Allies A Positive Approach To Racial Reconciliation:

Allies Lawrence J. Diggs,1998-05-01 **Decolonizing Solidarity** Clare Land,2015-07-15 In this highly original and much needed book Clare Land interrogates the often fraught endeavours of activists from colonial backgrounds seeking to be politically supportive of Indigenous struggles Blending key theoretical and practical questions Land argues that the predominant impulses which drive middle class settler activists to support Indigenous people cannot lead to successful alliances and meaningful social change unless they are significantly transformed through a process of both public political action and critical self reflection Based on a wealth of in depth original research and focussing in particular on Australia where despite strident challenges the vestiges of British law and cultural power have restrained the nation s emergence out of colonizing dynamics *Decolonizing Solidarity* provides a vital resource for those involved in Indigenous activism and scholarship

Forgotten Lives Betti Carol VanEpps-Taylor,2008 Throughout South Dakota s history African Americans have been vastly outnumbered by their white and American Indian neighbors Underreported as well they have been misrepresented by historians journalists even census takers However from the first African Americans to visit the Northern Great Plains as fur traders in the early 1800s to twentieth century voting rights advocates or professionals recruited after World War II African Americans have pioneered here They have participated in the state s successes and failures and contributed to its rich history In *Forgotten Lives* Betti VanEpps Taylor teases these South Dakotans stories out of newspaper accounts census records early social histories and oral histories Her insights into the lives and communities of this small but vital minority span two centuries and focus on the well known as well as the local Prominent figures such as York who accompanied Lewis and Clark on their expedition and Oscar Micheaux the acclaimed filmmaker fit neatly into the timeline alongside less famous laborers river men soldiers seamstresses business owners miners lawyers homesteaders midwives doctors and town leaders Their stories offer much to twenty first century Americans still struggling to come to grips with their racial history

The Department of State Bulletin United States. Department of State,1985 **The Alliance Party of Northern Ireland** Jonathan Tonge,Máire Braniff,Thomas Hennessey,James W. McAuley,Clare Rice,Sophie A. Whiting,2024-09-23 Northern Ireland s political system is dominated by an Irish Catholic nationalist versus British Protestant unionist faultline based upon the long running argument over whether the region should remain part of the United Kingdom or form part of a United Ireland Yet the largest category of elector in Northern Ireland says they are neither a unionist nor a nationalist and the third most popular political party is now Alliance which is not aligned to either of the two traditional constitutional positions Drawing upon a unique in depth survey of its members this volume analyses the history and contemporary rise of Alliance and the surge of a centrist party in Northern Irish politics which is challenging the old order How has a party which eschews ethnic bloc politics has no constitutional preference and contains a mix of Catholics Protestants and many of no religion come to prominence in a polity whose political institutions are framed upon an old binary

divide The Alliance Party of Northern Ireland undertakes an extensive membership survey analysing the role of a non ethnic party in an ethnic system assessing Alliance identities politics and futures Can Alliance integrate Northern Irish society through shared education and housing or will continuing polarisation thwart the Party's project Would Alliance take a position in the event of a constitutional referendum on Northern Ireland's future and what might that stand be These and other key questions form part of a novel study of the party of Northern Ireland's often overlooked centre ground The volume is essential reading for those wanting to understand how non ethnic parties can survive and even thrive within an ethnic party system

Politics of Conflict and Cooperation in Eurasia Ozgur Tufekci,Hüsrev Tabak,2018-10-12 This volume studies the contemporary dynamics of conflict and cooperation within Eurasia with reference to interdependencies partnerships and contestations on regional security energy democratic transition and trade Its key concern in a broader sense is therefore to understand the various outcomes of post Soviet regional transformation and the intra and inter regional integrative or dismantling interaction making the regional countries hopeful or pessimistic about the future of their immediate and extended neighbourhood within contemporary Eurasia The contributions here unfold the contemporary strategies of individual states with regards to cooperation on the one hand and the unavoidable conflicts in both bilateral relations and on a regional level on the other The chapters examine with reference to central Eurasia the root causes and the transitive character of conflict and cooperation regional security dynamics and competing security complexes and rising powers increasing involvement in the equation favouring cooperation via trade As such this book provides a better understanding of both the issues and the challenges the wider Eurasian region is currently experiencing

