Negative Space Peter Weibel, 2021-12-28 A bold new spatial perspective on modern sculpture with 800 color images of work by artists including Henry Moore Lygia Clark Anish Kapoor and Ana Mendieta This monumental richly illustrated volume from ZKM Karlsruhe approaches modern sculpture from a spatial perspective interpreting it through contour emptiness and levitation rather than the conventional categories of unbroken volume mass and gravity It examines works by dozens of twentieth and twenty first century artists including Hans Arp Marcel Duchamp Henry Moore Barbara Hepworth Lygia Clark Anish Kapoor Olafur Eliasson Ana Mendieta Fujiko Nakaya Tomás Saraceno and Alicja Kwade The large scale book contains over 800 color images Negative Space comes out of an epic exhibition at ZKM and volume editor Peter Weibel Chairman and CEO of ZKM takes a curatorial approach to the topic The last exhibition to deal comprehensively with the question What is modern sculpture was at the Centre Georges Pompidou in 1986 Weibel and ZKM pick up where the Pompidou left off examining sculptures not as figurative solid and self contained monoliths but in terms of open and hollow spaces reflection light shadow innovative materials data and the moving image Weibel puts advances in science architecture and mathematics in the context of avant garde sensibilities to show how modern sculpture significantly deviates from the work of the past Texts in the volume include an introduction and twelve chapters written by Weibel with contributions by cocurators as well as facsimiles and reproductions of artist authored manifestos The Great Parade Pierre Théberge, Galeries Nationales du Grand Palais (Paris), National Gallery of Canada, 2004-01-01 A beautiful book that showcases how circus figures and artifacts have been portrayed in art over the past two centuries The circus is a dazzling world filled with acrobats and harlequins tumblers and riders monsters and celestial creatures Now this engaging book sets that world in a new light examining how painters sculptors and photographers from the eighteenth century to the present have used the circus as a springboard for their imaginative expression and have envisioned the clown as a metaphor for the modern artist The book presents more than 175 works by such artists as Degas Toulouse Lautrec Rouault Picasso Chagall and Léger Some of these are masterful works shown for the first time these range from the 18 meter stage curtain Picasso designed in 1917 for Erik Satie's ballet Parade to more intimate works such as Nadar and Tournachon's photographs of Pierrot as played by celebrated mime Charles Debureau Icons of Photography Peter Stepan, 1999 Century's best photographers **Aleksandr Rodchenko** Aglaya K. Glebova, 2022-01-01 Through the lens of Aleksandr Rodchenko's

photography a new and provocative understanding emerges of the troubled relationship between technology modernism and state power in Stalin's Soviet Union Tracing the shifting meanings of photography in the early Soviet Union Aglaya K Glebova revises the relationship between art and politics during what is usually considered the end of the critical avant garde Aleksandr Rodchenko 1891-1956 was a highly versatile Russian artist and one of Constructivism's founders His photographic work between 1928 when Stalin rose to power and the late 1930s reveals a wide ranging search for a different pictorial language in the context of the extreme transformations carried out under the Five Year Plans In response to forced modernization Rodchenko's photography during this time questioned his own modernist commitments At the heart of this argument is Rodchenko's infamous 1933 photo essay on the White Sea-Baltic Canal site of one of the first gulags Glebova's careful reading of Rodchenko's oeuvre yields a more diverse practice than has been generally acknowledged and brings to light new aspects of his work in adjacent media including the collaborative design work he undertook with Varvara Stepanova
