Understanding Ethiopia Frances M. Williams,2016-03-21 Understanding Ethiopia is a detailed description of Ethiopia s geological story and enables non specialist readers to share the author s thrill at gaining a deeper insight into the processes which produced and continue to shape this amazing country Ethiopia s spectacular landscapes ranging from mountains over 4500m high to salt plains 150m below sea level are a reflection of the geological processes that formed the country Indeed its history and the historical sites for which it is renowned are largely determined by geology Readers learn why and how Ethiopia s geology is both unique and dynamic as here the earth s crust is in the process of breaking apart Un-Mapping the Global South Gero Bauer,Nicole Hirschfelder,Fernando Resende,2024-03-19 This book offers new approaches and insights into the ongoing and topical discussions on the concepts and definitions of the global south Instead of adding to the debates about how to properly define the global south as such it aims at emphasising concrete experiences and accounts of post colonial dislocation and disidentification as both a starting point and linchpin for the subsequent exploration It brings

into conversation theories and interrogations of the global south with specific local studies without presenting them as the romanticised other or as non western narratives As a bold initiation of future conversations on issues that both directly and indirectly affect ideas about the global south the volume will be of great interest to scholars and researchers of critical theory literary and cultural studies and global south studies **Amazing Adventures of a Heart Surgeon** Domingo

Liotta,2007-03-25 The startling originality of Amazing Adventures of a Heart Surgeon is intrinsically imbued in its focus on historical ethics and esthetic theories Author and cardiovascular surgeon Domingo Liotta provides a penetrating interpretation from the first millennium BC considered a major mystery to the world to modern science He also discusses the early conception of cardiovascular system the oxygenation of tissues the mysterious medical power of shamanism Taoism Ugarit the mythic lost city It is in this unique melding of Science and humanism that Liotta vehemently intends the definition of a good medical doctor while recounting the story of his remarkable life These lectures portray Liotta s dedication in search of the hearts of studious and meditative youths reluctant to change their tools of comprehension and the strategies for mastering difficult to understand topics Thus Liotta s interests extend from pure science to many adjoining fields such as philosophy philology theology and education He shares his knowledge of modern scientific results and his enormous historical information to help rescue his bewildered students In a collaborative endeavor between science and humanities Amazing Adventures of a Heart Surgeon reflects Liotta s marvelous adventure to develop the first totally artificial heart and its clinical application the first in the history of mankind in his tireless fight for human life **Library of Congress**
