Cowboy Up! Gail Hughbanks Woerner, 2001 What started as an exhibition to entertain audiences has turned into the most popular and dangerous event in rodeo bull riding When a 150 pound man attempts to ride a two ton bull with a killer instinct it's not a

matter of whether the rider will get injured but when and how badly As cowboy Jim Shoulders says You can't stop something like an injury from hurting but you can damn well not let it bother you What motivates riders to devote themselves to this challenging sport Find out in Austinite Gail Woerner's newest book which covers bull riding from its beginning into the new millennium *Out of the Mists* Di Moore, 2014-07-14 Elizabeth Jessie Hickman portrayed in recent years as the infamous Lady Bushranger of the Wollemi Valleys of New South Wales had a very colourful life Hers was a world of bush carnivals and buckjumping cattle duffing arrests and escapes gaolings reforms and more Exposed here for the first time is a tale of deception surrounding a newborn infant relationships divorces love hate and heartbreak all mingling to create the complex life that was Jessie's Her granddaughter Di Moore was sixty seven when she learned the truth about her biological grandparents from an elderly country saddler By the time he had finished talking Di's perception of her family's history was shaken and her curiosity aroused With the enthusiasm of a new family researcher on a mission she began to look into the life changing revelation she heard that day With no prior inkling of what her inquiries might uncover she entered a world that had remained safely hidden in that well stocked cupboard of disreputable skeletons It is said that truth is stranger than fiction and Di's research has given her new appreciation for that aphorism *Out of the Mists* is by far the most accurate account of Elizabeth Jessie Hickman's unusual life compiled with respect and honour by her own granddaughter This is Jessie's true story warts and all *The Wild West in Australia and America* Jack Drake, 2012 In this volume of *The Wild West* Drake tells stories about the squattocracy the cattle kings and the land barons mounted police sheriffs and posses in the pursuit of their elusive prey bushrangers and outlaws and why they are so loved in popular fantasy stockmen ringers and cowboys early white settlement and both friendly and hostile contact with indigenous peoples and six shooters gun slingers snider rifles and infamous shoutouts **Music Festivals and Regional Development in Australia** Chris Gibson, John Connell, 2016-04-29 Throughout the world the number of festivals has grown exponentially in the last two decades as people celebrate local and regional cultures but perhaps more importantly as local councils and other groups seek to use festivals both to promote tourism and to stimulate rural development However most studies of festivals have tended to focus almost exclusively on the cultural and symbolic aspects or on narrow modelling of economic multiplier impacts rather than examining their long term implications for rural change This book therefore has an original focus It is structured in two parts the first discusses broad issues affecting music festivals globally especially in the context of rural revitalisation The second part looks in more detail at a range of types of festivals commonly found throughout North America Europe and Australasia such as country music jazz opera and alternative music festivals The authors draw on in depth research undertaken over the past five years in a range of Australian places which traces the overall growth of festivals of various kinds examines four of the more important and distinctive music festivals and makes clear conclusions on their significance for rural and regional change **Rural Change in Australia** John Connell, 2016-04-08 New twenty first century economic social and environmental changes have challenged

and reshaped rural Australia They range from ageing populations youth out migration immigration policies that seek to place skilled migrants in rural Australia tree changers agricultural restructuring and new relationships with indigenous populations Challenges also exist around the patchwork economy and the wealth that the mining boom offers some areas while threatening regional economic decline in others Rural Australia is increasingly not simply a place of production of agriculture and minerals but an idea that individuals seek and are encouraged to consume The socio economic implications of drought water rights and changing farming practices have prefaced new social cultural and economic reforms This book provides a contemporary perspective on rapidly evolving population economic and environmental changes in rural and regional Australia itself a significant concept Bringing together a range of empirical studies the book builds on established rural studies themes such as population change economic restructuring and globalisation in agriculture but links such changes to environmental change culture class gender and ethnic diversity Presenting original and in depth interventions on these issues and their intersections this book assembles the best of contemporary research on rural Australia
