## **Albanian Stalinism:**

Albanian Stalinism Arshi Pipa,1990      *Albanian Identities* Stephanie Schwandner-Sievers,Bernd Jürgen Fischer,2002  
The contributors to this study critically de construct Albanian myths and offer insights into Albanian history and politics They conclude with contemporary Albanian critiques of the origins and functions of Albanian politics and ideologies      Albania and Europe in a Political Regard Klodiana Beshku,Orinda Malltezi,2013-09-11 Albania and Europe in a Political Regard is a multidisciplinary work which aims to develop different points of view in the field of social sciences In this sense it is not by chance that the chapters cover a variety of different disciplines like history sociology political science and philosophy These chapters stand alone and at the same time create a whole network of relationships between Albania and Europe An important element of this work is its multidimensional considerations of Europe it is conceptualised on a number of different levels throughout the chapters sometimes as a continent sometimes as an organization and other times as a leader In some chapters Europe is understood in terms of European integration or European civilization In others Europe is simply the idea of the continent and its reflections in the Albanian society The main axis that drives the chapters is the idea of Albania in relation to Europe how this relationship is understood how it has worked in the past and how it works today The idea of Europe in this book is conceptualised and explored in a number of different ways from the idea of European modernity to a soft power from a construction of identity to a model of behaviour according to each author s varied point of view and discipline of studies All the nine chapters in this volume utilise different ways of thinking and approaches but are all connected by a common axis that is Albania and Europe in a Political Regard      *Albania at War, 1939-1945* Bernd Jürgen Fischer,1999 This work reviews the most important developments in Albania from the Italian invasion of the country in 1939 to the accession to power of the Albanian Communist Party and the establishment of a people s democracy in 1946 The author analyzes in great detail Italian goals and objectives in Albania and explains the eventual failure of Rome s policy the subsequent German invasion of the country and the rise of organized resistance movements against the Axis Powers  
Fools' Crusade Diana Johnstone,2003 A discussion of the political illusion created by the humanitarian bombing of Yugoslavia in 1999 that tests popular beliefs      *The Search for Greater Albania* Paulin Kola,2003 In this topical text Paulin Kola challenges the accepted notion that there is widespread support for a Greater Albania among the Albanian speaking peoples of the Balkans and argues that Albanians do not wish to join a single politically recognized entity He explains how the Albanians are marked by ideological religious and other divisions many of which were exacerbated by their differing reactions to nationalism as experienced in Tito s Yugoslavia and Hoxha s Albania      **Translations on International Communist Developments** ,1962      *Democratization from Within* Florian Cullhaj,2016-10-31 The nonviolent revolution of Albania reinforced the belief in the West that democracy is an exportable good if Western democracies implement a right combination of pressure and aid in collaboration with internal political actors Western pressure coupled with technical and

economic assistance was domestically understood as a *conditio sine qua non* for the successful implementation of the first phase of democratic reforms. However, efforts to establish a democracy in Albania raised the following question: Will the framing of the appropriate constitution and economic system, building democratic institutions and developing positive attitudes towards them, take place among Albanians through ongoing familiarization? Accordingly, the failure of the 1994 referendum on the new constitution, the overnight changes of the 1998 constitution in 2008 and the permanent stagnant economy strengthened the belief among Albanians that a democratic constitution and a functioning market economy cannot flourish if they are not rooted in an environment pervaded by a democratic culture. Furthermore, if democracy has to persist and become consolidated, it is not enough just to skillfully engineer institutions without taking into account the effect of political culture. Ultimately, this book attempts to show that the efforts made by the Western countries to export democracy to Albania and to promote consolidation through political tools generalized from other alien realities without taking into consideration Albania's internal political culture values have turned out to be in the long run a political abortion. On the other hand, this book should be construed neither as a critique of democracy nor as a defense of it; it is also not a balance sheet of the success or failure of democracy and democratization processes in Albania but rather it aims at presenting an alternative approach to democratic consolidation through Albania's authentic cultural heritage.

**Isolationist States in an Interdependent World** Dr Helga Turku, 2013-03-28. States that withdraw from the international system provide insight into an unexplored area of international relations in terms of rationality, self-interest, power, politics, cooperation and alliances. Indeed, isolationism in an interdependent state system goes against the logic of modern society and state systems. Using historical comparative and inductive analysis, Helga Turku explains why states may choose to isolate themselves both domestically and internationally, using comparative historical analysis to flesh out isolationism as a concept and in practice. The book examines extreme forms of self-imposed domestic and international isolation in an interdependent international system, noting the effects on both the immediate interests of a ruling regime and the long-term national interests of the state and the populace.

