Psychology for Sustainability Britain A. Scott, Elise L. Amel, Susan M. Koger, Christie M. Manning, 2015-07-24 Psychology for Sustainability 4th Edition known as Psychology of Environmental Problems Psychology for Sustainability in its previous edition applies psychological theory and research to so called environmental problems which actually result from human behavior that degrades natural systems This upbeat user friendly edition represents a dramatic reorganization and includes a substantial amount of new content that will be useful to students and faculty in a variety of disciplines and to people outside of academia as well The literature reviewed throughout the text is up to date and reflects the burgeoning efforts of many in the behavioral sciences who are working to create a more sustainable society The 4th Edition is organized in four sections The first section provides a foundation by familiarizing readers with the current ecological crisis and its historical origins and by offering a vision for a sustainable future The next five chapters present psychological research methods theory and findings pertinent to understanding and changing unsustainable behavior The third section addresses the reciprocal relationship between planetary and human wellbeing and the final chapter encourages readers to take what they have learned and apply it to move behavior in a sustainable direction The book concludes with a variety of theoretically and empirically grounded ideas for how to face this challenging task with positivity wisdom and enthusiasm This textbook may be used as a primary or secondary textbook in a wide range of courses on Ecological Psychology Environmental Science Sustainability Sciences Environmental Education and Social Marketing It also provides a valuable resource for professional audiences of policymakers legislators and those working on sustainable communities

Green Cultural Criminology Avi Brisman, Nigel South, 2014-06-05 Over the last two decades green criminology has emerged as a unique area of study bringing together criminologists and sociologists from a wide range of research backgrounds and varying theoretical orientations It spans the micro to the macro from individual level environmental crimes and victimization to business corporate violations and state transgressions There have been few attempts however to explicitly or implicitly integrate cultural criminology into green criminology or vice versa This book moves towards articulating a green cultural criminological perspective Brisman and South examine existing

overlapping research and offer a platform to support future excursions by green criminologists into cultural criminology's concern with media images and representations consumerism and consumption and resistance At the same time they offer an invitation to cultural criminologists to adopt a green view of the consumption landscape and the growth and depictions of environmental harms Green Cultural Criminology is aimed at students academics criminologists and sociologists with an interest in green criminology and cultural criminology two of the most exciting new areas in criminology today

American Wilderness Michael Lewis, 2007-03-08 This collected volume of original essays

proposes to address the state of scholarship on the political cultural and intellectual history of Americans responses to wilderness from first contact to the present While not bringing a synthetic narrative to wilderness the volume will gather competing interpretations of wilderness in historical context **The Dark Side of the Left** Richard J. Ellis,1998 Political correctness idealizing the oppressed and an affinity for authoritarian and charismatic leaders are all parts of what Ellis calls the dark side of the left Three Essays on the Theory of Sexuality Sigmund Freud,2017-01-24 Available for the first time in English the 1905 edition of Three Essays on the Theory of Sexuality presents Sigmund Freud s thought in a form new to all but a few ardent students of his work This is a Freud absent the Oedipal complex which came to dominate his ideas and subsequent editions of these essays In its stead is an autoerotic theory of sexual development a sexuality transcending binary categorization This is psychoanalysis freed from ideas that have often brought it into conflict with the ethical and political convictions of modern readers practitioners and theorists The non Oedipal psychoanalysis Freud outlined in 1905 possesses an emancipatory potential for the contemporary world that promises to revitalize Freudian thought The development of self is no longer rooted in the assumption of a sexual identity instead the imposition of sexual categories on the infant mind becomes a source of neurosis and itself a problem to overcome The new edition of Three Essays presents us with the fascinating possibility that Freud suppressed his first and best thoughts on this topic and that only today can they be recognized and understood at a time when societies have begun the serious work of reconceptualizing sexual identities

Lines on the Land Scott Herring,2004 Lines on the Land Writers Art and the National Parks Scott Herring The nineteenth century photographer William Henry Jackson once complained of the skepticism with which early descriptions of Yellowstone were met the place was too wondrous to be believed The public demanded proof and a host of artists and writers obliged These early explorers possessed a vigorous devotion to the young nation s wilderness the naturalist John Muir famously toured the land from Wisconsin to Florida on foot and through their work established aesthetic categories that exist to this day In Lines on the Land Scott Herring contends that these writers and artists were canon makers recognizing the national parks as naturally occurring works of art and conferring upon them a cultural prestige the parks were the splendid focal points of the American landscape These early canonizing works are homages to a vast untouched wilderness This praise would gradually give way however to a distinctly American anger what Herring calls outraged idealism Later generations were faced with a changing culture that had imperfectly absorbed and even misrepresented the national park aesthetic The postwar park was overrun by cars and tourists who could not possibly match the pioneering naturalists profound commitment to and appreciation for their surroundings The collective tone of the parks chroniclers as a result evolved from celebration of awesome beauty to indignation over the perceived corruption of the parks both as an ideal and as actual physical settings Herring traces this shift through the work of a wide spectrum of creative minds from early figures such as Muir and Thomas Moran to later observers of the parks such as Ansel Adams Sylvia Plath Edward Abbey and Rick Bass The

text is punctuated by autobiographical interchapters in which Herring relates the book's chief themes to his own experiences in Yellowstone National Park Under the Sign of Nature Explorations in Ecocriticism **Readings in Performance and**

Ecology Wendy Arons, Theresa J. May, 2016-04-30 This ground breaking collection focuses on how theatre dance and other forms of performance are helping to transform our ecological values Top scholars explore how familiar and new works of performance can help us recognize our reciprocal relationship with the natural world and how it helps us understand the way we are connected to the land The Bulldozer in the Countryside Adam Rome, 2001-04-23 The concern today about

suburban sprawl is not new In the decades after World War II the spread of tract house construction changed the nature of millions of acres of land and a variety of Americans began to protest against the environmental costs of suburban development By the mid 1960s indeed many of the critics were attempting to institutionalize an urban land ethic The Bulldozer in the Countryside was the first scholarly work to analyze the successes and failures of the varied efforts to address the environmental consequences of suburban growth from 1945 to 1970 For scholars and students of American history the book offers a compelling insight into two of the great stories of modern times the mass migration to the suburbs and the rise of the environmental movement The book also offers a valuable historical perspective for participants in contemporary debates about the alternatives to sprawl Magic and Witchery in the Modern West Shai Feraro, Ethan Doyle

White, 2019-06-26 This book marks twenty years since the publication of Professor Ronald Hutton's The Triumph of the Moon a major contribution to the historical study of Wicca Building on and celebrating Hutton's pioneering work the chapters in this volume explore a range of modern magical occult and Pagan groups active in Western nations Each contributor is a specialist in the study of modern Paganism and occultism although differ in their embrace of historical anthropological and psychological perspectives Chapters examine not only the history of Wicca the largest and best known form of modern Paganism but also modern Pagan environmentalist and anti nuclear activism the Pagan interpretation of fairy folklore and the contemporary Traditional Witchcraft phenomenon
