Alternative To Serfdom:

Alternative to serfdom ,1964 **The Rise of the Western World** Douglass C. North,Robert Paul Thomas,1976-07-30

First published in 1973 this is a radical interpretation offering a unified explanation for the growth of Western Europe between 900 A D and 1700 providing a general theoretical framework for institutional change geared to the general reader

The Nationalization of Latvians and the Issue of Serfdom Andrew James Blumbergs,2008 In the second half of the eighteenth century an intellectual discourse developed in Livonia which shed light on the disastrous social conditions of the indigenous population This book examines the premise that the resulting nationalization of the Latvians occurred in the 1780s and 1790s as a result of a German Enlightenment in Livonia It investigates the role that eighteenth century anthropological ethnographical historical and cultural ideas played in this process of nationalizing the Latvians and focuses on the development of the arguments for agrarian and social change by proponents of reform in Livonia at this time The work investigates the historical structures and processes that shaped the agrarian constitution of Livonia s society up to and including the eighteenth century This involves a comparative historical analysis of critical aspects relevant to the transformation of the agrarian and social reform discourse in Livonia in the second half of the eighteenth century and its ramifications on how the Latvians were perceived by Germans within Livonia and beyond The introduction and dissemination of Enlightenment thought in Livonia with particular reference to the Livonian agrarian and social reform discourse is also explored Utilizing primary sources some relatively unknown such as the Briefe of Andreas Meyer this study provides first hand historical perspectives on Livonian society and German attitudes towards the indigenous population The main writers and works of the Livonian agrarian and social reform discourse in the 1780s and 1790s are also studied The works of Johann von Jannau 1753 1821 Heinrich Wilhelm Christian Friebe 1761 1811 Karl Philip Michael Snell 1753 1806 and Garlieb Helwig Merkel 1769 1850 are considered central to the Livonian agrarian and social reform discourse of the late 1780s and 1790s Some monographs essays and articles in Hupel s publications particularly the Nordische Miscellaneen are also considered It is purported that the first steps towards the nationalization of Latvian identity occurred as the result of new historical anthropological cultural and ethnographical approaches to the agrarian and social issues of Livonia during this time Culture history and language are central to the nationalization of identity and are key components in the theoretical considerations investigated The literary discourse had implications that were significant in shaping and reshaping historical and cultural identity in the national awakenings of the Latvians at various stages in their history since the late eighteenth century The way social political cultural and ethnic relationships were understood and articulated was transformed by this late eighteenth century discourse in effect nationalized as predominantly German theologians and writers sought to elevate and see dignity and authentic cultural value in the language and national character of the Latvians This is an important and comprehensive volume for those in history and European studies **Inventing the Middle Ages** Norman Cantor,2023-01-01 The Middle

Ages in our cultural imagination are besieged with ideas of wars tournaments plagues saints and kings knights lords and ladies In his era defining work *Inventing the Middle Ages* Norman Cantor shows that these presuppositions are in fact constructs of the twentieth century Through close study of the lives and works of twenty of the twentieth century s most prominent medievalists Cantor examines how the genesis of this fantasy arose in the scholars spiritual and emotional outlooks which influenced their portrayals of the Middle Ages In the course of this vigorous scrutiny of their scholarship he navigates the strong personalities and creative minds involved with deft skill Written with both students and the general public in mind *Inventing the Middle Ages* provided an alternative framework for the teaching of the humanities Revealing the interconnection between medieval civilisation the culture of the twentieth century and our own assumptions Cantor provides a unique standpoint both forwards and backwards As lively and engaging today as when it was first published in 1991 his analysis offers readers the core essentials of the subject in an entertaining and humorous fashion Capitalist Alternatives

