Discourses of Philology and Theology in Nietzsche Paul Bishop, 2023-10-31 This study proposes to examine the tension in Nietzsche's works between two competing discourses i.e the discourse of theology and the discourse of philology It argues that in order to understand Nietzsche's complicated standpoint and the aim of his Kulturkritik we have to appreciate how he operates with two different discourses one indexed to belief faith liturgy i.e the discourse of theology and another indexed to analytical reason sceptical investigation and logical argumentation as well as historical context and linguistic precision i.e the discourse of philology Its core thesis is that in the end Nietzsche can no longer believe because he thinks he has uncovered a fraudulent production of meaning in the texts in a way that is comparable with his insight into the production of morality in On the Genealogy of Morals 1887 I Am Put Here for the Defense of the Gospel Terry L.

explores the origins of God How did God come to exist if he was responsible for making everything in the first place This is an example of a question that religious believers may find difficult to answer The question was first asked by Ancient Greek philosophers and has continued to be asked by both believers and atheists Robert Banks wants to find an answer He will guide you through the history of the objection and consider insights from ancient Greek philosophers as well as more modern day objections from Freud Marx and other great analytical minds And Man Created God is a fascinating book that comprehensively explores all possibilities and opinions about the origins of God Robert Banks has produced a fascinating book that can be considered particularly useful for somebody who holds an interest in religion or new atheism Ultimately the book explores the issue of whether God could be the product of man rather than the other way around **Islamic**
