constitue la première vue d'ensemble de la production d'Aalto en tant que designer. Il permet de préciser le travail de l'artiste d'un point de vue structurel sa recherche de lignes et de formes nouvelles tout en le replaçant dans les préoccupations sociologiques qui l'ont toujours motivé. Ainsi est mise en lumière la sensibilité de cet architecte en matière de design qui s'étend avec une rigueur et une qualités de l'urbanisme des grands projets au mobilier conçu pour les habitants des fauteuils aux objets de verre des poignées de porte aux luminaires.

Alvar Aalto Göran Schildt, Alvar Aalto, 1994 With the full cooperation of the Alvar Aalto Foundation Göran Schildt has explored its archives and some 20 000 letters memoranda and contemporary newspaper cuttings as well as many building models to ensure that every work is included in this volume.

Alvar Aalto Houses Jari Jetsonen, Alvar Aalto, Markku Lahti, 2005 During the course of a career spanning over 50 years Alvar Aalto designed nearly 100 single family houses. Many of them are architectural gems where his thoughts about dwelling and architecture come together. Aalto considered experimental building to be very important in his opinion there should always be an opportunity for experimentation in every project for it is only in that way that architecture can be promoted and quality improved for the good of the little man. It was specifically in the designing of single family houses that Aalto could realize new ideas. Aalto's single family houses can be divided into three groups: houses for individuals the client of which was nearly always a relative or friend; houses designed for industrial institutions or other communities; and type or standard houses. All the houses presented in *Alvar Aalto Houses* were originally designed for private clients. The book presents eight single family houses by Aalto from 1920s to the end of the 1960s built in Finland Estonia and France. Book jacket

Alvar Aalto Mateo Kries, Jochen Eisenbrand, Vitra Design Museum, Caixa Forum (Barcelona), 2014 The Magus of the North this was the epithet which architecture critic Sigfried Giedion found for Alvar Aalto 1898-1976 the best known Finnish architect of his generation and a major exponent of a different kind of modernism one conceived on a more human scale. His buildings such as the Paimio Tuberculosis Sanatorium or the legendary Villa Mairea stand for a masterly organic combination of volumes materials and light. His laminated plywood chairs made him one of the most important designers of the twentieth century while his Savoy Vase has come to be seen as the epitome of Finnish and organic design. *Alvar Aalto Second Nature* draws on recent research into Aalto's oeuvre to present a comprehensive overview of his work in architecture design and urban planning with a special focus on his dialogue with major contemporary artists including László Moholy-Nagy Hans Arp Alexander Calder and Fernand Léger and his fascination with film cinema and photography. The book features eleven essays by authors from various countries. The catalogue section presents numerous original drawings from the Alvar Aalto Museum and pieces of Aalto furniture from the holdings of the Vitra Design Museum. A complete list of all his buildings and projects is also included along with several photographic essays by the artist Armin Linke showing Aalto's buildings from a contemporary perspective.
