The Farmers' Register ,1836 **The Homelessness of Being** Prashan Ranasinghe,2025-03-14 The Homelessness of Being invites readers to consider what it means to be human This dialogue between sociology and the early and middle phases of

Heidegger's writings argue that to be human is to be homeless. This homelessness is not one of materiality of being houseless but one that is ontological, the homelessness that constitutes the essence of humanity where one is disconnected from the essence of one's self or being. Prashan Ranasinghe theorizes this homelessness as an indeterminate nothingness where the notion of being is unsettled because it is an amalgam of something and nothing. More broadly, the book adds to existing debates about whether, especially after the global pandemic, the social sciences have failed to explore everyday affects such as anxiety and boredom as revelatory of the essential homelessness of being human. It will interest philosophers, sociologists, and scholars engaging with Heidegger's ideas.

The Fundamental Concepts of Metaphysics Martin Heidegger, 1996-01-22

An important addition to the translations of Heidegger's lecture courses, Heidegger's voice can be heard with few of the jolting Germanicisms with which so many translations of Heidegger's texts have been burdened. International Philosophical Quarterly. The translators of these lectures have succeeded splendidly in giving readers an intimation of the tensely insistent tone of the original German. Heidegger's concern with a linguistic preconsciousness and with our entrancement before the enigma of existence remains intensely contemporary. Choice. There is much that is new and valuable in this book, and McNeill and Walker's faithful translation makes it very accessible.

Review of *Metaphysics*. Whoever thought that Heidegger has no surprises left in him had better read this volume. If its rhetoric is hard and heavy, its thought is even harder and essentially more daring than Heideggerians ever imagined. Heidegger could be David Farrell Krell.

First published in German in 1938 as volume 29/30 of Heidegger's collected works, *The Fundamental Concepts of Metaphysics* includes an extended treatment of the history of metaphysics and an elaboration of a philosophy of life and nature. Heidegger's concepts of organism, animal, behavior, and environment are uniquely developed and defined with intensity. This work, the text of Martin Heidegger's lecture course of 1929/30, is crucial for an understanding of Heidegger's transition from the major work of his early years, *Being and Time*, to his later preoccupations with language, truth, and history. First published in German in 1983 as volume 29/30 of Heidegger's collected works, *The Fundamental Concepts of Metaphysics* includes an extended treatment of the history of metaphysics and an elaboration of a philosophy of life and nature. Heidegger's concepts of organism, animal, behavior, and environment are uniquely developed and defined with intensity.

Who One Is J.G. Hart, 2009-04-21

Both volumes of this work have as their central concern to sort out who one is from what one is. In this Book 1, the focus is on transcendental phenomenological ontology. When we refer to ourselves, we refer both non-ascriptively in regard to non-properties as well as ascriptively in regard to property aspects of ourselves. The latter is the richness of our personal being; the former is the essentially elusive central concern of this Book 1. I can be aware of myself and refer to myself without it being necessary to think of any third personal characteristic; indeed, one may be aware of oneself without having to be aware of anything except oneself. This consideration opens the door to basic issues in phenomenological ontology such as identity, individuation, and substance. In our knowledge and love of Others, we find symmetry with the first

person self knowledge both in its non ascriptive forms as well as in its property ascribing forms Love properly has for its referent the Other as present through but beyond her properties Transcendental phenomenological reflections move us to consider paradoxes of the transcendental person For example we contend with the unpresentability in the transcendental first person of our beginning or ending and the undeniable evidence for the beginning and ending of persons in our third person experience The basic distinction between oneself as non sortal and as a person pervaded by properties serves as a hinge for reflecting on the afterlife This transcendental phenomenological ontology of necessity deals with some themes of the philosophy of religion

The Gift of Beauty and the Passion of Being William Desmond,2018-07-06 This book gathers a set of reflections on the gift of beauty and the passion of being There is something surprising about beauty that we receive and that moves the passion of being in us The book takes issue with an ambiguous attitude to beauty among some who proclaim their advanced aesthetic authenticity Beauty seems bland and lacks the more visceral thrill of the ugly indeed the excremental We crave what disrupts and provokes us not what gives delight or even consoles By contrast attention is given to how beauty arouses enigmatic joy in us and we enjoy an elemental rapport with it as other Surprised by beauty our breath is taken away but we are more truly there with the beautiful when we are taken outside of ourselves We are first receivers of the gift of surprise and only then perceivers and conceivers My attention to the passion of being stresses a patience a receptivity to what is other What happens is not first our construction There is something given something awakening something delighting something energizing something of invitation to transcendence The theme is amplified in diverse reflections on life and its transient beauty on soul music and its relation to self on the shine on things given in creation on beauty and Schopenhauer s dark origin on creativity and the dynamis in Paul Weiss s creative ventures on redemption in Romanticism in the thought of Stanley Cavell on theater as a between or metaxu on redeeming laughter and its connection with the passion of being
