Ted Grant Writings: Volume One - Trotskyism and the Second World War (1938-1942) Ted Grant, This is the first volume of Ted Grant s Writings It covers the period from 1938 to 1942 when he was involved in building up the forces of Trotskyism in Britain During the early years of the Second World War Ted became editor of the Socialist Appeal and political secretary of the Workers International League In this role Ted emerged as the principal theoretician of the British Trotskyist movement His participation in the revolutionary movement was to span a period from 1928 when he was introduced to Marxism through to his death in 2006 For all those who knew him he was a truly remarkable and inspiring figure The articles and documents contained in this first volume of his Writings coincided with the emergence of the WIL as one of the most successful Trotskyist groups in the world This present volume covers a decisive time in history It was the most testing time for British and world Trotskyism As Hitler occupied Europe the WIL was alone on the continent in applying the proletarian military policy that had been outlined by Trotsky This it managed to do in the most successful fashion allowing the WIL to establish an important proletarian base We publish here only the articles that were either signed by Ted or that he drafted in his role as the WIL s political secretary He would have certainly written the vast bulk of the editorials of Socialist Appeal but these have not been included These writings constitute an essential and rich part of the theoretical heritage of Marxism which can serve to educate the new generation of workers and youth who are entering into political activity at this time of deep capitalist crisis

Norway 1940 Harry Plevy, 2017-06-23 A comprehensive chronologically arranged account of the two month campaign Embraces viewpoints of all the combatants British French German Norwegian and Polish Many first hand accounts previously unpublished or not in general circulation Ostensibly fought for control of Swedish iron ore to Germany the Norwegian campaign made an important but largely overlooked contribution to the conduct of the Second World War It convincingly proved the supremacy of air power in modern warfare and particularly the vulnerability of land and sea forces to sustained undefended air assault It was the first conflict in which one side the Germans used all three arms of their forces in integrated combined assault Blitzkreig and in which parachute and glider borne troops were used to secure airfields and strategic targets In contrast the Allies tried to conduct the campaign on land with an overreliance on infantrymen and inadequate air support Norway 1940 Chronicle of a Chaotic Campaign deals with the strategic and political imperatives in an integrated and comprehensive manner as well as operations in a complex and rapidly changing two month campaign While other books on the campaign have tended to focus on a limited perspective such as naval operations or the higher levels of

political decision making with no combatant or personal perspective this book makes much use of many previously unpublished contemporary writings and eyewitness accounts of the people involved in the Norwegian campaign 32 black and white photographs **Document on German Foreign Policy, 1918-1945** United States Department of State,1954
