Alone Of All Her Sex The Myth And Cult Of The Virgin Mary:

Alone of All Her Sex Marina Warner, 1978 Devoting different sections of the book to each of the various roles Mary has assumed Virgin Queen Bride Mother Intercessor and drawing on official dogma folk legend art history literature and psychology the author of Joan of Arc The Image of Female Heroism shows how the figure of Mary has shaped and been shaped by changing social and historical circumstances from the first century to the present day and why for all their beauty and power and indeed because of them the legends of Virgin Mary have condemned real women to perpetual inferiority

Google books description **Alone of All Her Sex** Marina Warner, 2013-03-22 This unique study of the cult of the Virgin Mary offers a way of thinking about the interrelations of Catholicism and ideas of ideal femininity over the longue duree An ambitious history of the changing symbolism of the Mother of God Alone of All Her Sex holds up to the light different emphases occurring at different times and highlights that the apparent archetype of a magna mater is constantly in play with social and historical conditions and values Marina Warner s interesting perspective was forged in the aftermath of significant postwar developments in history anthropology and feminism and the book inspired fierce debates when it was first published in 1976 Alone of All Her Sex is also an emotive personal statement arising from Warner s own upbringing as a Catholic It picks up on classic accounts such as Mary MacCarthy s Memoirs of a Catholic Girlhood and Antonia White s Frost in May as well as the author s own experiences at a Catholic boarding school Highly controversial in conservative quarters the book s arguments were welcomed and recognised by many readers who shared Warner s experiences In this new edition Marina Warner has written a new preface which reviews the book in the light of the current debate about secularism faith nations and social identities She takes issue with her original mistaken conclusion that the modern age would see the cult of Mary fade away and revises it in the light of recent popes enthusiasm for the Mother of God a fresh wave of visions and revelations a new generation of female saints and the reorientation of theological approaches to the woman question Alone of All Her Sex Marina Warner, 1985

City Richard D. E. Burton, 2018-10-18 The Terror of 1793 94 the Paris Commune of 1871 the Dreyfus Affair explosions of violence punctuated French history from the start of the Revolution until the Liberation at the close of World War II The distinguished scholar Richard D E Burton here offers a stunningly original account of these outbursts concluding that recourse to political violence was not occasional and abnormal but rather the usual pattern in French history Instead of adhering to conventional chronological lines Blood in the City is structured topologically around a number of major Parisian sites of memory including Place de la Concorde Sacr Coeur and the Eiffel Tower For thirty years Burton has visited and revisited Paris criss crossing the streets on foot and lived with great nineteenth and twentieth century literary depictions of the city Drawing on historical literary visual anthropological and psychological sources he develops a wide ranging account of violence in modern French politics In so doing he provides powerful insights into political violence scapegoating the idea of sacrifice and the widespread French obsession with conspiracy Burton demonstrates that time and again the same basic scenario has been acted out on the streets of Paris one or more people would be singled out from the community and imprisoned exiled or more often subjected to violence by the crowd or the state In particular he explores how Catholicism in its extreme ultrareactionary form shaped the worldviews of Parisians and how the killing of a sacrificial victim came to be seen as a reenactment of the crucifixion of Christ **Toward a Catholic Theology of Nationality** Dorian

Llywelyn, 2010-06-28 Nationality continues to be an important part of how people identify themselves and others Who am I is inseparable from the question Who and what are we Historically many nations have made use of the Bible and Christian notions to understand themselves and to justify their political ambitions Catholic theology however has never elaborated on a systematic treatment of nationality Dorian Llywelyn forges a new approach treating the nation as a form of culture He addresses some key questions How are the religious and national aspects of human identity connected What does Catholic doctrine have to say about nationality and nationalism Is there really such a thing as a Christian nation Is Catholicism compatible with patriotism Llywelyn's wide ranging book introduces the reader to contemporary approaches to nationality nationality national identity nationalism and patriotism Drawing from the insights of sociology history and anthropology he

