

Managing Alliance Conflict

Conflict Is Inevitable.
How You Deal with It Can Be the
Difference Between Success and Failure

By David S. Thompson, CA-AM, John R. Hayes, MD,
and Steven E. Twaît, CSAP

Every day we manage conflict. Whether dealing with friends and relatives or coworkers and customers, we constantly resolve issues by applying the conflict management approaches and skills at our disposal. Those of us working in alliances certainly work our way through such situations frequently. While it might be part of our jobs, most people do not like to hear the word "conflict" associated with their own name. Just hearing the word is sometimes enough to make your stomach churn or your muscles tense.

Alliance And Conflict:

Warring Friends Jeremy Pressman, 2012-11-09 Allied nations often stop each other from going to war Some countries even form alliances with the specific intent of restraining another power and thereby preventing war Furthermore restraint often becomes an issue in existing alliances as one ally wants to start a war launch a military intervention or pursue some other risky military policy while the other ally balks In *Warring Friends* Jeremy Pressman draws on and critiques realist normative and institutionalist understandings of how alliance decisions are made Alliance restraint often has a role to play both in the genesis of alliances and in their continuation As this book demonstrates an external power can apply the brakes to an incipient conflict and even unheeded advice can aid in clarifying national goals The power differentials between allies in these partnerships are influenced by leadership unity deception policy substitutes and national security priorities Recent controversy over the complicated relationship between the U S and Israeli governments especially in regard to military and security concerns is a reminder that the alliance has never been easy or straightforward Pressman highlights multiple episodes during which the United States attempted to restrain Israel s military policies Israeli nuclear proliferation during the Kennedy Administration the 1967 Arab Israeli War preventing an Israeli preemptive attack in 1973 a small Israeli operation in Lebanon in 1977 the Israeli invasion of Lebanon in 1982 and Israeli action during the Gulf War of 1991 As Pressman shows U S initiatives were successful only in 1973 1977 and 1991 and tensions have flared up again recently as a result of Israeli arms sales to China Pressman also illuminates aspects of the Anglo American special relationship as revealed in several cases British nonintervention in Iran in 1951 U S nonintervention in Indochina in 1954 U S commitments to Taiwan that Britain opposed 1954 1955 and British intervention and then withdrawal during the Suez War of 1956 These historical examples go far to explain the context within which the Blair administration failed to prevent the U S government from pursuing war in Iraq at a time of unprecedented American power Rough Sets Andrea Campagner, Oliver Urs Lenz, Shuyin Xia, Dominik Ślęzak, Jarosław Wąs, JingTao Yao, 2023-12-30 This book constitutes the refereed proceedings of the International Joint Conference on Rough Sets IJCRS 2023 held in Krakow Poland during October 5 8 2023 The 43 full papers included in this book were carefully reviewed and selected from 83 submissions They were organized in topical sections as follows Rough Set Models Foundations Three way Decisions Granular Models Distances and Similarities Hybrid Approaches Applications Cybersecurity and IoT **Rough Sets** Qinghua Zhang, Christopher Henry, Richard Jensen, Xinbo Gao, Guoyin Wang, JingTao Yao, Chris Cornelis, Shuyin Xia, 2025-06-16 This three volume set LNAI 15708 15709 15110 constitutes the proceedings of the International Joint Conference on Rough Sets IJCRS 2025 held in Chongqing China during May 11 13 2025 The 90 full papers included in these volumes were carefully reviewed and selected from 187 submissions They are organized in topical sections as follows Part I Rough Set Models and Foundations Fuzzy Rough Sets and Rough Fuzzy Sets and Granular Computing Part II Rough Set Applications Feature Selection and Knowledge Discovery and Cognitive Computing Part III Three way Data

manage them *Interpartner Dynamics in Strategic Alliances* T. K. Das, 2013-04-01 *Interpartner Dynamics in Strategic Alliances* is a volume in the book series *Research in Strategic Alliances* that will focus on providing a robust and comprehensive forum for new scholarship in the field of strategic alliances. In particular, the books in the series will cover new views of interdisciplinary theoretical frameworks and models, significant practical problems of alliance organization and management, and emerging areas of inquiry. The series will also include comprehensive empirical studies of selected segments of business, economic, industrial, government, and non-profit activities with wide prevalence of strategic alliances. Through the ongoing release of focused topical titles, this book series will seek to disseminate theoretical insights and practical management information that will enable interested professionals to gain a rigorous and comprehensive understanding of the field of strategic alliances. *Interpartner Dynamics in Strategic Alliances* contains contributions by leading scholars in the field of strategic alliance research. The 13 chapters in this volume cover a number of significant topics that speak to the critical issues in the interactions between partner firms in strategic alliances. The chapter topics cover both the broader issues such as relational mechanisms in alliances, role of interpersonal networks, parental control of joint ventures, conflict management, interpartner diversity, and multilevel embeddedness in multilateral alliances, and the more focused problems of alliance competence, roles of third parties, accounting for partner trust, relationship quality in construction alliances, and how natural resources may impact alliance formation. The chapters include empirical as well as conceptual treatments of the selected topics and collectively present a wide-ranging review of the noteworthy research perspectives on interpartner dynamics in strategic alliances.

