In the tradition of Margaret MacMillan's Paris 1919 comes a new consideration of Canada's most famous war and the Treaty of Ghent that unsatisfactorily concluded it from one of this country's premier military historians In the Canadian imagination the War of 1812 looms large It was a war in which British and Indian troops prevailed in almost all of the battles in which the Americans were unable to hold any of the land they fought for in which a young woman named Laura Secord raced over the Niagara peninsula to warn of American plans for attack though how she knew has never been discovered and in which Canadian troops burned down the White House Competing American claims insist to this day that in fact it was they who were triumphant But where does the truth lie Somewhere in the middle as is revealed in this major new reconsideration from one of Canada's master historians Drawing on never before seen archival material Zuehlke paints a vibrant picture of the war's major battles vividly re-creating life in the trenches the horrifying day to day manoeuvring on land and sea and the dramatic negotiations in the Flemish city of Ghent that brought the war to an unsatisfactory end for both sides By focusing on the fraught dispute in which British and American diplomats quarrelled as much amongst themselves as with their adversaries Zuehlke conjures the compromises and backroom deals that yielded conventions resonating in relations between the United States and Canada to this very day **America, History and Life** ,1998 Provides historical coverage of the United States and Canada from prehistory to the present Includes information abstracted from over 2 000 journals published worldwide

**Directory of History Departments and Organizations in the United States and Canada** ,1993 **Colonizing the Past** Edward Watts,2020-02-14 After the Revolution Americans realized they lacked the common deep or meaningful history that might bind together their loose confederation of former colonies into a genuine nation They had been conquerors yet colonials now politically independent yet culturally subordinate to European history and traditions To resolve these paradoxes some early republic historians went so far as to reconstruct pre-Columbian transatlantic adventures by white people that might be employed to assert their rights and ennoble their identities as Americans In Colonizing the Past Edward

Watts labels this impulse primordialism and reveals its consistent presence over the span of nineteenth century American print culture In dozens of texts Watts tracks episodes in which varying accounts of pre Columbian whites attracted widespread attention the Welsh Indians the Lost Tribes of Israel the white Mound Builders and the Vikings as well as two ancient Irish interventions In each instance public interest was ignited when representations of the group in question became enmeshed in concurrent conversations about the nation s evolving identity and policies Yet at every turn counternarratives and public resistance challenged both the plausibility of the pre Columbian whites and the colonialist symbolism that had been evoked to create a sense of American identity By challenging the rhetoric of primordialism and empire building dissenting writers from Washington Irving to Mark Twain exposed the crimes of conquest and white Americans marginality as ex colonials
