Symbolic Interactionism: The

Basics Charles Quist-Adade, 2019-03-15 This book is a survey of Symbolic Interaction. In thirteen short chapters it traces the history, the social philosophical roots, the founders, movers and shakers, and evolution of the theory Symbolic Interactionism. The Basics takes the reader along the exciting but tortuous journey of the theory and explores both the meta-theoretical and mini-theoretical roots and branches of the theory. Symbolic interactionism or sociological social psychology traces its roots to the works of United States sociologists George Herbert Mead, Charles Horton Cooley, and Herbert Blumer, and a Canadian sociologist Erving Goffman. Other influences are Harold Garfinkel's Ethnomethodology and Austrian American Alfred Schutz's study of Phenomenology. Symbolic Interactionism Basics explores the philosophical sources of symbolic interactionism, including pragmatism, social behaviorism, and neo-Hegelianism. The intellectual origins of symbolic interactions can be attributed to the works of William James, George Simmel, John Dewey, Max Weber, and George Herbert Mead. Mead is believed to be the founder of the theory, although he did not publish any academic work on the paradigm. The book highlights the works of the intellectual heirs of symbolic interactionism: Herbert Blumer (Mead's former student who was instrumental in publishing the lectures of his former professor posthumously with the title Symbolic Interactionism), Erving Goffman, and Robert Park.
