Alameda A Geographical History:

Alameda, a Geographical History Imelda Binneboese Merlin, 1977 *The Unnaming of Kroeber Hall* Andrew Garrett, 2023-12-12

A critical examination of the complex legacies of early Californian anthropology and linguistics for twenty first century communities In January 2021 at a time when many institutions were reevaluating fraught histories the University of California removed anthropologist and linguist Alfred Kroeber s name from a building on its Berkeley campus Critics accused Kroeber of racist and dehumanizing practices that harmed Indigenous people university leaders repudiated his values In *The Unnaming of Kroeber Hall* Andrew Garrett examines Kroeber s work in the early twentieth century and his legacy today asking how a vigorous opponent of racism and advocate for Indigenous rights in his own era became a symbol of his university s failed relationships with Native communities Garrett argues that Kroeber s most important work has been overlooked his collaborations with Indigenous people throughout California to record their languages and stories *The Unnaming of Kroeber Hall* offers new perspectives on the early practice of anthropology and linguistics and on its significance today and in the future Kroeber s documentation was broader and more collaborative and multifaceted than is usually recognized As a result the records Indigenous people created while working with him are relevant throughout California as communities revive languages names songs and stories Garrett asks readers to consider these legacies arguing that the University of California chose to reject critical self examination when it unnamed Kroeber Hall
