It is an invaluable index of Japanese public opinion about the war. **Bloodlines** Anthony M. Platt, Cecilia Elizabeth O'Leary, 2015-12-03 At the end of World War II an American military intelligence team retrieved an original copy of the 1935 Nuremberg Laws signed by Hitler and turned over this rare document to General George S. Patton. In 1999, after fifty-five years in the vault of the Huntington Library in southern California, the Nuremberg Laws resurfaced and were put on public display for the first time at the Skirball Cultural Center in Los Angeles. In this far-ranging interdisciplinary study that is part historical analysis, part cultural critique, part detective story, and part memoir, Tony Platt explores a range of interrelated issues: war-time looting, remembrance of the Holocaust, German and American eugenics, and the public responsibilities of museums and cultural centers. This book is based on original research by the author and co-researcher, historian Cecilia O'Leary, in government military and library archives, interviews, and oral histories, and participant observation. It is both a detailed scholarly analysis and a record of the author's activist efforts to correct the historical record.

*Encyclopedia of War and American Society* Peter Karsten, 2006 Publisher description **The War on Terror and American Popular Culture** Andrew Schopp, Matthew B. Hill, 2009 The War on Terror and American Popular Culture is a collection of original essays by academics and researchers from around the world that examines the complex interrelation between the Bush administration's War on Terror and American popular culture. Written by experts in the fields of literature, film, and cultural studies, this book examines in detail how popular culture reflects concerns and anxieties about the September 11 attacks and the war those attacks generated, how it interrogates the individual and collective impacts that war has wrought, how it might challenge or critique current policy, and how it might reinforce or endorse the war and its sociopolitical paradigms. **Soldiers**, 1974 **The Changing Character of War** Hew Strachan, Sibylle Scheipers, 2011-05-12 The Changing Character of War unites scholars from the disciplines of history, politics, law, and philosophy to ask in what ways the character of war today has changed from war in the past and how the wars of today differ from each other. It discusses who fights, why they fight, and how they fight. **The United States and the Second World War** G. Kurt Piehler, Sidney Pash, 2010 In this text, Piehler and Pash bring together a collection of essays offering an examination of American participation in the Second World War, including a long overdue reconsideration of such seminal topics as the forces leading the US to enter World War II, the role of the American military in the Allied victory, and more.

**Parameters**, 1990 *The Defeated and the Dead* Mark Percy, 2024-07-01 How do we teach about war? How can social studies teachers empower students to understand how wars are started, how they are fought, and how they are ended? Films

about war are featured in nearly all social studies classrooms across the US with practically every American teenager watching at least one historical film during their time in middle and high school Without the mandatory class viewing most of these movies would not have been seen by them otherwise Film is the medium through which most Americans learn about their national past But a passive viewing of a movie about war does little to help students learn to be critical thinkers about their country's choices In *The Defeated and the Dead Teaching About War Through Film* Dr Mark Percy outlines strategies and resources for teachers to incorporate movies about war into their classes in an effective thoughtful manner Employing elements of the Just War doctrine the basis for most international law and treaties this book highlights how teachers can make use of widely used films like *Saving Private Ryan* *Platoon* and *Glory* as well as other movies that span our nation's history from the American Revolution to modern conflicts By focusing on critical frameworks like Just War as well as featuring films both about war and the avoidance of war *The Defeated and the Dead* offers social studies teachers a valuable tool to approach difficult contentious topics in their classrooms

