**The Odyssey of China's Imperial Art Treasures** Jeannette Shambaugh Elliot, David Shambaugh, 2015-07-16 The Odyssey of China s Imperial Art Treasures traces the three thousand year history of the emperor s imperial collection from the Bronze Age to the present The tortuous story of these treasures involves a succession of dynasties invasion and conquest and civil war resulting in valiant attempts to rescue and preserve the collection Throughout history different Chinese regimes used the imperial collection to bolster their own political legitimacy domestically and internationally The narrative follows the gradual formation of the Peking Palace Museum in 1925 then its hasty fragmentation as large parts of the collection were moved perilously over long distances to escape wartime destruction and finally its formal division into what are today two Palace Museums one in Beijing the other in Taipei Enlivened by the personalities of those who cared for the collection this textured account of the imperial treasures highlights magnificent artworks and their arduous transit through politics war and diplomatic reconciliations Over the years control of the collections has been fiercely contested from early dynasties through Mongol and Japanese invaders to Nationalist and Communist rivals a saga that continues today This first book length investigation of the imperial collections will be of great interest to China scholars historians and Chinese art specialists Its

Barnhart, Xin Yang, Nie Chongzheng, James Cahill, Hung Wu, Lang Shaojun, 1997-01-01 Written by a team of eminent international scholars this book is the first to recount the history of Chinese painting over a span of some 3000 years Art, Religion, and Politics in Medieval China Qiang Ning, 2004-01-01 The cave temple complex popularly known as the Dunhuang caves is the world's largest extant repository of Tang Buddhist art Among the best preserved of the Dunhuang caves is the Zhai Family Cave built in 642 It is this remarkable cave temple that forms the focus of Ning Qiang's cross disciplinary exploration of the interrelationship of art religion and politics during the Tang In his careful examination of the paintings and sculptures found there the author combines the historical study of pictures with the pictorial study of history By employing this two fold approach he is able to refer to textual evidence in interpreting the formal features of the cave temple paintings and to employ visual details to fill in the historical gaps inevitably left by text oriented scholars The result is a comprehensive analysis of the visual culture of the period and a vivid description of social life in medieval China and remained hidden until the early 1940s Once exposed the early artwork appeared fresh and colorful in comparison with other Tang paintings at Dunhuang The relatively fine condition of the Zhai Family Cave is crucial to our understanding of the original pictorial program found there and offers a unique opportunity to investigate the visual details of the original paintings and sculptures in the cave At the same time the remaining traces of reconstruction and redecoration provide a new perspective on how for over three centuries a wealthy Chinese clan used its familial cave as a political showcase Art Religion and Politics in Medieval China The Dunhuang Cave of the Zhai Family is an in depth study on the meaning and function of an exemplary Tang memorial cave and an important contribution to studies of Chinese religion politics sociology literature and folklore as well as to Chinese art history **The Art of the Chinese Picture-Scroll** Shane McCausland, 2023-10-25 The first extended history of the Chinese picture scroll The Chinese picture scroll a long horizontal painting or calligraphic work has been China

The Measure of Civilization Ian Morris,2014-02-23 A groundbreaking look at Western and Eastern social development from the end of the ice age to today In the past thirty years there have been fierce debates over how civilizations develop and why the West became so powerful The Measure of Civilization presents a brand new way of investigating these questions and provides new tools for assessing the long term growth of societies Using a groundbreaking numerical index of social development that compares societies in different times and places award winning author Ian Morris sets forth a sweeping examination of Eastern and Western development across 15 000 years since the end of the last ice age He offers surprising

conclusions about when and why the West came to dominate the world and fresh perspectives for thinking about the twenty first century Adapting the United Nations approach for measuring human development Morris s index breaks social development into four traits energy capture per capita organization information technology and war making capacity and he uses archaeological historical and current government data to quantify patterns Morris reveals that for 90 percent of the time since the last ice age the world s most advanced region has been at the western end of Eurasia but contrary to what many historians once believed there were roughly 1 200 years from about 550 to 1750 CE when an East Asian region was more advanced Only in the late eighteenth century CE when northwest Europeans tapped into the energy trapped in fossil fuels did the West leap ahead Resolving some of the biggest debates in global history The Measure of Civilization puts forth innovative tools for determining past present and future economic and social trends

**Agreements in Private International Law** Mary Keyes,2019-10-18 This book highlights the importance of optional choice of court agreements and the need for future research and legal development in this area The law relating to choice of court agreements has developed significantly in recent years reflecting their increased use in practice However most recent legal developments concern exclusive choice of court agreements In comparison optional choice of court agreements also called permissive forum selection clauses and non exclusive jurisdiction clauses have attracted little attention from lawmakers or commentators This collection is comprised of 19 National Reports providing a critical analysis of the legal treatment of optional choice of court agreements including asymmetric choice of court agreements under national laws as well as under multilateral instruments It also includes a General Report offering an overview of this area of the law and a synthesis of the findings of the national reporters The contributions to this collection show that the legal treatment of optional choice of courts differs between legal systems In some countries the law on the effect of optional choice of court agreements is at an early stage in its development whereas in others the law is relatively advanced Irrespective of this the national reporters identify unresolved issues with the effect of optional choice of court agreements where the law is unclear or the cases are conflicting demonstrating that this topic warrants greater attention This book is of interest to judges legislators lawyers academics and students who are concerned with private international law and international civil procedure
