Cover Girls And Supermodels 1945 1965:

Cover Girls and Supermodels, 1945-1965 Jean-Noël Liaut,1996 In the glorious world of catwalks glossy magazines cameras and couturiers who were the women behind the smiles and the poses What secrets really lay behind their legendary beauty These cameo biographies of the supermodels and haute couture designers and studios who created them reveal an otherwise drab post war world of incredible elegance and beauty

This Year's Model Elizabeth Wissinger,2015-09-18 Over the last four decades the fashion modeling industry has become a lightning rod for debates about Western beauty ideals the sexual objectification of women and consumer desire Yet fashion models still captivate embodying all that is cool glam hip and desirable They are a fixture in tabloids magazines fashion blogs and television Why exactly are models so appealing And how do these women succeed in so soundly holding our attention In This Year s Model Elizabeth Wissinger weaves together in depth interviews and research at model castings photo shoots and runway shows to offer a glimpse into the life of the model throughout the 20th and 21st centuries Once an ad hoc occupation the model life now involves a great deal of physical and virtual management of the body or what Wissinger terms glamour labor Wissinger argues that glamour labor the specialized modeling work of self styling crafting a look and building an image has been amplified by the rise of digital media as new technologies make tinkering with the body s form and image easy Models can now present self fashioning self surveillance and self branding as essential behaviors for anyone who is truly in the know and in fashion Countless regular people make it their mission to achieve this ideal not realizing that technology is key to creating the unattainable standard of beauty the model upholds and as Wissinger argues this has been the case for decades before Photoshop even existed Both a vividly illustrated historical survey and an incisive critique of fashion media This Year s Model demonstrates the lasting cultural influence of this unique form of embodied labor

Cutting a Figure Richard J. Powell,2008 Examining portraits of black people over the past two centuries Cutting a Figure argues that these images should be viewed as a distinct category of portraiture that differs significantly from

depictions of people with other racial and ethnic backgrounds The difference Richard Powell contends lies in the social capital that stems directly from the black subject's power to subvert dominant racist representations by evincing such traits as self composure self adornment and self imagining Powell forcefully supports this argument with evidence drawn from a survey of nineteenth century portraits in depth case studies of the postwar fashion model Donyale Luna and the contemporary portraitist Barkley L Hendricks and insightful analyses of images created since the late 1970s Along the way he discusses major artists such as Fr d ric Bazille John Singer Sargent James Van Der Zee and David Hammons alongside such overlooked producers of black visual culture as the Tonka and Nike corporations Combining previously unpublished images with scrupulous archival research Cutting a Figure illuminates the ideological nature of the genre and the centrality of race and cultural identity in understanding modern and contemporary portraiture **Bronwen Astor** Peter Stanford,2000 Bronwen Astor has maintained silence over the Profumo scandal of 1963 out of respect for her dead husband's wishes and to protect his children Now she feels the time has come to tell the truth about a period when she was in the international spotlight a time that changed her life for ever New Books on Women and Feminism ,1996 Spaces of Culture Scott Lash, Mike Featherstone,1999-03-28 In Spaces of Culture an international group of scholars examines the implications of questions such as What is culture What is the relationship between social structure and culture in a globalized and networked world Do critical perspectives still apply or does the speed and complexity of cultural production demand new forms of analysis They explore the key themes in social theory the nation state the city modernity and reflexivity post Fordism and the spatial logic of the informational city The contributors go on to analyze the public sphere questioning the reductive representation of technology as a form of instrumentality and demonstrating how new technologies can offer new spaces of culture This analysis The Berg Companion to Fashion Valerie Steele,2015-08-01 An essential reference for students curators and scholars of fashion cultural studies and the expanding range of disciplines that see fashion as imbued with meaning far beyond the material Over 300 in depth entries covering designers articles of clothing key concepts and styles Edited and introduced by Valerie Steele a scholar who has revolutionized the study of fashion and who has been described by The Washington Post as one of fashion's brainiest women Derided by some as frivolous even dangerous and celebrated by others as art fashion is anything but a neutral topic Behind the hype and the glamour is an industry that affects all cultures of the world A potent force in the global economy fashion is also highly influential in everyday lives even amongst those who may feel impervious This handy volume is a one stop reference for anyone interested in fashion its meaning history and theory From Avedon to Codpiece Dandyism to the G String Japanese Fashion to Subcultures Trickle down to Zoot Suit The Berg Companion to Fashion provides a comprehensive overview of this most fascinating of topics and will serve as the benchmark guide to the subject for many years to come Body Dressing Joanne Entwistle, Elizabeth Wilson,2001-06 Exploring gender photography cultural history and modernity this title examines the way in which the dress acts on the body
