Galactic Heritage Cards Lyssa Royal Holt, 2013-04-02 The Galactic Heritage Cards were first introduced in Japan where hundreds of Lyssa's students have since used them with profound results USING THE CARDS The overall concept of the cards is to explore the journey from unity to fragmentation polarity and back to reintegration Since each of us is part of the same one consciousness this is a holographic journey that unifies us all The card system uses the holographic concept that we are experiencing both unity and separation simultaneously The components of the cards explore this journey in a variety of ways including SPECIES or STAR SYSTEM Twenty one different species or star systems are represented in the four suits or time streams of cards to symbolize the main archetypal groups who have influenced the development of our galactic family THEME Each card has a theme or lesson that is connected to the civilization it depicts Contemplative text and deeper commentary are presented for each card to help users understand how to apply this wisdom in their current lives ARTWORK The architect of these cards the multidimensional consciousness Germane channeled through Lyssa also assisted Hong Kong artist David Cow in the channeling of the images Contemplating the artwork allows more information and energy to be transmitted that goes beyond the text for each card The art works deeply with the subconscious and adds a powerful dimension to the user's inner work with the cards In addition to the individual card art an underlying image spans all the cards when they're laid out on a grid with 18 cards per row This image represents our journey back to integration and thus each card carries an embedded energy of unity even within the uniqueness and separate journey of each card When the final card was channeled the total number was 108 a sacred number in many traditions that reflects the idea of wholeness and completion GETTING STARTED In the accompanying booklet we offer more information the text and commentary for each card and several recommended spreads to help you get started **American Rehabilitation**, 1990 **The Power of**

Stenson,2017-03-31 In Father The Family Protector Educator James Stenson explores how fathers exercise their powerful and particularly masculine contribution to family life His research comes from more than twenty years of working with families from two highly successful independent secondary schools for boys that he helped establish The Heights School in Washington D C and Northridge Preparatory School in Chicago As headmaster he made it his business to know hundreds of families intimately studying their family lives watching their children grow into maturity very often successfully but sometimes not Through countless conversations with fathers and mothers he tried to account for the differences looking for patterns of family life among those parents who triumphed with their children What did these successful men and women have in common What did they manage to do right Most important what could other parents learn from their experience This wisdom of fatherhood is what this book is all about It explains the

main obstacles in today's society that undercut a father's teaching role and tells men what they could do to overcome them. Then within this framework James Stenson spells out how successful fathers deal with their children in the more crucial areas: family rules, discipline, schooling, sports, recreation, the media, and ongoing teamwork with one's wife. In short, this book provides the guidance that will help any father to carry out a serious responsibility: that of protector of his family. Listen to author James Stenson speak about *Successful Fathers*.

Plato's Republic Alain Badiou, 2013-05-03 *Plato's Republic* is one of the most well known and widely discussed texts in the history of philosophy, but how might we get to the heart of this work today, 2500 years after it was originally composed? Alain Badiou invents a new genre in order to breathe fresh life into Plato's text and restore its universality. Rather than producing yet another critical commentary, he has retranslated the work from the original Greek and, by making various changes, adapted it for our times. In this innovative reimagining of a classic text, Badiou has removed all references specific to ancient Greek society from the endless exchanges about the moral courage of poets to those political considerations that were only of interest to the aristocratic elite. On the other hand, Badiou has expanded the range of cultural references: here, philosophy is firing on all cylinders and Socrates and his companions are joined by Beckett, Pessoa, Freud, and Hegel. They demonstrate the enduring nature of true philosophy, always ready to move with the times. Moreover, Badiou the dramatist has made the Socratic dialogue a true oratorical contest. In his version of the *Republic*, the interlocutors have more in mind than merely agreeing with the Master. They stand up to him, put him on the spot, and thereby show thought in motion. Through this work of writing scholarship and philosophy, we are able for the first time to read a version of Plato's text which is alive, stimulating, and directly relevant to our world today.
