How History Gets Things Wrong Alex Rosenberg, 2019-08-13 Why we learn the wrong things from

narrative history and how our love for stories is hard wired To understand something you need to know its history Right Wrong says Alex Rosenberg in *How History Gets Things Wrong* Feeling especially well informed after reading a book of popular history on the best seller list Don't Narrative history is always always wrong It's not just incomplete or inaccurate but deeply wrong as wrong as Ptolemaic astronomy We no longer believe that the earth is the center of the universe Why do we still believe in historical narrative Our attachment to history as a vehicle for understanding has a long Darwinian pedigree and a genetic basis Our love of stories is hard wired Neuroscience reveals that human evolution shaped a tool useful for survival into a defective theory of human nature Stories historians tell Rosenberg continues are not only wrong but harmful Israel and Palestine for example have dueling narratives of dispossession that prevent one side from compromising with the other Henry Kissinger applied lessons drawn from the Congress of Vienna to American foreign policy with disastrous results Human evolution improved primate mind reading the ability to anticipate the behavior of others whether predators prey or cooperators to get us to the top of the African food chain Now however this hard wired capacity makes us think we can understand history what the Kaiser was thinking in 1914 why Hitler declared war on the United States by uncovering the narratives of what happened and why In fact Rosenberg argues we will only understand history if we don't make it into a story
