imitates nature the alchemist surpasses nature herself Chemistry decomposes and recombines material substances it purifies simple substances of foreign elements but leaves the primitive elements unchanged Alchemy changes the character of things and raises them up into higher states of existence As all the powers of the universe are potentially contained in us our body and its organs are the representatives of the powers of nature and a constellation of the same powers that formed the stars in the sky The physician who knows nothing of alchemy can only be a servant of nature but the alchemist is her lord

Stellar Alchemy Michel Cassé, 2003-08-07 Table of contents **Authorship as Alchemy** David Glenn Kropf, 1994-11-01 This book is an attempt to answer Michel Foucault's question What is an author It examines the relationship between personal identity the physical person of the writer and the author projected as a matter of public perception via the reception of written texts It approaches this problem by analyzing the way Romantic writers play upon and subvert the author position projected upon them in the public reception of their texts and it sheds light on the use ofonyms and pseudonyms as strategies that subvert the emerging institution of authorship

Nabasny, 2020-03-17 Chefs and food writers have adopted the commonplace of comparing cooking to science Authors like Alton Brown and Harold McGee defend the view that flavor is a chemical event and must be studied as such Kitchen Alchemy KA swims against this hegemonic current to recall a time before modern chemistry transposed its atomic worldview on food Part theory part cookbook part manifesto KA calls on professional and amateur cooks alike to reimagine the practice of cooking and it teaches them how With original recipes KA showcases essential cooking techniques divided into the three alchemical phases of preparation explication and transformation As the first and only theory cookbook ever written KA illustrates and invites the reader to participate in the everyday alchemy of the kitchen

American Alchemy Brian

Roberts, 2003-06-19 California during the gold rush was a place of disputed claims shoot outs gambling halls and prostitution a place populated by that rough and rebellious figure the forty niner in short a place that seems utterly unconnected to middle class culture In American Alchemy however Brian Roberts offers a surprising challenge to this assumption Roberts

points to a long neglected truth of the gold rush many of the northeastern forty niners who ventured westward were in fact middle class in origin status and values Tracing the experiences and adventures both of these men and of the unseen forty niners women who stayed back East while their husbands went out West he shows that whatever else the gold seekers abandoned on the road to California they did not simply turn their backs on middle class culture Ultimately Roberts argues the story told here reveals an overlooked chapter in the history of the formation of the middle class While the acquisition of respectability reflects one stage in this history he says the gold rush constitutes a second stage a rebellion against standards of respectability

Alchemy of the Human Experience J.K. McLean,2022-08-01 Man is less significant than he thinks he is and at the same time more important than he can possibly imagine Alchemy is the process of changing the ordinary into something extraordinary The purpose of mortality or human existence has nothing to do with the accumulation of things that rust and deteriorate and everything to do with the acquisition of something that transcends the ordinary and that endures Man s journey begins in his instinctual mind develops in his intellectual mind and evolves to his spiritual mind as each of us exchange potentials for actuals Alchemy of the Human Experience is about exchanging man s human nature for his divine nature This life is the cocoon of the gods

The Strange Alchemy of Life and Law Albie Sachs,2011-03-10 From a young age Albie Sachs played a prominent part in the struggle for justice in South Africa As a result he was detained in solitary confinement tortured by sleep deprivation and eventually blown up by a car bomb which cost him his right arm and the sight of an eye His experiences provoked an outpouring of creative thought on the role of law as a protector of human dignity in the modern world and a lifelong commitment to seeing a new era of justice established in South Africa After playing an important role in drafting South Africa s post apartheid Constitution he was appointed by Nelson Mandela to be a member of the country s first Constitutional Court Over the course of his fifteen year term on the Court he has grappled with the major issues confronting modern South Africa and the challenges posed to the fledgling democracy as it sought to overcome the injustices of the apartheid regime As his term on the Court approaches its end Sachs here conveys in intimate fashion what it has been like to be a judge in these unique circumstances how his extraordinary life has influenced his approach to the cases before him and his views on the nature of justice and its achievement through law The book provides unique access to an insider s perspective on modern South Africa and a rare glimpse into the working of a judicial mind By juxtaposing life experiences and extracts from judgments Sachs enables the reader to see the complex and surprising ways in which legal culture transforms subjective experience into objectively reasoned decisions With rare candour he tells of the difficulties he has when preparing a judgment of how every judgment is a lie Rejecting purely formal notions of the judicial role he shows how both reason and passion concern for protecting human dignity are required for law to work in the service of justice
