*The Export Administration Act of 2001 : report of the Committee on Banking, Housing, and Urban Affairs, United States Senate, to accompany S. 149, together with additional views. , United States Congressional Serial Set, No. 14689, Senate Reports No. 1-15 , Report of the Select Committee on U.S. National Security and Military/Commercial Concerns with the People's Republic of China United States. Congress. House. Select Committee on U.S. National Security and Military/Commercial Concerns with the People's Republic of China,1999 Transmittal letter Knowledge Regulation and National Security in Postwar America Mario Daniels,John Krige,2022-04-25 The first historical study of export control regulations as a tool for the sharing and withholding of knowledge In this groundbreaking book Mario Daniels and John Krige set out to show the enormous political relevance that export control regulations have had for American debates about national security foreign policy and trade policy since 1945 Indeed they argue that from the 1940s to today the issue of how to control the transnational movement of information has been central to the thinking and actions of the guardians of the American national security state The expansion of control over knowledge and know how is apparent from the increasingly systematic inclusion of universities and research institutions into a system that in the 1950s and 1960s mainly targeted business activities As this book vividly reveals classification was not the only and not even the most important regulatory instrument that came into being in the postwar era The Cox Report Chris Cox,1999-05-01 The Cox Report investigates U S Chinese security interaction and reports that China successfully engaged in harmful espionage and obtained sensitive military technology from the United States American Political Discourse on China Michelle Murray Yang,2017-06-14 Despite the U S and China s shared economic and political interests distrust between the nations persists How does the United States rhetorically navigate its relationship with China in the midst of continued distrust This book pursues this question by rhetorically analyzing U S news and political discourse concerning the 2008 Beijing Olympic Games the 2010 U S midterm elections the 2012 U S presidential election and the 2014 2015 Chinese cyber espionage controversy It finds that memory frames of China as the yellow peril and the red menace have combined to construct China as a threatening red peril Red peril characterizations revive and revise yellow peril tropes of China as a moral political economic and military threat by imbuing them with anti communist ideology Tracing the origins functions and implications of the red peril this study illustrates how historical representations of the Chinese threat continue to limit understanding of U S Sino relations by keeping the nations relationship mired in the past United States Congressional Serial Set Catalog: Numerical Lists and Schedule of Volumes, 105th Congress, 1997-1998 U S Government Printing Office,2009 Studies in Intelligence ,2011 The End of Engagement David M. McCourt,Associate Professor of Sociology David M McCourt,2024 In The End of Engagement David M McCourt traces the intense personal professional and policy struggles over China and Russia in U S foreign policy since the end of the Cold War Drawing on 200 original interviews with America s China and Russia experts*

from former policymakers and diplomats to prominent think tankers and academics McCourt chronicles the rise and recent fall of engagement with Beijing and Moscow Adopting a unique sociological perspective this book offers an intimate look into the world of America's national security experts as they have struggled to make sense of changes in China and Russia and the remaining question of what comes next

The Cambridge Handbook of Race and Surveillance Michael

Kwet,2023-03-02 Featuring chapters authored by leading scholars in the fields of criminology critical race studies history and more The Cambridge Handbook of Race and Surveillance cuts across history and geography to provide a detailed examination of how race and surveillance intersect throughout space and time The volume reviews surveillance technology from the days of colonial conquest to the digital era focusing on countries such as the United States Canada the UK South Africa the Philippines India Brazil and Palestine Weaving together narratives on how technology and surveillance have developed over time to reinforce racial discrimination the book delves into the often overlooked origins of racial surveillance from skin branding cranial measurements and fingerprinting to contemporary manifestations in big data commercial surveillance and predictive policing Lucid accessible and expertly researched this handbook provides a crucial investigation of issues spanning history and at the forefront of contemporary life CYBERWARFARE SOURCEBOOK A. Kiyuna,L. Conyers,2015-04-14 Concerning application layer DDoS attacks Bureau 121 camfecting cyber attack threat trends ECHELON Fifth Dimension Operations Intervasion of the UK Military digital complex PLA Unit 61398 Stuxnet and more *Space as a Strategic Asset* Joan Johnson-Freese,2007-03-27 Joan Johnson Freese argues that the race for space weapons and the U S quest for exclusive or at least dominant ownership of strategic space assets have alienated the very allies that the United States needs in order to maintain its leading role in space exploration Taking a balanced look at the issues that have contributed to the decline of America s manned space program such as lack of political support and funding Johnson Freese offers not only a critique but also a plan for enhancing U S space security through cooperation rather than competition She begins with a brief overview of the history of international space development through four eras before Sputnik the space race after Apollo and globalization Then she focuses on how policy changes of the mid 1990s have changed the nation examining why the United States has grown obsessed with the development of space technology not just as a tool for globalization but as a route toward expanding an already dominant arsenal of weapons Johnson Freese claims that these policy choices have greatly affected the attitudes and actions of other countries and in the fight to achieve security the United States has instead put itself at greater peril Johnson Freese explains complex technical issues in clear accessible terms and suggests a way forward that is comprehensive rather than partisan America is not the only country with space ambitions but it is unique in viewing space as a battlefield and the technological advancements of other nations as a dire threat Urgent and persuasive *Space as a Strategic Asset* underscores the danger of allowing our space program to languish and the crucial role of cooperation in protecting the security of our country and the world United States-China Trade Relations and the Possible Accession of China to the World Trade Organization United States. Congress. House. Committee on Ways and Means. essays come to much the same conclusion that while the PLA is acquiring pockets of modern capabilities through a variety of legal and illegal endeavors these selective acquisitions do not offset the overall obsolescence of most of China's armed forces

**Congressional Policymaking in Sino-U.S. Relations during the Post-Cold War Era** Joseph A Gagliano, 2014-09-15

Conventional wisdom holds that the President enjoys the preponderance of foreign policy power however Congress has influenced China policymaking more than is generally recognized The legislature has demonstrated consistent interests in the realm of China policy and it has invariably pursued those interests through law making During the post Cold War period in particular the Sino U S relationship has evolved in a radically changing international environment marked by a power transition inherent in China's rise The development of official relations between Washington and Beijing during the Cold War occurred in the shadow of an assertive Soviet power when the United States and China were able to find common geopolitical ground in opposing Soviet expansion while overlooking longstanding political disagreements The dissolution of the Soviet empire however put the United States and China on a new geostrategic footing Political disagreements were no longer exempted in light of a counter Soviet strategy and the reduction in concern for the Soviet threat allowed policymakers in Washington to more aggressively pursue trade interests that conflicted with those of China Given this international context this book aims to discern how Congress reconciled competing Sino U S interests in a post Cold War era when external threats no longer dictated an apparent hierarchy that favored China over the Soviet Union This work will be of interest to students and scholars of US foreign policy China Studies and international relations in general
