1946-1967 John Fox, 2016-05-15 Explores the fascinating post war history of Alvis Cars [Alvis](#) Matthew Vale, 2019-05-13

This book tells the story of Alvis and its cars aero engines and military vehicles Starting with the formation of the company in 1919 it traces the company s products through the 1920s and 1930s and through its wartime exploits to its eventual takeover

by Rover The book covers the early four cylinder cars the amazing six cylinder cars early ventures into armoured car and aero engine production the post WWII four and six cylinder cars the Leonides post World War II aero engines and finally the post World War II military vehicles *The Enthusiasts' Guide to Buying a Classic British Sports Car* Peter Hingston,2007

Secret Rovers James Taylor,Douglas Cooke,2025-04-29 In the late 1960s the old Rover Company put everything it knew into a complex luxury saloon codenamed P8 At the same time it planned to branch out into a new sector of the market with a stunningly advanced mid engined sports car prototype that became a formal project with the codename of P9 However with the forced merger into British Leyland in 1968 Rover found itself squeezed between Triumph and Jaguar neither marque welcomed the new sports car and Jaguar particularly did not welcome the new luxury saloon Little by little Rover s plans were undermined and in 1970 the sports car was killed off followed by the luxury saloon which was axed in 1971 a mere six months before production was due to start Just a year later Rover itself ceased to exist as a separate business after a forced merger with Triumph Motor ,1955 **Harry Varley** Ian Coomber,2023-09-17 A remarkable eighty year adventure spanning the golden age of twentieth century mechanical and motor vehicle engineering Born into an ecclesiastical family Harry Varley had a burning ambition to be the best engineer he could He was one of the three man team that designed the iconic 3 litre Bentley and fifty seven years later he created a new engine for the same car A skilled draughtsman and designer he worked at multiple companies on cars aircraft and agricultural machinery He designed the badge which appears on every Vauxhall a revolutionary internal combustion engine piston and was employed on projects at Cubitt Crossley and Streamline Cars On secondment in the Second World War he helped develop the largest diesel engine made by Perkins Engines balloon winches and gun mountings finishing at Rolls Royce where he retired as chief planning engineer The design and manufacture of his Varley engine took nine years of grit and determination Having received reports that it had achieved its design objectives he died aged ninety three his life s work complete Alvis Cars in Competition Clive Taylor,2018-05-15 An illustrated look at Alvis cars to mark the company s centennial year through cars from 1919 to the 1960s **British Car Advertising of the 1960s** Heon Stevenson,2015-03-27 During the 1960s the automobile finally secured its position as an indispensable component of daily life in Britain Car ownership more than doubled from approximately one car for every 10 people in 1960 to one car for every 4.8 people by 1970 Consumers no longer asked Do we need a car but What car shall we have This well illustrated history analyzes how both domestic car manufacturers and importers advertised their products in this growing market identifying trends and themes Over 180 advertisement illustrations are included **Discovering Lost Automobiles and their Stories** Michael Ware,2023-01-31 Many enthusiasts dream of finding a Bugatti or a Bentley in a barn or a long disused building In reality such finds are more likely to be an Austin 7 Ford Popular or a Mini This book is stuffed with these so called barn finds The author has tried to find out the background to the abandonment and the previous history of the as found car when it was in regular use Why was it put away and apparently forgotten Many of the stories have

appeared in his Lost and Found column in Classic and Sports Car magazine but a book gives a chance for the expanded story to be told The cars featured date from 1900 through till the 1980 s most come from Great Britain and Europe but there are plenty from Australasia and USA There are well over 200 different cars plus collections featured Each story has at least one illustration to go with it Some of the locations are bizarre a Daimler buried under a rockery a Porsche sunk in Lake Lucerne a Rolls Royce on the roof of a high rise building in Karachi or a Morris 8 special in a Gloucestershire pond There is a chapter on collections of cars put together by seemingly eccentric owners who never got around to restoring them before their death The author is not critical of any of these owners and is grateful for the number of cars they have saved from almost certain destruction
