Canterbury Cathedral, Trinity Chapel David S. Neal,Warwick Rodwell,2022-09-15

Canterbury Cathedral possesses a unique marble mosaic pavement dating from the early twelfth century which has long intrigued scholars and been the subject of speculation and debate It forms part of the floor of the Trinity chapel adjacent to the site where the shrine of St Thomas Becket stood prior to the Reformation Since the mosaic is older than the chapel itself and partly destroyed a pavement of figurative roundels laid c 1215 it must have been moved here from elsewhere in the cathedral This volume explores the history and archaeology of the Trinity chapel the pavement and the physical remains of the cult of Becket based largely on hitherto unrecorded and unpublished evidence In the early twelfth century Archbishop Anselm rebuilt the eastern arm of the cathedral introducing architectural elements from his native Italy and these included a magnificent mosaic pavement composed of the most expensive marbles which lay in front of the high altar In 1170 Archbishop Becket was murdered in the cathedral and his body rested overnight on the pavement before being buried in the crypt Thomas was immediately revered as a martyr and in 1173 was canonized by the pope a simple shrine was erected over his tomb In the following year a fire arson destroyed the eastern arm of the cathedral precipitating the construction of the present Trinity and Corona chapels wherein St Thomas s remains were enshrined After decades of delay and political strife the enshrinement took place in 1220 in the presence of Henry III The shrine comprised a great marble table supported on six clusters of columns On top of the table was a marble sarcophagus containing the saint s body in an iron bound timber coffin over which stood the sumptuous feretory a gabled timber roof plated with sheets of gold and adorned with jewels East of the shrine lies the small Corona chapel in which a fragment of Becket s skull was separately encased in a head shrine and to the west a large area was paved with forty eight figurative stone roundels created by French artisans All around stained glass windows display the early miracles of Becket The layout of the Trinity chapel underwent transmutations first around 1230 when the mosaic pavement was taken up from the old presbytery reduced in size and relaid in front of Becket s shrine where

is it today Second the chapel was reordered in c 1290 when the podium carrying the shrine was enlarged and the paving around it reconfigured Medieval tombs were now being installed in the chapels including those of the Black Prince and Henry IV The end came in 1538 when Henry VIII ordered the thorough destruction of Becket s shrines but a great deal of archaeological evidence remained in the floors walls and a few surviving fragments of the shrines all now recorded and discussed in this volume for the first time **Catalogue of the Cenozoic Plants of North America through 1950** Robert S. Lamotte,1952 **The Glory of Byzantium** Metropolitan Museum of Art (New York, N.Y.),1997 Serves as both visual and textual record of the exhibition of the same name surveying the art of the Middle Byzantine period from the restoration of the use of icons by the Orthodox Church in 843 to the occupation of Constantinople by the Crusader forces from the West from 1204 to 1261 Conceived as a sequel to the 1976 exhibition Age of Spirituality which focused on the first centuries of Byzantium Preceding the catalogue 17 essays treat the historical context religious sphere and secular courtly realm of the empire and the interactions between Byzantium and other medieval cultures Abundantly illustrated Annotation copyrighted by Book News Inc Portland OR
