A Layman'S View of Seventy Years of America'S Foreign Policy Ben A. Watford, 2012-03-05 In theory this treatise should include the more than 115 countries that the United States has military presence and the Central Intelligence Agency has operatives However that would be overstating the intention of the treatise What is endeavored here is an attempt to give the American people a short view of the involvement of America the National Security Agency and the Central Intelligence Agency in world affairs It is not the intent of this treatise to be a criticism of my homeland the United States of America Indeed in most countries on the globe I would be arrested jailed tortured and put to death for even attempting such a project The very fact that I can write this book and still be alive is a testament to Americas unique form of capitalism
