The Teotihuacan Trinity Annabeth Headrick, 2013-03-15 Northeast of modern day Mexico City stand the remnants of one of the world s largest preindustrial cities Teotihuacan Monumental in scale Teotihuacan is organized along a three mile long thoroughfare the Avenue of the Dead that leads up to the massive Pyramid of the Moon Lining the avenue are numerous plazas and temples which indicate that the city once housed a large population that engaged in complex rituals and ceremonies Although scholars have studied Teotihuacan for over a century the precise nature of its religious and political life has remained unclear in part because no one has yet deciphered the glyphs that may explain much about the city s organization and belief systems In this groundbreaking book Annabeth Headrick analyzes Teotihuacan s art and architecture in the light of archaeological data and Mesoamerican ethnography to propose a new model for the city s social and political organization Challenging the view that Teotihuacan was a peaceful city in which disparate groups united in an ideology of solidarity Headrick instead identifies three social groups that competed for political power rulers kin based groups led by influential lineage heads and military orders that each had their own animal insignia Her findings provide the most complete evidence to date that Teotihuacan had powerful rulers who allied with the military to maintain their authority in the face of challenges by the lineage heads Headrick s analysis also underscores the importance of warfare in Teotihuacan society and clarifies significant aspects of its ritual life including shamanism and an annual tree raising ceremony that commemorated the Mesoamerican creation story The Ancient Maya Sylvanus Griswold Morley, Robert J. Sharer, 1994 Comprehensive synthesis of ancient Maya scholarship Extensive summary of the archaeology of the Maya world provides the historical context for a detailed topical synthesis of chronological and geographic variability within the Maya cultural tradition

Ancient Origins of the Mexican Plaza Logan Wagner, Hal Box, Susan Kline Morehead, 2013-01-16 Extensively illustrated with detailed site plans and photographs this architectural history of the Mexican plaza reveals why this central public space has been the heart of the community from ancient Mesoamerican times until the present **Twin Tollans** Cynthia Kristan-Graham, 2007 This volume had its beginnings in the two day colloquium Rethinking Chich n Itz Tula and Tollan that was held at Dumbarton Oaks The selected essays revisit long standing questions regarding the nature of the relationship between Chichen Itza and Tula Rather than approaching these questions through the notions of migrations and conquests these essays place the cities in the context of the emerging social political and economic relationships that took shape during the transition from the Epiclassic period in Central Mexico the Terminal Classic period in the Maya region and the succeeding Early Postclassic period **Archaeology's Visual Culture** Roger Balm, 2015-12-14 Archaeology s Visual Culture explores archaeology through the lens of visual culture theory The insistent visibility of archaeology is a key stimulus for the imaginative and creative interpretation of our encounters with the past Balm investigates the nature of this projection of the visual revealing an embedded subjectivity in the imagery of archaeology and acknowledging the multiplicity of meanings that cohere around artifacts archaeological sites and museum displays Using a wide range of case studies the book highlights how archaeologists can view objects and the consequences that ensue from these ways of seeing Throughout the book Balm considers the potential for documentary images and visual material held in archives to perform cultural work within and between groups of specialists With primary sources ranging from the mid nineteenth to the early twenty first century this volume also maps the intellectual and social connections between archaeologists and their peers Geographical settings include Britain Cyprus Mesoamerica the Middle East and the United States and the sites of visual encounter are no less diverse ranging from excavation reports in salvage archaeology to instrumentally derived data sets and remote sensing imagery By forensically examining selected visual records from published accounts and archival sources enduring tropes of representation become apparent that transcend issues of style and reflect fundamental visual sensibilities within the discipline of archaeology The World of the Ancient Maya John S. Henderson, 1997 Theirs was one of the few complex societies to emerge in and to adapt successfully to a tropical forest environment Their architecture sculpture and painting were sophisticated and compellingly beautiful Quiriguá Reports, Volume III Edward M. Schortman, 1993-01-29 From 1973 through 1979 the University Museum sponsored investigations at Quirigu a major lowland Maya site in eastern Guatemala in order to document the basic chronology determine the nature and pattern of structures and test hypotheses concerning the origins location and demise of the city This monograph reports the findings of the survey and excavations carried out in the lower Motagua Valley Providing a regional context for Quirigu this volume focuses on wider valley centers with monumental architecture examining their chronology function and regional and interregional contacts University Museum Monograph 80
