Mobile Payments, Consumer Policy, and the Law Nwanneka Ezechukwu, 2023-03-17 Mobile technology offers an innovative and cost-effective channel for delivering a range of financial services including mobile payments. In some jurisdictions mobile payments simply provide a convenient option for facilitating payment transactions. In other jurisdictions mobile payments are viewed as potentially transformative because they present an opportunity to expand access to financial services. However, as with other innovations, mobile payments raise consumer protection concerns and require robust regulatory mechanisms to address such concerns. Against this backdrop, the book adopts a typology of consumer policy tools which can be used to address the identified consumer concerns. This typology guides the enquiry into the existing consumer protection frameworks applying to mobile payments in selected jurisdictions: Canada, Kenya, and the United Kingdom. The main objective of this endeavour is to identify best practices that national authorities seeking to leverage mobile payments and similar innovations can emulate. This book will be of interest to policymakers, regulators, industry stakeholders, students, and scholars interested in the regulation of innovative financial services, particularly from a consumer protection perspective.

Justice Reform and Conflict Resolution in Africa and Asia: Comparative Analyses and Case Studies Yin, Elijah Tukwariba, Kofie, Nelson F., 2021-06-18. The civil justice system is characterized by a distinct dispute resolution and law enforcement functions, although these functions are not always explicit and their relationship can be vague. People normally turn to this legal system to address an unjust situation they encounter. This makes civil justice both socially and economically important as it may be driven by efficiency or access to justice concerns. The literature suggests that law reform has an uninspiring record in this field. This is because it has largely not been considered with a detailed empirically informed evaluation of proposed solutions. This legal system is complex, and research in this field is correspondingly challenging, interesting, and important. **Advancing Civil Justice Reform and Conflict Resolution in Africa and Asia: Comparative Analyses and Case Studies** provides significant empirical research findings as well as theoretical reviews and frameworks on a wide array of issues within civil justice and the legal system. This includes topic areas such as access to justice and legal representation, the challenges to developing civil justice courts and procedures, and civil justice reform. This book is valuable for lawyers, human rights lawyers, court officials, psychologists, social workers, sociologists, consultants, professionals, academicians, students, and researchers working in the field of law, socio-legal studies, sociology, anthropology, political science, social work, social policy, economics, and criminal justice, along with anyone seeking updated information on the current reforms and challenges within the civil justice and legal systems. **Mediation and other forms of Alternative Dispute**

Providing theoretical and practical insights, the book begins with a critical examination of the tenets on which ADR is based, where it sits in relation to civil law, and how it is applied in different national contexts. It discusses the various areas in which mediation or arbitration can be applied, from family mediation to restorative justice, and includes chapters on the ethics of mediation and its psychology, as well as an introduction to online dispute resolution (ODR). The concluding chapter offers some thoughts on the benefits and challenges of mediation. Featuring a glossary of key terms, detailed case law, end of chapter
