*Governing Gifts* Erica Caple James, 2019-04-15 This collection investigates the intersections between faith based charity and secular statecraft The contributors trace the connections among piety philanthropy policy and policing Rather than attempt to delimit what constitutes so called faith based aid and institutions or to reify the concept of the state they seek to understand how faith and organized religious charity can be mobilized at times on behalf of the state to govern populations and their practices In exploring the relationship between faith based charity and the state this volume contributes to discussions of the boundaries between public and private realms and to studies on the resurgence of religion in politics and public policy The contributors demonstrate how the borders between faith based and secular domains of governance cannot be clearly defined Ultimately

the book aims to expand the parameters of what has typically been a US centric discussion of faith based interventions as it explores the concepts of faith charity security and governance within a global perspective **Covenant House** Peter J. Wosh,2005 An institutional history that follows the rise fall and rebirth of this important faith based NYC social charity

structural inequalities between providers and recipients which can deepen aid recipients dependence and lead to resistance to organized benevolence James documents how institutional financial deficits harmed clients and providers yet also how modes of philanthropy that previously caused harm can be redeployed to repair damage and rebuild charitable brands The culmination of over a decade of advocacy and research on behalf of the Haitians of Boston this groundbreaking work exposes how Catholic corporations strengthened but also eroded Haitians civic power **Street Kids** Kristina E. Gibson, 2011-05-09 Street outreach workers comb public places such as parks vacant lots and abandoned waterfronts to search for young people who are living out in public spaces if not always in the public eye Street Kids opens a window to the largely hidden world of street youth drawing on their detailed and compelling narratives to give new insight into the experiences of youth homelessness and youth outreach Kristina Gibson argues that the enforcement of quality of life ordinances in New York City has spurred hyper mobility amongst the city's street youth population and has serious implications for social work with homeless youth Youth in motion have become socially invisible and marginalized from public spaces where social workers traditionally contact them jeopardizing their access to the already limited opportunities to escape street life The culmination of a multi year ethnographic investigation into the lives of street outreach workers and their kids on the streets of New York City Street Kids illustrates the critical role that public space regulations and policing play in shaping the experience of youth homelessness and the effectiveness of street outreach **The Encyclopedia of New York City** Kenneth T.