**Censorship** Derek Jones, 2001-12-01. Censorship: A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice. For each country in the world, the history of censorship is described and placed in context, and the media censored are examined: art, cyberspace, literature, music, the press, popular culture, radio, television, and the theatre, not to mention the censorship of language, the most fundamental censorship of all. Also included are surveys of major controversies and chronicles of resistance. Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression.

**A Concise History of Albania** Bernd J. Fischer, Oliver Jens Schmitt, 2022-09-29. A Concise History of Albania charts the history of Albania and its people within their Balkan and European contexts. It shows the country's journey from its ancient past, still shrouded in mystery and controversy,

through its difficult transition from a particularly brutal form of communism to an evolving form of democracy and a market economy Bernd Fischer and Oliver Schmitt challenge some of the traditional narratives concerning the origins of the Albanians and the relations between Albanians and their Balkan neighbours This authoritative and up to date single volume history analyses the political social economic and cultural developments which led to the creation of the Albanian state and the modern nation as well as Albania s more recent experience with authoritarianism war and communism It greatly contributes to our understanding of the challenges facing contemporary Albanians as well as the issues confronting the region as a whole as it attempts to grapple with one of the last remaining significant ethnic issues in the Balkans

Yugoslavia Dejan Jović, 2009 The disintegration of Yugoslavia was the result of many factors not of a single one but the primary one the author argues was commitment of the Yugoslav political elite to the Marxist ideology of withering away of the state Ideology had a central place in Yugoslav politics The trend of decentralization of Yugoslavia was not primarily motivated by reasons of ethnic politics but by Marxist beliefs that the state should be decentralized and weakened until it was finally replaced by a self managing society especially the case during the extended period of the last 15 years before the actual breakdown of the Yugoslav socialist federation Yugoslavia A State that Withered Away examines the emergence implementation crisis and the breakdown of the fourth Kardelj s constitutive concept of Yugoslavia 1974 1990 and relations between anti statist ideology of self management and the actual collapse of state institutions Muslim Identity and the Balkan State Hugh Poulton, 1997 This work focuses on the current situation of Balkan Muslims their relationship with the state and the links between their ethnic and religious identities In the Shadows of Albania-China Relations (1960-1978) Enver Bytyçi, 2022-02-21 This book is a study of Albania China relations during the second half of the 20th century Both countries have had a similar political system based on the same ideology for more than two decades Indeed they established an alliance that is unique of its kind keeping in mind that such friendly relations were created between a small country with a population of 2.3 million Albania and a very large country with a population of 700 million China The book details unique characteristics of this alliance highlighting that this interesting relationship is based on specific interests It shows how this alliance has unfolded from its initial optimism to the later sworn animosity between the two countries The outcome of the relationship between Tirana and Beijing had its climax at the end of 1960s which saw in a major crack in the alliance due to China s newly established affinity with the USA **After Dictatorship** Peter Hoeres, Hubertus Knabe, 2023-02-20 Numerous studies concerning transitional justice exist However comparatively speaking the effects actually achieved by measures for coming to terms with dictatorships have seldom been investigated There is an even greater lack of transnational analyses This volume contributes to closing this gap in research To this end it analyses processes of coming to terms with the past in seven countries with different experiences of violence and dictatorship Experts have drawn up detailed studies on transitional justice in Albania Argentina Ethiopia Chile Rwanda South Africa and Uruguay Their analyses constitute the

empirical material for a comparative study of the impact of measures introduced within the context of transitional justice. It becomes clear that there is no sure formula for dealing with dictatorships. Successes and deficits alike can be observed in relation to the individual instruments of transitional justice from criminal prosecution to victim compensation. Nevertheless, the South American states perform much better than those on the African continent. This depends less on the instruments used than on political and social factors. Consequently, strategies of transitional justice should focus more closely on these contextual factors.

**Stalinist Terror in Eastern Europe** Kevin McDermott, Matthew Stibbe, 2024-06-04. This wide-ranging collection of essays, newly available in paperback, is the first book in English to examine the impact of Stalinist terror on Eastern Europe in the years 1940 to 1956. Covering the Baltic states, Moldavia, East Germany, Poland, Czechoslovakia, Hungary, Romania, Yugoslavia, Bulgaria, and Albania, the authors investigate terror both from above in the form of elite purges and show trials, and from below in the guise of large-scale arrests and deportations of ordinary people. Key questions addressed include the relative importance of Soviet influence versus local factors, the persecution of particular groups such as kulaks, church leaders, the middle class, intelligentsia, and members of non-communist left-wing parties, cases where repression was more or conversely less intense than elsewhere, and the relevance of key events such as the Tito-Stalin split of 1948, the Rajk trial of 1949, and the Slansk trial of 1952.

