

# Aldous Huxley Annual

A Journal of Essays, Reviews, Interviews, and Research

## Introduction

Reading Aldous Huxley's *Brave New World* is a journey into a world that is both familiar and alien. The novel's exploration of the future of humanity, its critique of the industrial revolution, and its vision of a world where technology and science have taken control of our lives, are as relevant today as they were when the book was first published. This journal is dedicated to exploring the many facets of Huxley's work, from his early novels to his later essays and interviews. We hope that this journal will provide a platform for readers to engage with Huxley's ideas and to share their own thoughts and research.

The first section of the journal features a collection of essays that explore the themes of *Brave New World* and the impact of technology on society. The second section contains a series of interviews with leading experts in the field of Huxley studies. The third section is a collection of reviews of recent books and articles on Huxley. Finally, the fourth section is a collection of research papers that provide a detailed analysis of Huxley's work.