investigates the many ways in which nations and Christianity have intertwined and explores what scripture and twentieth century papal teaching have to say on the matter He provides an original Catholic theology of national belonging one which is based on the implications of the Incarnation Examining popular devotions to the Virgin Mary as national patroness and drawing from the metaphysical acumen of the medieval thinker John Duns Scotus Llywelyn argues for the theological value of nationality and proposes that global community and cultural and national diversity are mutually necessary values **Jeanne Hyvrard, Wounded Witness** Helen Vassallo, 2007 Critical responses to Jeanne Hyvrard have generally categorised her as a writer of critique of feminine and/or autobiography due to salient features of her oeuvre such as the use of first person narrative a cyclic writing style and the quest for a female language Within these broader considerations however a recurrent motif throughout Hyvrard's writing is that of the body specifically the female body represented as suffering from different forms of physical mental illness and emotional social malaise It is this primordial aspect of Hyvrard's work on which surprisingly little critical analysis has been written that this monograph explores It has been demonstrated that Hyvrard's works can be studied as a unity as well as individually given that all of her texts form part of her wider theory While this theory is often referred to in abstract terms as *pensée ronde* *pensée globale* or *pensée femme* this study shows that it can be more specifically highlighted as a theory of *dis-ease* i.e. the intertwining of physical malady and social malaise medical terms and metaphor and particularly as a social theory of the diseased female body **Women and Magic in Medieval Romance** Jane Elizabeth Bonsall, 2025-04-08 Explores the conventions and contradictions inherent in archetypes of magical femininity from loathly ladies to monstrous mothers in a range of popular late medieval English romances The female characters in Middle English romances with particular power and agency are often portrayed as supernatural possessing either magical abilities or identities This book argues that a genre focused reading of these supernatural women reveals romance's strategies for working through and articulating anxieties about the changing world of the late medieval period as well as exposing their contemporary audiences unexpectedly flexible attitudes toward feminine authority and moral ambiguity It explores five distinct types of magical femininity the Tristan tradition's marvelously gifted healers the Muslim princess in *Bevis of Hampton* the endlessly wealthy fairy imagined by Sir Launfal and Partonope of Blois the monster mother Melusine and Morgan le Fay the prototypical witch By tracking the way each type first establishes then complicates generic patterns this study highlights the tension between romance's persistent fascination with feminine power and its simultaneous reiteration of the social and generic bounds on women's agency and authority Interrogating generic expectations from an intersectional feminist perspective it makes a case for a recuperative re-reading of romance one that asks us to revise our assumptions about the potentialities of women's power in the medieval imaginary [For Fear of the Fire](#) Françoise Meltzer, 2010-08-15 Why are contemporary secular theorists so frequently drawn to saints martyrs and questions of religion Why has Joan of Arc fascinated some of the most important thinkers of the twentieth century In a book that faces crucial issues in both critical

and feminist inquiry Fran oise Meltzer uses the story of Joan as a guide for reading the postmodern nostalgia for a body that is intact and transparent She argues that critics who place excessive emphasis on opposition and difference remain blind to their nostalgia for the pre Cartesian idea that the body and mind are the same Engaging a number of theorists and alternating between Joan s historical and cultural context Meltzer also explores the ways in which postmodern thinkers question subjectivity She argues that the way masculine subjects imagine Joan betrays their fear of death and necessitates the role of women as cultural others enigmatic mysterious dark and impossible As such Joan serves as a useful model of the limits and risks of subjectivity For Meltzer she is both the first modern and the last medieval figure From the ecclesial jury that burned her to the theorists of today who deny their attraction to the supernatural the philosophical assumptions that inform Joan s story as Meltzer ultimately shows have changed very little

Cosmos, Crisis and Christ: Essays of Wendy Robinson Wendy Robinson, 2024-05-30 Fairacres Publications 211 Wendy Robinson s work was primarily interpersonal and in retreat talks or lectures where she could engage with her audience directly many of the essays here are transcriptions of those talks Even ten years after her death her theology and her compassion are remembered with great fondness and gratitude and continue to resonate both with those who knew her and those who encounter her writing for the first time

Women in Christ Michele M. Schumacher, 2004 The challenge of promoting the new feminism has barely been addressed since it was first launched by Pope John Paul II in his 1995 encyclical *Evangelium vitae* The thirteen contributors in this book all outstanding international scholars take up this task together laying the necessary theoretical foundation for the new feminism These chapters articulate an integral philosophical and theological understanding of persons that moves beyond patriarchy on the one hand and traditional feminism on the other Central to the new perspective offered here is the biblical revelation of the human person man and woman in Christ a vision that directs women beyond the male standard against which they have too often been measured Far from constraining women to an eternal essence the dynamic view presented here encourages each woman to realize herself in perfect Christian freedom

In Bed With Sherlock Holmes Christopher Redmond, 2002-10-02 In Bed with Sherlock Holmes provides a witty and well researched discussion of the sexual elements in the Sherlock Holmes stories and in Conan Doyle s own life An expert commentator on all things Victorian Doyle

also reflects that period's attitudes toward sex and erotic love. This commentary will make the Sherlock Holmes stories even more interesting and intriguing since Redmond uses published and unpublished articles, books, and letters as well as quotes from speeches given at meetings to enliven the text and give a broad out look to this unusual assessment of Doyle's best known stories. Each chapter opens with one of the original Sidney Paget illustrations. Bibliography Index *Ambiguous Locks* Roberta Milliken, 2014-01-10 It has long been said that a woman's hair is her crowning glory. Indeed throughout history hair has remained an important cultural symbol of femininity. In medieval art, iconic images of long flowing locks can express sexuality and the cutting of a woman's hair often signals her feminine misbehavior. Artists of all kinds in the Middle Ages used women's long hair to manipulate their audience's estimation of their female figures. This interdisciplinary work explores the significance of women's hair in literature and art from the medieval period through 1525, putting into historical context the ways in which hair participates in construction of the female identity.
