*The Facts about Drinking* Gail Gleason Milgram, 1990 Milgram Rutgers Center of Alcohol Studies deals with problem drinking physiology the US experience with drink problems alcoholism treatment prevention Annotation copyrighted by Book News Inc Portland OR Alcohol Problems and Alcoholism James E. Royce, 1989 Balanced account of causes prevention and treatment of alcoholism *Assessing Alcohol Problems*, 1995 *Alcohol Problems in the Community* Larry Harrison, 2002-05-03 Community surveys reveal that about 6% of the adult male and 1% of the adult female population in England and Wales are drinking at high risk levels *Alcohol Problems in the Community* examines the implications of recent community care legislation for government policy on alcohol The first part of the book begins with a report on recent US research on the role of alcohol in the perpetration of child abuse and recent research on young people s drinking problems This is followed by a study on the prevalence of drinking problems amongst older people which has been underestimated In the second half of the book empirical evidence is presented on the particular difficulties faced by ethnic migrant and homeless groups and this emphasis on the centrality of social disadvantage leads on to a consideration of a specific social work role in the assessment and management of alcohol related problems *Alcohol Problems in the Community* is aimed at social work practitioners and students on prequalifying qualifying and postqualifying social work courses and it addresses key social work issues in relation to poverty homelessness discrimination and drinking problems Alcoholism Jacqueline Langwith, 2010 The ailments and conditions that afflict people today can be confusing disturbing and painful both emotionally and physically The *Perspectives on Diseases and Disorders* series provide clear careful explanations that offer readers and researchers insight into what these conditions are what causes them how people live with them and the latest about treatment and prevention All volumes in the series include primary and secondary viewpoints bibliographies detailed indexes and lists of organizations to contact for additional information Book jacket **Alcohol & Alcoholism** National Institute on Alcohol Abuse and Alcoholism (U.S.), 1972 Responding to Drinking Problems Stan Shaw, Alan Cartwright, Terry Spratley, Judith Harwin, 2023-12-01 In the 1970s family doctors social workers researchers and administrators had been aware of the inadequacy of the response to drinking problems for some time However there had been no systematic examination of why such agents felt negatively about drinkers and disinclined to respond to them Originally published in 1978 this book develops a radical new perspective on the prevalence and causes of drinking problems combining reviews of historical and contemporary literature with the authors own research studies This perspective is then linked to the need for an integrated response from both medical and social services with a particular accent on the need for a community response By focusing on the relationship between helper and helped a solution is sought to the question which has troubled the field for many years why are agents like family doctors and social workers so inadequate in recognising and responding to people with drinking problems The crucial aspects within the therapeutic relationship are pinpointed and experimental studies are

described which show how training casework supervision and the redeployment of expertise can help improve recognition rates and responses to individual drinkers This book thus expresses the need for major changes both in our attitudes and understanding of people with drinking problems and the difficulties of agents who try to help them It should still be of historical interest to social scientists and those involved in helping people with drinking problems *International Handbook of Alcohol Dependence and Problems* Nick Heather,Timothy J. Peters,Tim Stockwell,2001-05-18 Focusing on alcohol dependence and alcohol related problems in general as well as their causes treatment and prevention this handbook also addresses the basic mechanisms of alcohol and its effects on human physiology and behaviour **Understanding America's Drinking Problem** Don Cahalan,1987 **National Institute on Alcohol Abuse and Alcoholism** National Institute on Alcohol Abuse and Alcoholism (U.S.),1971 Under the Weather - Coping with Alcohol Abuse and Alcoholism John G.
