Almanac For Moderns:

An Almanac for Moderns Donald Culross Peattie, 2013-10-10 An Almanac for Moderns contains a short essay for each day of the year that contemplates a unique but factual aspect of unbridled nature According to a review in Nation this collection of essays manages to appeal to the ordinary lover of nature but the turn of Peattie's mind is poetic and speculative The New York Times calls this book a fine and subtle perception rising at times to an intense lyric beauty a book which the reader will deeply treasure and to which he will repeatedly return *An Almanac for Moderns, by Donald Culross Peattie; with Drawings by Lynd Ward* Donald Culross Peattie, 1935 *Modern American Environmentalists* George A. Cevasco, Richard P. Harmond, 2009-04-27 Modern American Environmentalists profiles the lives and contributions of nearly 140 major figures during the twentieth century environmental movement Included are iconic environmentalists such as Rachel Carson E O Wilson Gifford Pinchot and Al Gore and important but less expected names including John Steinbeck and Allen Ginsberg The entries recount how each individual became active in environmental conservation detail his or her significant contributions trace the influence of each on future efforts and discuss the person's legacy The individuals selected for the book displayed either an unparalleled commitment to the conservation preservation restoration and enhancement of the natural environment or made a major contribution to the growth of environmentalism during its first century With a foreword by environmental historian Everett R. Mendelsohn a time line of key environmental events a bibliography of groundbreaking works and an index organized by specialization this biographical encyclopedia is a handy and complete guide to the major people involved in the modern American environmental movement Mark Harvey *Autumn* Susan M. Felch, 2005-08 Discover how this transitional season can reveal both the abundance and the limitations of our everyday lives Autumn with all its traditional images of colorful trees frost covered pumpkins and piles of wood stored up against winter's cold can be a season filled with anticipation The harvest the imminent onset of cold and snow the resumption of old routines and the beginning of the school year all require preparation and planning If summer has been something of a pause autumn helps us to see the passage of time more clearly Autumn is a season of fruition and reaping of thanksgiving and celebration of abundance and goodness of the earth But it is also a season that starkly and realistically encourages us to see our own limitations Warm and stirring pieces by E B White Anne Lamott P D James Julian of Norwich May Sarton Kimiko Hahn and many others in this beautiful book rejoice in autumn as a time of preparation and reflection when the results of hard labor are ripe for harvest *Waste Paper in Early Modern England* Anna Reynolds, 2024 Waste Paper in Early Modern England argues that rhetorical commonplaces referring to waste paper are indicative of everyday material experience of an author's reader's housewife's or city dweller's immersion in an environment brimming with repurposed scraps and sheets [The Path to a Modern South](#) Walter L. Buenger, 2010-06-28 The forces that turned Northeast Texas from a poverty stricken region into a more economically prosperous area Winner Texas State Historical Association Coral H Tullis Memorial Award for best

book on Texas history 2001 Federal New Deal programs of the 1930s and World War II are often credited for transforming the South including Texas from a poverty stricken region mired in Confederate mythology into a more modern and economically prosperous part of the United States By contrast this history of Northeast Texas one of the most culturally southern areas of the state offers persuasive evidence that political economic and social modernization began long before the 1930s and prepared Texans to take advantage of the opportunities presented by the New Deal and World War II Walter L Buenger draws on extensive primary research to tell the story of change in Northeast Texas from 1887 to 1930 Moving beyond previous more narrowly focused studies of the South he traces and interconnects the significant changes that occurred in politics race relations business and the economy and women s roles He also reveals how altered memories of the past and the emergence of a stronger identification with Texas history affected all facets of life in Northeast Texas
