**The Novel After Film** Jonathan Foltz, 2018 In this provocative and original study Jonathan Foltz charts the institutional stylistic and conceptual relays that linked literary and cinematic cultures and that fundamentally changed the nature and status of storytelling in the early twentieth century

*Film and Reform* Ian Aitken, 2013-12-13 Best known for his documentaries such as *Drifters* *North Sea* and *Housing Problems* John Grierson was the most important figure in the British documentary film movement and one of the most influential of British film theorists This major assessment of Grierson and

the documentary film movement examines the intellectual and aesthetic influences on his work focusing on the material he produced in the inter war years and comparing the idealistic strain of Grierson's social commentary with other social reformists such as the Next Five Years Group and writers like Orwell and Priestley Underlining the link between film and reform the book clarifies the meaning and significance of Grierson's ideas and the historical role of the documentary film movement Originally published in 1990 Psychedelic Modernism: Literature and Film Raj Chandarlapaty, 2024-04-16 The primary purpose of Psychedelic Modernism: Literature and Film is to trace the development of ideas and perspectives from the writing and private ambitions of 20th century modernist writers including Aldous Huxley The purpose of the book is to offer a rough chronology during which ideas were first given a literary imagination then transposed onto discussions of science and psychology and then theoretically democratized to bring fruit to a relatively de centered process where images text and interviews could re conceptualize the modern Being from an admixture of modernist historical and pop roots that could express a greater moment in the human action The work includes discussions from scientists such as Swiss chemist Albert Hofmann rock stars such as Jerry Garcia and unconfirmed mystics such as Carlos Castaneda The primary focus of this work isn't literature per se but the literary imagination as it may correspond to greater wider and more impactful goals than the writing of 20th century fiction While there is some outreach that favors de centered models such as the Beat Generation the author's primary purpose is to assemble an anthology covering the study and quests for knowledge from as many sides as could power the relative 1960s countercultural movement **The Cambridge History of Twentieth-Century English**

**Literature** Laura Marcus, Peter Nicholls, 2004 Publisher Description Film Adaptation and Its Discontents Thomas Leitch, 2007-06-15 Most books on film adaptation the relation between films and their literary sources focus on a series of close one to one comparisons between specific films and canonical novels This volume identifies and investigates a far wider array of problems posed by the process of adaptation Beginning with an examination of why adaptation study has so often supported the institution of literature rather than fostering the practice of literacy Thomas Leitch considers how the creators of short silent films attempted to give them the weight of literature what sorts of fidelity are possible in an adaptation of sacred scripture what it means for an adaptation to pose as an introduction to rather than a transcription of a literary classic and why and how some films have sought impossibly close fidelity to their sources After examining the surprisingly divergent fidelity claims made by three different kinds of canonical adaptations Leitch's analysis moves beyond literary sources to consider why a small number of adapters have risen to the status of auteurs and how illustrated books comic strips video games and true stories have been adapted to the screen The range of films studied from silent Shakespeare to Sherlock Holmes to The Lord of the Rings is as broad as the problems that come under review **Film - An International**
