Emmanuel Dumay, 2011-03-15 This book presents a detailed story on each military coup detat that occurred in Haiti from February 1986 to September 1991 In fact it describes the political spectrum that reigned in Haiti after the departure of President Jean Claude Duvalier The epoch that succeeded the fall of the Duvaliers from power was one of the most ambiguous periods in the history of Haiti founded by Generalissimo Jean Jacques Dessalines the Great in 1804 Dessalines as GENERAL IN CHIEF of the Haitian Indigenous army became the first of the nations Heads of state to be overthrown by a military coup detat in October 17 1806 Since then most of the nations

Chiefs of state assumed power through revolutions or coups d'état. Currently the nation experiences 33 coups d'état. From February 1986 to September 1991 seven coups or attempted coups d'état had taken place in Haiti. That is that period of social and political instability that is exposed in this book. In the post opinions the author speaks briefly about the problematic of the army involvement in coups d'état in Haiti the January 12 2010 Earthquake as well as the need for a new Haitian Armed Forces. The book is made available to help Haitians or foreigners in particular those who are curious about Haiti's history including observers professors students politicians ordinary people etc. Everybody should be capable of judging for himself or for herself on the country's situation during and after the fall of the Duvaliers from power in February 1986. By writing this essay the author encourages all Haitians that live inside the country or abroad to come to unity. That is a powerful tool that can bring Haiti to a dramatic turn toward consistent DEMOCRACY and economic development.

Political Fragility: Coups D'État and Their Drivers Aliona Cebotari, Enrique Chueca-Montuenga, Yoro Diallo, Yunsheng Ma, Ms. Rima A Turk, Weining Xin, Harold Zavarce, 2024-02-16. The paper explores the drivers of political fragility by focusing on coups d'état as symptomatic of such fragility. It uses event studies to identify factors that exhibit significantly different dynamics in the runup to coups and machine learning to identify these stressors and more structural determinants of fragility as well as their nonlinear interactions that create an environment propitious to coups. The paper finds that the destabilization of a country's economic political or security environment such as low growth high inflation weak external positions political instability and conflict set the stage for a higher likelihood of coups with overlapping stressors amplifying each other. These stressors are more likely to lead to breakdowns in political systems when demographic pressures and underlying structural weaknesses especially poverty exclusion and weak governance are present or when policies are weaker through complex interactions. Conversely strengthened fundamentals and macropolicies have higher returns in structurally fragile environments in terms of staving off political breakdowns suggesting that continued engagement by multilateral institutions and donors in fragile situations is likely to yield particularly high dividends. The model performs well in predicting coups out of sample having predicted a high probability of most 2020-23 coups including in the Sahel region.

**National and International Conflicts, 1945-1995** Frank R. Pfetsch, Christoph Rohloff, 2013-10-11. The information flow about crises and conflicts is highly selective; the media only focus on a few major conflicts at a time. Many conflicts are neglected others soon forgotten after the fighting ends. This book fills the gaps and offers a systematic overview of all crises and conflicts in and among states since 1945 and traces the global trends of conflict development. Based on the broad empirical basis of the Conflict Simulation Model KOSIMO Pfetsch and Rohloff use an integrated approach to cover many forms and types of political conflicts both peaceful and violent.
