Weiner, 2010-04-19 To say that graphic novels comics and other forms of sequential art have become a major part of popular culture and academia would be a vast understatement Now an established component of library and archive collections across the globe graphic novels are proving to be one of the last kinds of print publications actually gaining in popularity Full of practical advice and innovative ideas for librarians educators and archivists this book provides a wide reaching look at how graphic novels and comics can be used to their full advantage in educational settings Topics include the historically tenuous relationship between comics and librarians the aesthetic value of sequential art the use of graphic novels in library outreach services collection evaluations for both American and Canadian libraries cataloging tips and tricks and the swiftly growing realm of webcomics *Autobiographical Comics* Elisabeth El Refaie, 2012-10-10 A troubled childhood in Iran Living with a disability Grieving for a dead child Over the last forty years the comic book has become an increasingly popular way of telling personal stories of considerable complexity and depth In *Autobiographical Comics* Life Writing in Pictures Elisabeth El Refaie offers a long overdue assessment of the key conventions formal properties and narrative patterns of this fascinating genre The book considers eighty five works of North American and European provenance works that cover a broad range of subject matters and employ many different artistic styles Drawing on concepts from several disciplinary fields including semiotics literary and narrative theory art history and psychology El Refaie shows that the traditions and formal features of comics provide new possibilities for autobiographical storytelling For example the requirement to produce

multiple drawn versions of one's self necessarily involves an intense engagement with physical aspects of identity as well as with the cultural models that underpin body image. The comics medium also offers memoirists unique ways of representing their experience of time, their memories of past events and their hopes and dreams for the future. Furthermore, autobiographical comics creators are able to draw on the close association in contemporary Western culture between seeing and believing in order to persuade readers of the authentic nature of their stories. **The Comics Journal**, 2006