Evans,2025-10-02 The memory of the long civil rights movement often celebrates white men and women who drew on their religious faith to support Black demands for racial justice However the visions and actions of these leaders and their organizations often conflicted with those of Black leadership While Black activists fought for a broad vision of freedom white allies focused more narrowly on cultivating interracial friendship marching in parallel to Black movement leaders rather than alongside them Damned Whiteness offers an unflinching history of white led efforts at interracial organizing gone astray Considering the examples of Dorothy Day cofounder of the Catholic Worker Movement Clarence Jordan spiritual father of Habitat for Humanity and Ralph Templin a Christian missionary who studied nonviolence in Gandhi's India David F Evans reveals how religious white progressives inherited strategies that remained disconnected from the ideas and actions of Black communities These disconnects have often been cloaked as disagreements over religious doctrine and practice but Evans reveals how they stem from refusals to acknowledge Black leaders philosophies and freedom dreams Though these patterns persist Evans offers a way out of this legacy of white allyship and into a future where freedom is possible Who's who Among African Americans Ashyia N. Bishop,2020-05-27T00:00:00Z Becoming an Ally is a book for men who want to end sexism white people who want to end racism straight people who want to end heterosexism able bodied people who want to end ableism for all people who recognize their privilege and want to move toward a more just world by learning to act as allies Has oppression always been with us just part of human nature What does individual healing have to do with social justice What does social justice have to do with individual healing Why do members of the same oppressed group fight one another sometimes more viciously than they fight their oppressors Why do some who experience oppression develop a life long commitment to fighting oppression while others turn around and oppress those with less power In this accessible and enlightening book now in its third edition Anne Bishop examines history economic and political structures and individual psychology in a search for the origins of racism sexism heterosexism ableism ageism and all the other forms of oppression that divide us Becoming an Ally looks for paths to justice and lays out guidelines for becoming allies of oppressed peoples when we are in the privileged role A new chapter in this third edition offers a greatly expanded discussion of effective approaches to educating allies which is meant for teachers of adults particularly those who teach about diversity equity and anti oppression In this chapter Bishop examines the ways in which Western culture prevents us from recognizing our roles as members of privileged groups and explores how to challenge this with participatory exercises and group discussion Redeeming Leadership Helena Liu,2020-01-08 Now

available in paperback with a new preface and foreword by Stella Nkomo How might imperialist masculinist and white supremacist grips on leadership be loosened In this thought provoking and accessible new study Helena Liu suggests that anti racist feminism can challenge conventional models and practices of power Combining a critical review of leadership theory with enlightening examples from around the world the book shows how the intellectual and activist elements of feminist movements provide antidotes to contemporary leadership research and practice For those interested in management organisation feminism race and many more studies it sets the agenda for a radical reimagining of control and leadership in all its forms **The Troubled Alliance** Gerard E. Silberstein,2014-07-15 On August 1 1914 the German and Austro

Hungarian empires stood on the brink of the greatest war history had known Their great need was for alliances that would provide manpower and defense of their borders In only one direction could these be sought the Balkan Peninsula Yet disagreements between foreign officers and high commands increased the difficulty of establishing such alliances Austrian caution continually clashed with German persistence for the expansionist drives of the Balkan powers threatened the monarchy s own ambitions The differences between the two allies were smoothed over in the case of Turkey and Bulgaria but the ultimate diplomatic failure in Rumania produced much rancor The author s examination of little known documents in the

