Paeth, 2010 In these essays honoring ethicist Max Stackhouse leading Christian scholars consider the historical roots and ongoing resources of public theology as a vital element in the church's engagement with global issues Public Theology for a Global Society explores the concept of public theology and the challenge of relating theological claims to a larger social and political context The range of essays included here allows readers to understand public theology as both theological practice and public speech and to consider the potential and limits of public theology in ecumenical and international networks The essays begin by introducing the reader

to the development of public theology as an area of study and to the historical interrelationship of religious legal and professional categories The later essays engage the reader with emerging problems in public theology as religious communities encounter shifting publics that are being transformed by globalization and sweeping political and technological changes The breadth and scholarship of Public Theology for a Global Society make this volume a fitting tribute to Stackhouse a central figure in Christian ethics and pioneer in the church's study of globalization

Karl Barth's Theology of Relations, Volume 2 Gary Deddo, 2015-08-04 This work originally published as one volume in the Peter Lang series Issues in Systematic Theology is now available in two volumes In the first volume Gary Deddo shows how Barth grasped the nature of relations as intrinsic to the being and act of the Triune God and to God's relations to us and our relationship to God in Christ Deddo then completes his comprehensive survey showing how Barth saw the reality of the divine relationships analogically pertains by grace to humanity and its creaturely relationships Barth's doctrine of God Christology and theological anthropology are all intrinsically onto relational to borrow a term coined by Thomas F Torrance In the second volume Deddo shows how Barth's relational theology is intrinsically ethical As a case study Deddo explicates Barth's ethical teaching on the relationship between parents and children found in section 54 of his chapter on Freedom in Fellowship in CD III 4 He further demonstrates the relevance and fruitfulness of Barth's theology of relations for critically engaging other theological and non theological views of the family and for shedding ethical light on a wide range of contemporary issues facing families especially in the North American context Karl Barth is known for his insight into the inseparability of act and being in God What is less recognized is that Barth's theological understanding of dynamic covenantal relationship is also essential to his doctrine of the Triune God his Christology and theological anthropology God is revealed in Jesus Christ to be one in act being and relation Humanity is revealed in Jesus Christ to be essentially a unity of

act being and relation The failure to see the ethical implications of Barth's theology can be traced in large part to the failure to grasp how Barth's understanding of God's being and act is also essentially relational Deddo's work corrects this oversight and opens up the door to better comprehension of Barth's trinitarian doctrine of God his Christology anthropology and ethics

Marriage and Divorce in a Multi-Cultural Context Joel A. Nichols, 2011-10-31 American family law makes two key assumptions first that the civil state possesses sole authority over marriage and divorce and second that the civil law may contain only one regulatory regime for such matters These assumptions run counter to the multicultural and religiously plural nature of our society This book elaborates how those assumptions are descriptively incorrect and it begins an important conversation about whether more pluralism in family law is normatively desirable For example may couples rely upon religious tribunals Jewish Muslim or otherwise to decide family law disputes May couples opt into stricter divorce rules either through premarital contracts or covenant marriages How should the state respond Intentionally interdisciplinary and international in scope this volume contains contributions from fourteen leading scholars The authors address the provocative question of whether the state must consider sharing its jurisdictional authority with other groups in family law **Christian Perspectives on Legal Thought** Michael W. **Diversity in America** Peter H. Schuck, 2003 America is the first society in history to make ethno racial diversity an affirmative social ideal rather than viewing it as a fearful menace as almost all other societies still do Since the 1960s America has pursued this ideal in many forms not only to remedy past discrimination against minorities but also to increase diversity for its own sake It is high time for an accounting How diverse are we now and what can we expect in the future Why do we unlike the rest of the world think that diversity is desirable and that more of it is better What risks does diversity pose What are the roles of law politics and informal social controls in promoting diversity How can we manage diversity better In this magisterial book Peter H Schuck explains how Americans have understood diversity how we came to embrace it how the government regulates it now and how we can do better He mobilizes a wealth of conceptual historical legal political and sociological analysis to argue that diversity is best managed not by the government but by families ethnic groups religious communities employers voluntary organizations and other civil society institutions Analyzing some of the most controversial policy arenas where politics and diversity intersect immigration multiculturalism language affirmative action residential neighborhoods religious practices faith based social services and school choice Schuck reveals the conflicts trade offs and ironies entailed by our commitment to the diversity ideal He concludes with recommendations to help us manage the challenge of diversity in the future

Public Theology in Korea? Minseok Kim, 2021 Public Theology is one of the most important topics in the field of theology across the world but not in Korea There are several historical and theological reasons for this indifference of Korean

Reformed Christianity as the mainstream in Korea In order to dispel doubts of Korean Reformed Christianity to the public theological approaches it is necessary to demonstrate a coherence between some characteristics of public theology and Reformed theology This study analyses and utilises the six characteristics of public theology presented by Heinrich Bedford Stroh as a lens to engage aspects of John Calvin's theology and the period of the Reformation in Geneva Based on this work the author re-examines the history of Korean Christianity with a public theological point of view and asserts the justification for Korean Reformed Christianity to actively embrace public theological approaches *A Textbook of Christian Ethics* Robin Gill, 2006-01-01 A new updated third edition of the most successful and widely used textbook on Christian ethics **The Local Church in a Global Era** Max L. Stackhouse, Tim Dearborn, Scott Paeth, 2000 This important volume explores the implications of the emerging global society for the local church and its mission Written by prominent scholars and missionaries *The Local Church in a Global Era* examines the relation of Christian theology and ethics to global changes in the family economics technology education the media and other key spheres of life *Shaping Public Theology* Max L. Stackhouse, 2014-01-30 Max L. Stackhouse is one of the most prolific and influential American theologians of the last half century and he has been widely recognized for his contributions to the emerging field of public theology This volume compiles some of Stackhouse's most significant shorter writings These selections make clear his central role in the development of public theology as a distinct disciplinary perspective in the fields of Christian theology and theological ethics *Shaping Public Theology* serves as an introduction to Stackhouse's extensive corpus readers will see the depth and breadth of his comprehensive public theology while also gaining insight into his singular importance for the field **The Hermeneutical Spirit** Amos Yong, 2017-11-06 In the contemporary biblical studies climate proposals regarding the theological interpretation of Scripture are contested particularly but not only because they privilege encourage and foster ecclesial or other forms of normative commitments as part and parcel of the hermeneutical horizon through which scriptural texts are read and understood Within this context confessional approaches have been emerging including some from within the nascent pentecostal theological tradition This volume builds on the author's previous work in theological method to suggest a pentecostal perspective on theological interpretation that is rooted in the conviction that all Christian reading of sacred Scripture is post Pentecost meaning after the Day of Pentecost outpouring of the Spirit on all flesh in anticipation of the coming reign of God In that respect such a pentecostal interpretative perspective is not parochially for those within the modern day movement bearing that name but is arguably apostolic in following after the scriptural imagination of the earliest disciples of Jesus the messiah and therefore has ecumenical and missional purchase across space and time *The Hermeneutical Spirit* thus provides close readings of various texts across the scriptural canon as a model for Christian theological interpretation of Scripture suitable for the twenty first century global context *Christian Social Ethics* Glennon, Fred, 2021-03-17 A college level introductory text in Christian social ethics that combines theory cases and analysis