**The Realities of Reality - Part IV: The Reality Behind Achieving World Peace** Fritz Dufour, MBA, DÉSS, 2020-04-05 This book is organized in seven chapters Chapter one looks at the origins and the causes of war The chapter argues that war is a consequence of how we as a species have evolved War has both endogenous and exogenous causes While the former depends on our biology and psychology the latter has to do primarily with international relations Chapter two makes the case for the paradoxical nature of war While war takes lives it is legitimate under certain circumstances For example armed humanitarian interventions are allowed to save lives among local populations at the expense of the oppressors by employing all necessary means ethical or not Chapter three asks if peace among nations is achievable which is the main theme of this book However it does not elaborate on the question entirely Instead it gives sort of a prelude of what will be discussed in the remaining of the book by talking about the concepts of world order and American hegemony arms race and peacebuilding Chapter four builds on three by looking at realism idealism and pacifism in international relations As to pacifism the chapter attempts to answer the question what was the most peaceful time in history Chapter five presents the elements of hope for world peace by considering the role played by the following 1 the United Nations 2 the North Atlantic Treaty Organization NATO 3 the Organization for Security and Cooperation in Europe OSCE 4 the non governmental organizations NGOs 5 the role of nuclear deterrence 6 globalization 7 transnationalism 8 diplomacy 9 sports 10 international cooperation in space exploration 11 the Nobel Prize and 12 the declining of war and violence in modern times On the other hand chapter six presents the opposite argument or the barriers to world peace using the following points 1 the proliferation of nuclear weapons 2 geoeconomics 3 terrorism 4 the global refugee crisis 5 the profitability of arms sales and 6 the profitability of wars It makes an interesting argument especially as to the profitability of wars by showing how the United States first emerged as an imperial and a world power in the 1890s then as the only world's superpower after World War II Finally chapter seven takes a proactive approach by peering into the

future of armed conflict which is likely to take place in new environments Cyberspace the littoral choke points near space and increasingly in expanding cities or slums War The chapter concludes with a discussion on the Doomsday Clock a concept stemmed from the uncertainty as to the future of mankind because of armed conflicts and which is a symbol that represents the likelihood of a man made global catastrophe Roman Military Medicine Valentine J. Belfiglio, Sylvia I.

Sullivant, 2019-03-27 This work sheds light on the mostly obscure topic of medicine and its use in the Roman military It explores the workings of the ancient healthcare system the methods of care by physicians and the treatments for different ailments and injuries The contributions utilise historical writings archeological artifacts and more recent research on the United States military in order to discuss the past with an eye on the future of military and wildlife survival **Professional Journal of the United States Army**, 1956 *The Media Offensive* Alexander G. Lovelace, 2022-05-25 World War II was a media war President Franklin D Roosevelt used the press to a great extent of course but as the war progressed the media also came to influence commanders decisions on the battlefield Rescuing General Douglas MacArthur from the Philippines in deference to public opinion forced the Allies to divide the Pacific War between two competing theaters Omar Bradley s concern over US public opinion convinced General Dwight D Eisenhower to include Americans in the final assault against Axis forces in Tunisia General George S Patton Jr raced across Sicily to gain media attention and British respect General Mark Clark s hunger for publicity and the glory of capturing Rome allowed an entire German army to escape destruction Negative media pressure and the fear of V 1 bombs damaging British morale provided the impetus for the breakout of Normandy and the unsuccessful attempt to liberate the Netherlands in the fall of 1944 British general Bernard Montgomery s remarks to the press during the Battle of the Bulge almost caused him to lose his command and created tremendous ill feelings among the Allies Soon afterward Eisenhower was forced to hold the dangerously exposed city of Strasbourg because of French public opinion By V E Day even Eisenhower was attempting to get more publicity for American as opposed to Allied units The Media Offensive offers a new way to understand military media relations during World War II The press and public opinion shaped not only how the conflict was seen but also how it was fought Alexander Lovelace demonstrates that the US military repeatedly discovered that the best effects resulted from accurate news stories Truthful news reporting defined as news reporting that accurately depicts the events it describes could not be created by the military or even the media but could only emerge through a free press searching for it Lovelace recasts World War II in a new and unique fashion by placing media and public opinion at the center of battlefield decision making Unlike past scholarship on the media during World War II that focused on censorship propaganda or the adventure stories of war correspondents The Media Offensive takes the historiography of war reporting in a new direction In what could be called the new history of war reporting the focus is switched from how the military controlled reporters to how military decisions were shaped by the press
