 Exploration of Language and Linguistics is designed as a comprehensive introductory text for first and second year university
 students of language and linguistics It provides a chapter on each of the more established areas in linguistics such as
 lexicology morphology syntax phonetics and phonology historical linguistics and language typology and on some of the newer
 areas such as cross cultural semantics pragmatics text linguistics and contrastive linguistics In each of these areas language
 is explored as part of a cognitive system comprising perception emotion categorisation abstraction processes and reasoning
 All these cognitive abilities may interact with language and be influenced by language Thus the study of language in a sense
 becomes the study of the way we express and exchange ideas and thoughts This Second Revised Edition is corrected updated