Alliance and Conflict Ernest S. Burch, 2005-01-01 *Alliance and Conflict* combines a richly descriptive study of intersocietal relations in early nineteenth-century Northwest Alaska with a bold theoretical treatise on the structure of the world system as it might have been in ancient times. Ernest S. Burch Jr. illuminates one aspect of the traditional lives of the Iñupiat Eskimos in unparalleled detail and depth. Basing his account on observations made by early Western explorers, interviews with Native historians, and archeological research, Burch describes the social boundaries and geographic borders formerly existing in Northwest Alaska and the various kinds of transactions that took place across them. These ranged from violence of the most brutal sort at one extreme to relations of peace and friendship at the other. Burch argues that the international system he describes approximated in many respects the type of system existing all over the world before the development of agriculture. Based on that assumption, he presents a series of hypotheses about what the world system may have been like when it consisted entirely of hunter-gatherer societies and about how it became more centralized with the evolution of chiefdoms. Accounts of specific people, places, and events add an immediate experiential dimension to the work, complementing its theoretical apparatus and sweeping narrative scope. Provocative and comprehensive, *Alliance and Conflict* is a definitive look at the greater world of Native peoples of Northwest Alaska.

The Greek-Turkish Relationship and NATO Dr Fotios Moustakis, 2004-11-23 This publication shows that the

Eastern Mediterranean having been transformed from a region of secondary importance during the Cold War to one of greater importance for the western interests in the post Cold War era is in a state of flux Despite sporadic periods of rapprochement tensions between Greece and Turkey still exist Therefore one must question the grounds behind the lack of normal relations that exist between these two NATO members and its effects on the NATO organisation as a whole Hence this volume has two purposes first to examine Greek and Turkish foreign security and defence policies during and after the post Cold War period and second to investigate why these policies have been formulated

Manipulating the Strong Justin Wakefield Nicholson, 2021 This dissertation examines how weak states manipulate the incentives of strong states to achieve their own ends in international bargaining over alliances and international cooperation in areas such as counter terror operations nuclear non proliferation and conflict First I examine moral hazard problems in international aid for policy relationships Donor states face a compliance dilemma On the one hand providing aid generates

short term incentives for a client state to comply with desired policies such as eliminating terrorists within their borders. On the other hand, the client state may fail by succeeding; failure to eliminate terrorists creates incentives for the donor to continue to provide aid in the future. I present a formal moral hazard model to study the compliance dilemma. It shows that the shadow of the future is sufficient to cause suboptimal efforts to fight terrorists in the client state even if their government receives a direct benefit from monopolizing violence. One partial solution is for donor states to launch a limited intervention independent of their allies. This intervention directly contributes to achieving their objectives but also reduces the bite of the moral hazard issue. Examining the relationship between the United States and Pakistan illustrates the mechanisms of the model. Second, I examine how nuclear latency (development of the ability to build nuclear weapons) affects a state's ability to secure a place under the U.S. nuclear umbrella. The United States has long opposed nuclear proliferation. However, empirically many U.S. allies have chosen to research and develop nuclear capabilities. Existing theories do not account for the interrelated strategic choices to enter alliances and pursue nuclear weapons, nor do empirical estimates incorporate this strategic behavior. I construct a strategic probit model based on a new theory in which weaker states strategically manipulate nuclear development to influence strong states' alliance offers. Strong states select weak states into alliances to change their nuclear development calculus. The estimates overturn two pieces of conventional wisdom. First, nuclear latency can push past entrapment concerns in uncertain security environments to drive alliance formation. Second, I show that high latency states that are militarily strong can use latency to secure alliance guarantees. Finally, I examine the effect of alliances with a militarily strong state on the risk of protégé-initiated conflict. The literature widely argues that asymmetric alliances, where a powerful, often nuclear-armed state commits to the defense of a weaker protégé state, encourages revisionism against third parties. The leading explanation for this tendency is moral hazard. However, in contrast to this literature, I argue that adverse selection driven by uncertainty over patron preferences at the time of alliance formation drives both the pattern of conflict initiation observed in the literature and significant restraint by protégés in alliances. I build a formal model of asymmetric alliance formation and coercive bargaining and then test the theory using an empirical strategic model of alliance formation that allows for adverse selection into alliance arrangements. Once I account for the adverse selection problem, I find that alliances are restraining.

Foreign Operation Methods Lawrence S. Welch, Gabriel R.G. Benito, Bent Petersen, 2018. The choice of foreign operation methods, whether they are used singly or in combination, is a critical question for internationalising companies. This thoroughly updated edition of a successful text provides comprehensive coverage of the main tools companies use in seeking to penetrate foreign markets, covering investment, exporting, and contractual arrangements such as franchising and management contracts. An important feature of this book is its thorough overview of theoretical and strategic perspectives such as mode packaging, mode switching, and mode flexibility, and will be invaluable for

Hard Power, Soft Power and the Future of Transatlantic

Relations Thomas L. Ilgen, 2016-04-22 The dynamics of transatlantic relations in the twenty first century have been shaped by an American preference for the exercise of its considerable hard power capabilities while Europeans have preferred to draw upon the considerable soft power resources that have grown from their enviable internal processes of integration These diverging power preferences have differential impacts on the management of Atlantic security economic and social and cultural relations The contributors long time observers and analysts of the Atlantic partnership debate how problematic security relations are likely to continue to be discuss how successfully economic affairs will be managed and examine the continuing frictions in domestic politics of social and cultural matters that should be manageable if both European and American leaders work actively and responsibly to encourage policy convergence

Why States Rebel Magdalena

Kirchner, 2016-03-21 Given the fact that two thirds of all intrastate wars since 1945 have included foreign interventions what drives sovereign states to support non state conflict parties In order to understand causes and calculations of this particular type of third party intervention this book connects some of the most important contemporary debates in international relations ranging from security cooperation between states and non state actors to the effects of intervention on both local conflict dynamics and interstate relations Presenting a new theoretical framework and a multidimensional concept of support endorsement hosting as well as financial and military assistance this book establishes a systematic path between international as well as domestic incentives and specific types of sponsorship policies In a subsequent comparative analysis the author examines conditions and dynamics of Syria s cooperation with Fatah the Kurdistan Workers Party and Hizballah from 1964 to 2006
