

BLOODY BISCAY

The background of the book cover is a detailed illustration of a maritime battle scene. A large German aircraft carrier, the Bismarck, is shown from a side-on perspective, sailing on a dark, choppy sea. The ship is dark grey with white markings on its hull. Above the ship, several aircraft are in flight. A large, four-engine bomber, likely a B-24 Liberator, is the central focus of the aerial scene, flying towards the viewer. It has a white nose and tail with a red circle and a black cross. Below it, a smaller, single-engine fighter is visible. In the distance, another aircraft is seen flying towards the right. The sky is a mix of blue and white, suggesting a cloudy day.

Langworth,2017-03-29 Winston Churchill indispensable when liberty was in peril died in 1965 Yet he is still accused of numerous sins from alcoholism and racism to misogyny and warmongering On the Internet he simmers in a stew of imagined misdeeds using poison gas firebombing Dresden causing the Bengal famine and so on Drawing on the author s fifty years of research and writing on Churchill this book uncovers scores of myths surrounding him the popular and the obscure to reveal what he really said and did about many issues Churchill had two personas one that thought deeply about the nature of humanity and one that helped solve seemingly intractable problems In his many decades in public life he made mistakes but his faults were well eclipsed by his virtues

Battle over the Atlantic John Quai,2022-03-30 At the outbreak of World War II somewhat by accident and just as the first shots of the war were fired young Australian airmen from the Royal Australian Air Force were engaged in operations that would become known collectively as the Battle of the Atlantic Arguably lesser known than air campaigns in other theatres large numbers of

Australians who volunteered for service with Royal Australian Air Force found themselves fighting in this battle. Australians were there at the outbreak and many would go on to fly some of the final missions of the war in Europe. This book captures some of the experiences of the Royal Australian Air Force members who served with Coastal Command and through the weight of numbers alone, stories of the Sunderland squadrons and the Battle of the Atlantic dominate the narrative. Being critical to Britain's survival, the battle also dominated Coastal Command throughout the war, but Australians served in a surprising variety of other roles. The nature of many of those tasks demanded persistence that could only be achieved by large numbers of young men and women being prepared to do what it took to get a tedious and unrewarding job done. Over 400 did not come home.

Shadow over the Atlantic Robert Forsyth, 2017-07-27. German U-boats were the scourge of Allied merchant and military shipping in the Atlantic during World War II, threatening to isolate and then starve the UK out of the war. As Germany's war against the Allied convoys intensified in late 1943, German Admiral Karl Dönitz called upon the Luftwaffe to provide a long-range spotting and shadowing unit to act as eyes for his U-boats. Equipped with big four-engined Junkers Ju 290s fitted out with advanced search radar and other maritime ELINT electronic intelligence devices, Fernaufklärungsgruppe FAGr 5 Atlantik undertook a distant, isolated campaign far out into the Atlantic and thousands of miles away from its home base in western France. The information generated and reported back to Dönitz's headquarters was vital to the efforts of the U-boats, and FAGr 5's shadowing missions were assigned priority in terms of skilled crews, supplies, and equipment. This book tells for the first time the fascinating story of the formation and operations of FAGr 5 Atlantik, drawing on never-before-published historical records of the unit that accounted for the reporting and destruction of thousands of tons of Allied shipping.