Paul Dragos Aligica, Vlad Tarko, 2014-11-20 The book s objective is to explore the challenge of thinking methodically in a theoretically and empirically informed way about alternative forms of capitalism What are the most effective ways to conceptualize the existing models of capitalism that have captured the public imagination and are currently floating around in the public debate How can one mobilize empirical analysis and theory in thinking about the realm of possibilities and about the future of economic order but avoid the twin perils of scientism and historicism This book is an attempt to respond to these and related challenges First it delves into the substantive aspect of the debate taking a closer look at a set of particular forms and models of capitalism that are currently discussed both in mass media and in academic circles as plausible or at least possible alternatives to the status quo Crony State Regulatory and Entrepreneurial Capitalisms By elaborating and clarifying those models it engages in a heuristic exercise that leads to a better understanding of the task of conceptualizing and assessing in a theoretically informed way the diversity of forms of capitalism Second the book takes a step further looking at the epistemic theoretical and methodological dimensions of the discussion What is involved more precisely in our classifying and theorizing of capitalist systems and their historical evolution What is the epistemic basis for building plausible conjectures about the future evolution of an economic system What are the logical and methodological parameters of our endeavors that deal with economic systems or with the problem of continuity and change in comparative economic systems Offering an original approach to the problem of alternative forms of capitalism this book will be of great interest to scholars working in the field of comparative political economy *The Making of Russian Absolutism 1613-1801*

Paul Dukes, 2014-01-14 Revised and expanded the second edition of this fascinating study surveys the first two centuries of Romanov rule from the foundation of the dynasty by Michael Romanov in 1613 to the accession of Alexander I in 1801 The central theme of the book is the growth of absolutism in Russia throughout these years and it traces in detail how the Russian variety of what was a contemporary European phenomenon came fully into being **The Plow, the Hammer, and**

the Knout Arcadius Kahan, Richard Hellie, 1985-09 The eighteenth century was crucial in Russian history marking the nation's emergence from a preindustrial society and the onset of a modernization that would make Russia a great European and eventually global power Kahan writes social history of this century to reflect that Russia accomplished this transformation through the coercive power of the state and the strength and skills of its labor force New Approaches to State and Peasant in Ottoman History Halil Berktaý, Suraiya Faroqi, 2016-04-06 Debates on the world historical place of the Ottoman Empire in the last few decades have been conducted mainly in Turkey but increasingly concepts have been introduced into the conversation from the study of European Chinese and Central Asian history This book first published in 1992 examines the nature of the Ottoman state from a variety of perspectives economic political and social Schiavitù e servaggio nell'economia europea. Secc. XI-XVIII = Serfdom and Slavery in the European Economy Simonetta Cavaciocchi, 2014 Il volume esamina i rapporti di lavoro non contrattuali schiavit e servaggio che a lungo contraddistinsero l'economia europea sia pure con andamenti assai diversi nelle differenti aree I saggi in esso contenuti esaminano la evoluzione del servaggio visto come il lato economico del regime signorile e delle diverse forme di sottomissione personale fino alla vera e propria tratta degli schiavi di cui i mercanti europei furono protagonisti mettendo in luce una situazione assai pi complessa e articolata di quanto gli schemi interpretativi tradizionali lasciassero intuire **Global Neoliberal Capitalism and the Alternatives** David Lane, 2024-04-09 This bold new book offers an exhaustive diagnosis of global capitalism *Reform in Modern Russian History* Theodore Taranovski, Peggy McNerny, 1995-01-27 This volume provides a comparative study of the problems and prospects of reform in modern Russian history Drawn from contributions to a May 1990 conference sponsored by the Kennan Institute for Advanced Russian Studies the book raises important methodological and historiographic questions regarding the content scope and significance of various reform efforts ranging from the Great Reforms of tsar Alexander II to attempts to salvage the Soviet system undertaken by Khrushchev and Gorbachev One of the key issues raised is whether various attempts to modernise the political and social system were a series of cyclical failures or demonstrate a pattern of progressive development Reform in Modern Russian History favours the second mode of interpretation and provides an excellent background for all who want to understand the Gorbachev era and contemporary Russian politics The Institutional Framework of Russian Serfdom Tracy Dennison, 2011-04-28 Russian rural history has long been based on a Peasant Myth originating with nineteenth century Romantics and still accepted by many historians today In this book Tracy Dennison shows how Russian society looked from below and finds nothing like the collective redistributive and market averse behaviour often attributed to Russian peasants On the contrary the Russian rural population was as integrated into regional and even national markets as many of its west European counterparts Serfdom was a loose garment that enabled different landlords to shape economic institutions especially property rights in widely diverse ways Highly coercive and backward regimes on some landlords estates existed side by side with surprisingly liberal approximations to a rule of law

