

CPS Charging Standards

- The Charging Standards document gives useful examples of the matters that the CPS should consider in deciding the level of offence to be charged.
- In deciding whether to charge the defendant with a common assault or with a s.47 it states:

‘Where battery results in injury, a choice of charge is available. The Code for Crown Prosecutors recognises that there will be factors which may properly lead to a decision not to prefer or continue with the gravest possible charge. Thus, although any injury that is more than transient or trifling can be classified as actual bodily harm, the appropriate charge....will be contrary to section 39 where the injuries amount to no more than the following:

- ▶ Grazes;
- ▶ Scratches;
- ▶ Abrasions;
- ▶ Minor bruising
