Anderson, 2023-07-21 First Published in 1990 Economic Policy Alternatives for the Latin American Crisis aims to explore macroeconomic policy alternatives available to Latin American policymakers from both a theoretical and an empirical perspective Three decades of sustained growth and dramatic gains in levels of economic development in Latin America ended in the 1980s Latin American countries found themselves plagued by foreign debts high real interest rates accelerated inflation increasing poverty with malnutrition and high unemployment This book presents a quantitative framework in which to evaluate the effectiveness of various types of monetary and fiscal policies under the conditions of inflation declining growth and debt A macroeconomic policy model is constructed and using data from Ecuador the model is estimated empirically The results of these simulations suggest some promising policy options to replace the current policy This book is an interesting read for scholars and researchers of Latin American economics macroeconomics and development economics *Civil Society and the Search for Development Alternatives in Cameroon* Emmanuel Yenshu Vudo, 2008 Recent developments have witnessed the emergence of civil society as a major development actor whose potentials and capacity especially in Africa are often taken for granted and treated as limitless A critical assessment of some of these structures NGOs religious organisations trade unions home based associations and the youth and the legal and political context of the operation of civil society in Cameroon shows a popular effervescence that is visible in social development initiatives Although this would complement the state and free enterprise it is however often frustrated by the states suspicion in a context of rising social awareness and protest that is assimilated with political opposition or attempts at manipulation along partisan lines This book is a call to reform the framework of civil society and assess its components and roles in shaping the future of Africa Emmanuel Yenshu Vubo is a Senior Lecturer in Sociology He obtained his Doctorate from the University of Yaounde in

economics at the levels of the micro e.g. firms and households meso e.g. industries and institutions and macro e.g. economic policy structure and growth Overall the Routledge Handbook of Evolutionary Economics provides an excellent overview of current trends and issues in this rapidly developing field *Alternative Agricultural and Food Policies and the 1985 Farm Bill* Gordon C. Rausser, Kenneth R. Farrell, 2016-03-17 In 1985 the U.S. Congress confronted the difficult and complex task of developing a 5 year omnibus legislation allowing for lower commodity prices But policies predicated on the concept of agriculture as a unique sector of the economy became less and less appropriate to the highly interdependent open agricultural economy throughout the 1980s First published in 1985 this collection of 16 papers and related discussions contained in these proceedings is an important contribution toward understanding the issues options and dilemmas in U.S. agricultural policy This is an ideal title for students interested in environmental studies agriculture and national policy