This book paints a vivid and colourful picture of the everyday reality of rural Russia before the 1861 abolition of serfdom

The Russian Empire in the Eighteenth Century Aleksandr B. Kamenskii, 1997-08-28 Russia's eighteenth century drive toward modernity and empire under the two greats Peter I and Catherine II is fully captured in this new work by one of Russia's outstanding young historians. The author develops three themes: Russia's relationship to the West, the transformation of Holy Russia into a multinational empire, and the effects of efforts to modernize Russia selectively along Western lines. Writing in a clear, crisp style, Kamenskii enlivens the narrative with observations from contemporary literary figures and political commentators that point up the lasting significance of the events he describes. *The Oxford Encyclopedia of*

Economic History Joel Mokyr, 2003 What were the economic roots of modern industrialism? Were labor unions ever effective in raising workers' living standards? Did high levels of taxation in the past normally lead to economic decline? These and similar questions profoundly inform a wide range of intertwined social issues whose complexity, scope, and depth become fully evident in the Encyclopedia. Due to the interdisciplinary nature of the field, the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history, demographic history, business history, and the histories of technology, migration, and transportation. The articles, all written and signed by international contributors, include scholars from Europe, Latin America, Africa, and Asia. Covering economic history in all areas of the world and segments of economies from prehistoric times to the present, *The Oxford Encyclopedia of Economic History* is the ideal resource for students, economists, and general readers, offering a unique glimpse into this integral part of world history. **A Global History of Anti-Slavery Politics in the Nineteenth Century** W. Mulligan, M. Bric, 2013-05-23 The

abolition of slavery across large parts of the world was one of the most significant transformations in the nineteenth century, shaping economies, societies, and political institutions. This book shows how the international context was essential in shaping the abolition of slavery. **The Russian Empire in the Eighteenth Century: Tradition and Modernization** Aleksandr

Kamenskii, David Griffiths, 2015-03-04 Russia's 18th century drive toward modernity and empire under the two greats Peter I and Catherine II is captured in this work by one of Russia's outstanding young historians. The author develops three themes: Russia's relationship to the West, the transformation of Holy Russia into a multinational empire, and the effects of efforts to modernize Russia selectively along Western lines. Lectures, Etc John Maurice Clark, 1948 **Life in 2030** John B. Robinson, 2007-10-01 *Life in 2030* is a ground-breaking, practical, and above all, positive vision of life in twenty-first century Canada. As we move into the next century, the development of sustainable and environmentally benign patterns of resource utilization and socioeconomic development is an essential priority. In this book, John Robinson and his co-authors investigate the possibility and impacts of a sustainable future.

for Canada Based on research initiated by the Sustainable Society Project in 1988 *Life in 2030* is unique in that it uses backcasting instead of forecasting to trace the path of Canada forty years into the future to the year 2030 Instead of predicting the most likely future based on current trends the authors set out a desirable future and discuss the changes that would need to occur between 1990 and 2030 to arrive at this future vision This vision derived from ethical political and ecological principles is not viewed as definitive for the authors hope to inspire others to conceive of and work towards their own visions of a sustainable future *Life in 2030* makes a significant contribution to interdisciplinary studies on the environment and sustainability because it develops a scenario that allows for an evaluation of the changes required to achieve a sustainable society This book is required reading for anyone interested in a sustainable future environment It also provides an original and provocative look at life in Canada in the twenty first century

Serfdom, Society, and the Arts in Imperial Russia Richard Stites, 2008-10-01 Serf era and provincial Russia heralded the spectacular turn in cultural history that began in the 1860s Examining the role of arts and artists in society's value system Richard Stites explores this shift in a groundbreaking history of visual and performing arts in the last decades of serfdom Provincial town and manor house engaged the culture of Moscow and St Petersburg while thousands of serfs and ex serfs created or performed Mikhail Glinka raised Russian music to new levels and Anton Rubinstein struggled to found a conservatory Long before the itinerant painters explored town and country in genre scenes of everyday life Serf actors on loan from their masters brought naturalistic acting from provincial theaters to the imperial stages Stites's richly detailed book offers new perspectives on the origins of Russia's nineteenth century artistic prowess
