Gleeson, 2013-09-02 Why did many Irish Americans who did not have a direct connection to slavery choose to fight for the Confederacy This perplexing question is at the heart of David T Gleeson's sweeping analysis of the Irish in the Confederate States of America Taking **Famous Poems from Bygone Days** Martin Gardner, 1995-01-01 Over 80 poems from the 19th and early 20th centuries from Hugh Antoine d Arcy's The Face on the Barroom Floor to Phila Henrietta Chase's Nobody's Child rich in rhythm and rhyme filled with feelings and stories about love and war ships and the sea farms and family life and death heaven and hell Introduction Brief biographies of each poet Alphabetical indexes of titles and first lines *John Gray, of Mount Vernon* James McCormick Dalzell, 1868 A biographical sketch of John Grey born 2 Jan 1764 near Mount Vernon Va He died at Hirambsburg Ohio 29 Mar 1868 at the age of 104 years He was the last soldier of the Revolutionary War Civil War and Reconstruction David C. send home cheerful reports even from that saddest of scenes an army hospital probably produced the impression of levity upon those who have never known the sharp contrasts of the tragic and comic in such a life Preface [Illustrated Home Book of Poetry and Song](#) Thomas W. Handford,1883 *The Humbler Poets* Slason Thompson,1892 **The Gray Book** Aris Fioretos,1999-05-01 Generally considered the least lively and most bleak of casts gray is the taint of vagueness and uncertainty Marking the threshold region where luminous life seems suspended but death has not yet darkened the horizon it belongs to an evasive and evanescent world carrying the tint of smoke fog ashes and dust As the ambiguous space of thought and remembrance where things blend and blur gray measures the difference between distance and proximity shading into tinges of hesitation hues of taciturnity tones of time past and lost Thus it may also be the spectral medium of literature itself that grainy gas of language Written with a lead pencil akin to those found in Nabokov Rilke Svevo Poe and Dickinson The Gray Book chronicles the vicissitudes of such equivocal articulation registering the graphite traces it leaves behind but also recording the dwindling span of its life The book situates itself in a region beyond criticism but this side of literature characterized by forgetting and finitude and investigating important yet seemingly inaccessible gray areas in texts as old as those of Homer and as recent as those of Beckett Loosely arranging these literary finds according to a revision of the four elements The Gray Book distances itself from tradition and treats not water but tears not fire but vapor not earth but grain not air but clouds The narrative thus construed proceeding in the meandering movements of volatile thought rather than in the prudent steps of a treatise appears gradually affected by its subject Themes and facts previously confined to the realm of quoted texts leak into the narrative itself The border between fiction and fact slowly dissolves as the book approaches the curious void that the author locates at the heart of gray literature Shaped by an omnipresent though increasingly unreliable narrator The Gray Book may thus ultimately yield a poetics cast in the form of a ghost story [Cactus](#) Elizabeth Otis Marshall Dannelly,1879 **Markov Chains** Paul A. verifying experiments involving various diagram configurations Fascinating historical notes shed light on the key ideas that led to the development of the Markov model and its variants Various configurations of Markov Chains and their limitations are explored at length Numerous examples from basic to complex are presented in a comparative manner using a variety of color graphics All algorithms presented can be analyzed in either Visual Basic Java Script or PHP Designed to be useful to professional statisticians as well as readers without extensive knowledge of probability theory Covering both the theory underlying the Markov model and an array of Markov chain implementations within a common conceptual framework Markov Chains From Theory to Implementation and Experimentation is a stimulating introduction to and a valuable reference for those wishing to deepen their understanding of this extremely valuable statistical tool Paul A Gagniuc PhD is Associate Professor at Polytechnic University of Bucharest Romania He obtained his MS and his PhD in genetics at the University of Bucharest Dr Gagniuc s work has been published in numerous high profile scientific journals ranging from the Public Library of Science to BioMed Central and Nature journals He is the recipient of several awards for exceptional scientific results and a highly active figure in the review process for different scientific areas *The People's Standard History of the United States* Edward Sylvester Ellis,1897 *Indiana School Journal and Teacher* ,1895 [A Dictionary of Arts](#) Andrew Ure,1864
