information The articles selected for this compendium are well thought out and organized and are drawn from the fields of information and library science and business management Since most special libraries are corporate libraries the selections are taken from these different disciplines to provide perspectives from both a business standpoint and an information management one The selections contain many different predictions about libraries and librarians of the future They focus on new roles and highlight the importance of the profession With the rapid growth of technology end users are being inundated with choices They need expert advice from experienced practitioners Currently much of the literature focuses solely on the management of libraries as opposed to environment in which libraries operate The purpose of this reader is to correct that