German and Austrian archives brings to light details of an often tortured relationship The personalities of those who shaped the course of the war and the playing off of power against power are here clearly revealed Becoming an Ally, 4th Edition Anne Bishop,2025-10-21T00:00:00Z When the bestselling first edition of *Becoming an Ally* was published in 1994 the language of ally was new Three decades later it is everywhere used misused embraced rejected and interpreted in many different ways This groundbreaking book has been used across the world by individuals and institutions to identify how privilege works and how to transform their roles in perpetuating inequality In this new edition educator Anne Bishop has updated her accessible guide on what structural oppression is and how people can work together toward equity Bishop explores oppression s impact on individuals organizations and cultures Within that larger framework she digs through decades of claims and conflicts to examine the crucial role of allies on the path toward justice This book is for social workers teachers medical professionals policy makers and anyone who wants to understand the origins of oppressive societies in order to build more just alternatives **The Cambridge Companion to Nelson Mandela** Rita Barnard,2014-01-31 Nelson Mandela is one of the most revered figures of our time The essays in this Companion written by experts in history anthropology jurisprudence cinema literature and visual studies examine how Mandela became the icon he is today and ponder the meanings and uses of his internationally recognizable image Bibliographic Guide to Education ,2002 lists publications cataloged by Teachers College Columbia University supplemented by The Research Libraries of The New York Public Library *NATO Review* ,1985-06 *Challenging Colonial Discourse* Christian Wiese,2005-01-01 On the basis of postcolonial theory this study shows how Jewish scholars in the controversies about the essence of Judaism and Christianity at the beginning of the 20th century challenged the intellectual hegemony of Liberal Protestantism in Germany By carefully examining the impact of the political circumstances the loss of relevance of political liberalism the spreading of antisemitism and the crisis of Jewish identity in an age of contested emancipation and assimilation on the theological discourse it provides a critical analysis of anti Jewish implications of Protestant theology in the 19th and 20th centuries and discusses the function of Jewish polemics against Protestant distortions of Jewish history religion and culture Furthermore it develops important guidelines for a contemporary interdisciplinary relationship between Jewish Studies and Christian theology *Handbook of Critical Whiteness* Jioji Ravulo,Katarzyna Olcoń,Tinashe Dune,Alex Workman,Pranee Liamputtong,2024-11-21 This timely handbook responds to the international drive to know more about Whiteness its origins its impacts and importantly the means for diffusing it Guided by critical Whiteness theory the volume deconstructs decodes and disrupts Whiteness as it is constructed and employed in contemporary and diverse contexts To do so the international contributors discuss and critique the role of 21st century Whiteness across a range of professions and disciplines relevant to the needs of contemporary global citizens Failure to deconstruct Whiteness as an ideology and the power structure underlying national and global racial inequalities undermines the efforts to improve social health and economic outcomes for societies and nations on a grand

scale The handbook is comprehensive in its nature and contents with 10 themed parts ranging from a more disciplinary based approach theoretical frameworks and methodological frameworks to different aspects of decolonized approaches to social health political and economic well being It navigates how various disciplines respond to the pervasive and persuasive nature of Whiteness in their operational settings across individual professional organisational and systemic levels The volume is unique in its dual focus on deconstructing Whiteness and providing examples and recommendations on how diverse groups seek to decolonize their communities and people through action Examples and recommendations are discussed with particular focus on 1 the interconnection between integrating indigenous and diverse knowledges and perspectives in deconstructing Whiteness 2 the urgency for critical Whiteness discourse dialogue and professional development across disciplines and 3 institutional accountability to decolonisation and anti racism Considering the ongoing marginalization and institutional racism directed at non White individuals and communities and the rise of White supremacy movements critical Whiteness pedagogy and research is more important than ever Handbook of Critical Whiteness Deconstructing Dominant Discourses Across Disciplines is an essential resource for students educators academics researchers higher education administrators practitioners policy makers organisational leaders government stakeholders and other professionals in social sciences medicine STEM allied global public health legal and political disciplines and health and social care institutions It especially engages those interested in decolonisation critical race theory critical Whiteness theory critical multiculturalism social justice anti racism and Indigenous knowledges

A Just World Heon Kim, 2014-09-26 A Just World Multi disciplinary Perspectives on Social Justice is a multi disciplinary analysis of social justice intended to foster scholarly discussion on a just world The contributors to this volume maintain that justice in society is a most pressing concern in the world today and discussion about it must be beyond theory practical and multi disciplinary While dialogue concerning social justice occurs in many academic disciplines it can be neither solely an issue of nor fully understood by one discipline Its complex involvement in all human social life necessitates a multi disciplinary approach To this end this volume offers an inter disciplinary insight into what social justice means today and how it can be achieved to create a more just world Eight scholars representing different disciplines shed light on various aspects of social justice today from their unique perspectives the humanities the social sciences the business world and the field of education Without losing their unique approaches to social justice they are inclusive in this collection These contributors directly address problems facing our societies today from a broad spectrum of capitalist neo liberal world order and with specific cases including the Arab Spring and the Occupy Movement In addressing the problems the chapters in this volume also reveal deep seated causes of the problems and thereby identify the nature and characteristics of social justice in a contemporary context providing considerable insight into long term sustainable solutions toward more just societies and a just world A Just World Multi disciplinary Perspectives on Social Justice is unique in that it provides the most recent discussion on the timely topic of social justice Given the matchless credentials of the contributors

the editor is confident that this volume will be received as nothing short of a landmark in multi disciplinary discussion on social justice. It is destined to also make a considerable impact in charting new directions for future scholarly work on justice. The sweeping global problem of injustice has resulted in a considerable number of studies; however, there has been little done to examine justice from a multi disciplinary perspective and this volume fills that void particularly as it presents common features of today's problems and discusses global social justice. While this volume provides discourse by specialists in justice, it will attract a readership beyond academia and will catch the attention of anyone who is interested in justice and who seeks a just world.
