## **Allunion Day Of The Shock Worker:**

The All-union Day of the Shock Worker Edwin Torres, 2001 Poetry Associated with both the spoken word and avant garde literary communities of New York City Edwin Torres has carved out an energetic and suggestive space between those worlds mapping out a prospective direction for American poetry Edwin Torres's poetry full of complex graphic experiments and daring sonic explorations opens new creative possibilities simultaneously challenging and delighting our intelligence Lorenzo Thomas Torres successfully transmits the oral aural to the page attending to vocal immediacies that stretch from Dada excess to spoken word access Jena Osman *Iconography of Power* Victoria E. Bonnell, 1998-02-05 Masters at visual propaganda the Bolsheviks produced thousands of vivid and compelling posters after they seized power in October 1917 Intended for a semi literate population that was accustomed to the rich visual legacy of the Russian autocracy and the Orthodox Church political posters came to occupy a central place in the regime's effort to imprint itself on the hearts and minds of the people and to remold them into the new Soviet women and men In this first sociological study of Soviet political posters Victoria Bonnell analyzes the shifts that took place in the images messages styles and functions of political art from 1917 to 1953 Everyone who lived in Russia after the October revolution had some familiarity with stock images of the male worker the great communist leaders the collective farm woman the capitalist and others These were the new icons standardized images that depicted Bolshevik heroes and their adversaries in accordance with a fixed pattern Like other invented traditions of the modern age iconographic images in propaganda art were relentlessly repeated bringing together Bolshevik ideology and traditional mythologies of pre Revolutionary Russia Symbols and emblems featured in Soviet posters of the Civil War and the 1920s gave visual meaning to the Bolshevik worldview dominated by the concept of class Beginning in the 1930s visual propaganda became more prescriptive providing models for the appearance demeanor and conduct of the new social types both positive and negative Political art also conveyed important messages about the sacred center of the regime which evolved during the 1930s from the celebration of the heroic proletariat to the deification of Stalin Treating propaganda images as part of a particular visual language Bonnell shows how people read them relying on their habits of seeing and interpreting folk religious commercial and political art both before and after 1917 as well as the fine art traditions of Russia and the West Drawing on monumental sculpture and holiday displays as well as posters the study traces the way Soviet propaganda art shaped the mentality of the Russian people the legacy is present even today and was itself shaped by popular attitudes and assumptions *Iconography of Power* includes posters dating from the final decades of the old regime to the death of Stalin located by the author in Russian American and English libraries and archives One hundred exceptionally striking posters are reproduced in the book many of them never before published Bonnell places these posters in a historical context and provides a provocative account of the evolution of the visual discourse on power in Soviet Russia *New Directions in Soviet History* Stephen White, Ralph C. Politics analyses the way in which Soviet symbolism and ritual changed from the regime's birth in 1917 to its fall in 1991 Graeme Gill focuses on the symbolism in party policy and leaders speeches artwork and political posters and urban redevelopment and on ritual in the political system He shows how this symbolism and ritual were worked into a dominant metanarrative which underpinned Soviet political development Gill also shows how in each of these spheres the images changed both over the life of the regime and during particular stages the Leninist era metanarrative differed from that of the Stalin period which differed from that of the Khrushchev and Brezhnev periods which was in turn changed significantly under Gorbachev In charting this development the book lays bare the dynamics of the Soviet regime and a major reason for its fall      **In Visible Movement** Urayoan Noel, 2014-05-01 Since the 1960s Nuyorican poets have explored and performed

Puerto Rican identity both on and off the page Emerging within and alongside the civil rights movements of the 1960s the foundational Nuyorican writers sought to counter the ethnic racial and institutional invisibility of New York City Puerto Ricans by documenting the reality of their communities in innovative and sometimes challenging ways Since then Nuyorican poetry has entered the U S Latino literary canon and has gained prominence in light of the spoken word revival of the past two decades a movement spearheaded by the Nuyorican Poetry Slams of the 1990s Today Nuyorican poetry engages with contemporary social issues such as the commodification of the body the institutionalization of poetry the gentrification of the barrio and the national and global marketing of identity What has not changed is a continued shared investment in a poetics that links the written word and the performing body The first book length study specifically devoted to Nuyorican poetry In Visible Movement is unique in its historical and formal breadth ranging from the foundational poets of the 1960s and 1970s to a variety of contemporary poets emerging in and around the Nuyorican Poets Cafe slam scene of the 1990s and early 2000s It also unearths a largely unknown corpus of poetry performances reading over forty years of Nuyorican poetry at the intersection of the printed and performed word underscoring the poetry's links to vernacular and Afro Puerto Rican performance cultures from the island's oral poets to the New York sounds and rhythms of Latin boogaloo salsa and hip hop With depth and insight Urayoan Noel analyzes various canonical Nuyorican poems by poets such as Pedro Pietri Victor Hernandez Cruz Miguel Algarin Miguel Piore Sandra Marfa Esteves and Tato Laviera He discusses historically overlooked poets such as Lorraine Sutton innovative poets typically read outside the Nuyorican tradition such as Frank Lima and Edwin Torres

W. Davies,2016-07-27 The profound economic crisis of 1931 33 undermined the process of industrialisation and the stability of the regime In spite of feverish efforts to achieve the over ambitious first five year plan the great industrial projects lagged far behind schedule These were years of inflation economic disorder and of terrible famine in 1933 In response to the crisis policies and systems changed significantly Greater realism prevailed more moderate plans reduced investment strict monetary controls and more emphasis on economic incentives and the role of the market The reforms failed to prevent the terrible famine of 1933 in which millions of peasants died But the last months of 1933 saw the first signs of an industrial boom the outcome of the huge investments of previous years Using the previously secret archives of the Politburo and the Council of People s Commissars the author shows how

during these formative years the economic system acquired the shape which it retained until the collapse of the Soviet Union in 1991
