Art Books Wolfgang M. Freitag,2013-10-28 First published in 1997 For this second edition of Art Books A Basic Bibliography of Monographs on Artists the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition Albert Anker , **The Laboratory of Progress** Joseph Jung,2022-09-16 The Laboratory of Progress Switzerland in the 19th Century tells the improbable story of how a small backward mountainous agricultural country with almost no raw materials became an industrial powerhouse a hub of innovation a touristic mecca and a pioneer in transportation all in the course of a single century That a tiny landlocked country should become a dominant steamship builder for the rest of the world that a country that had never seen a cotton plant should become the world s second largest textile producer that a country with hardly any level terrain should come to boast the world s most highly developed railway network and that a country whose main export was impoverished emigrants should be transformed into one of the world s major financial centres these astonishing developments among many others are explored and explained both through the specific stories of individual innovators and through a prescient analysis of the political economic societal and cultural structures that formed the context in which Switzerland s astonishing transformation took place The book is a compelling read both for professional historians and for general readers with an interest in Switzerland it highlights the roles of transport networks and individual pioneers in industrial and political development

EC Law and the Sovereignty of the Member States in Direct Taxation Mathieu Isenbaert, 2010 In order to develop a suitable framework for the analysis of the European Court of Justice ECJ case law it is first analysed what significance if any the concept of sovereignty has in the contemporary supranational environment of the European Union All too often tax scholars equate sovereignty with the concepts of competence or jurisdiction It will be established in this thesis that a much more specific and higher level meaning is to be attributed to the sovereignty concept

which goes beyond the strictly legal concepts of competence or jurisdiction The cornerstone of this thesis however is an extensive analysis of the case law of the ECJ in direct tax matters including a comparison with its non tax case law A new kind of methodology is used in discussing the cases they are categorized according to whether a discrimination or a restriction based analysis was applied by the ECJ
