assessment and treatment of all psychological problems considered in this volume have been incorporated into the text. Account has been taken of changes in the diagnosis and classification of psychological problems reflected in the DSM 5. Chapters on ADHD in adults, emotion focused therapy, radically open dialectical behaviour therapy and schema therapy have been added. The book is divided into 6 sections. Section 1 covers conceptual frameworks for practice, lifespan development, classification and epidemiology, CBT, psychodynamic, emotion focused, systemic and bio medical models and general assessment procedures. Section 2 deals with mood problems, depression, bipolar disorder, suicide risk and anger management. Section 3 focuses on anxiety problems, social phobia, generalized anxiety disorder, panic disorder, obsessive compulsive disorder, post traumatic stress disorder and depersonalization disorder. Section 4 deals with psychological problems linked to physical health, health anxiety, somatization, chronic pain, adjustment to cancer and eating disorders. Section 5 focuses on other significant psychological problems that come to the attention of clinical psychologist in adult mental health services, ADHD in adults, alcohol and other drug problems, psychosis and psychological problems in older adults. Section 6 contains chapters on therapeutic approaches to psychological distress related to complex childhood trauma, dialectical behaviour therapy for borderline personality disorder, racially open dialectical behaviour for over controlled presentations and schema therapy. Each of the chapters on clinical problems explains how to assess and treat the condition in an evidence based way with reference to case material. Interventions from cognitive behavioural, psychodynamic, interpersonal, systemic and biomedical approaches are described where there is evidence that they are effective for the problem in question. Skill building exercises and further reading for psychologists and patients are included at the end of each chapter. This book is one of a set of three volumes which cover the lion's share of the curriculum for clinical psychologists in training in the UK and Ireland.