**Albania** Miranda Vickers, James Pettifer, 1997. This work analyzes the events leading to the overthrow of the one-party state in Albania, the end of communism, and the transition to democracy. It is divided into historical sections which trace the disintegration of the communist system, culminating in the Winter of Anarchy of 1990-91, and the fortunes of the National Unity and Democratic Party governments after 1991. It also analyzes the cultural and social impact of these changes and explores the emerging crises facing the Albanian peoples in neighbouring Kosovo and Macedonia. Special attention is paid to the problems of the significant Greek minority, the crucial question of religion, the military and national security, and Albania's foreign relations.

**The Walls Behind the Curtain** Harold B. Segel, 2012-11-11. Because of their visibility in society and ability to shape public opinion, prominent literary figures were among the first targets of Communist repression, torture, and incarceration. Authors such as Aleksandr Solzhenitsyn famously documented the experience of internment in Soviet gulags. Little, however, has been published in the English language on the work of writers imprisoned by other countries of the Soviet bloc. For the first time, *The Walls Behind the Curtain* presents a collection of works from East European novelists, poets, playwrights, and essayists who wrote during or after their captivity under communism. Harold B. Segel paints a backdrop of the political culture and prison and labor camp systems of each country, detailing the onerous conditions that writers faced. Segel then offers biographical information on each writer and presents excerpts of their writing. Notable literary figures included are Vaclav Havel, Eva Kanturkova, Milan Simecka, Adam Michnik, Milovan Djilas, Paul Goma, Tibor Dery, and Visar Zhiti, as well as many other writers. This anthology recovers many of the most important yet overlooked literary voices from the era of Communist occupation. Although translated from numerous

languages and across varied cultures there is a distinct commonality in the experiences documented by these works *The Walls Behind the Curtain* serves as a testament to the perseverance of the human spirit and a quest for individual liberty that many writers forfeited their lives for **Law, Visual Culture, and the Show Trial** Agata Fijalkowski, 2023-06-20

Addressing the relationship between law and the visual this book examines the importance of photography in Central East and Southeast European show trials The dispensation of justice during communist rule in Albania East Germany and Poland was reliant on legal propaganda making the visual a fundamental part of the legitimacy of the law Analysing photographs of trials this book examines how this message was conveyed to audiences watching and participating in the spectacle of show trials The book traces how this use of the visual was exported from the Soviet Union and imposed upon its satellite states in the immediate aftermath of the Second World War It shows how the legal actors and political authorities embraced new photographic technologies to advance their legal propaganda and legal photography Drawing on contemporary theoretical work in the area the book then challenges straightforward accounts of the relationship between law and the visual critically engaging entrenched legal historical narratives in relation to three different protagonists to offer the possibility of reclaiming and rewriting past accounts As its analysis demonstrates the power of images can also be subversive and as such the cases it addresses contribute to the discourse on visual epistemology and open onto contemporary questions about law and its inherent performativity This original and insightful engagement with the relationship between law and the visual will appeal to legal and cultural theorists as well as those with more specific interests in Stalinism and in Central East and Southeast European history **The East European Economies in the 1970s** Alec Nove, Hans-Hermann Höhmann, Gertraud Seidenstecher, 2013-10-22

*The East European Economies in the 1970s* reviews the development of economic policy in Eastern Europe in the 1970s This book includes individual country studies that compare and contrast both the aims of economic development and the results of the growth process as well as the instruments employed in economic policy More specifically this book examines what has happened during the past decade after the fundamental changes in economic policy that occurred in the 1960s This text is comprised of 10 chapters the first of which provides a background on economic reform in Eastern Europe during the 1970s Attention then turns to the economic policy methods and performance of the USSR after 1970 The chapters that follow focus on the German Democratic Republic Poland Czechoslovakia Hungary Bulgaria Romania and Yugoslavia This book concludes with a discussion on the economic system of Albania in the 1970s focusing on the country's conservative radicalism agriculture and sharp disputes on economic policy between 1974 and 1976 Throughout the book the emphasis is on how the process of reconstruction within the system has led to increasing differentiation of aims institutions and instruments of economic policy between individual countries This book will be of interest to political science students political scientists political economists and policy analysts
