Alone Together Voices Of Single Mothers:

Single Mothers and Their Children Shurlee Swain, Renate Howe, 1995-12-11 This 1996 book is a comprehensive history of single motherhood in Australia. Shurlee Swain and Renate Howe tell the powerful if painful and often moving story of these women and their children and the lives they constructed. Starting in the 1850s when abandonment and infanticide were not uncommon, the book's main focus ends in 1975 when the legal status of illegitimacy was abolished. The book covers issues of baby farming, infanticide, abortion, sex education, birth control, adoption, and marriage, in effect becoming a history of sexual practice in Australia. While tracing profound changes from a time when single mothers were locked in gaol for discarding their babies to the establishment of state benefits, the authors find a good deal of continuity over the period. This book makes an important contribution to social welfare and women's history in Australia.

Single Women Tuula Gordon, 1994-03 The single woman is mistakenly seen to be a product of the twentieth century. Drawing on figures as diverse as Joan of Arc, Elizabeth I, and the Amazons, Gordon brings to light a powerful tradition of single womanhood and calls the marginality of single women into question.

Female Forms Thomas, Carol, 1999-08-01 What is the relevance of feminist ideas for understanding women's experiences of disability? How can the social model of disability be developed theoretically? What are the key differences between Disability Studies and medical sociology? In answer to these questions, this book explores and develops ideas about disability, engaging with important debates in disability studies about what disability is and how to theorize it. It also examines the interface between disability studies, women's studies, and medical sociology, and offers an accessible review of contemporary debates and theoretical approaches. The title *Female Forms* reflects two things about the book: first, its use of disabled women's experiences as told by themselves to bring a number of themes to life; and second, the author's belief in the importance of feminist ideas and debates for disability studies. The social model of disability is the book's bedrock, but the author both challenges and contributes to social modelist thought. She advances a materialist feminist perspective on disability, producing a book which is of multi-disciplinary relevance. *Female Forms* will be useful to the growing number of students on Disability Studies courses, as well as those interested in women's studies, medical sociology, and social policy. It will also appeal to those studying or working in the health and social care professions, such as nursing, social work, occupational therapy, and physiotherapy.

Alone Together Jenny Morris, 1992 **Hardship & Health Womens Lives** Hilary Graham, 2014-01-21 First published in 1993, there are around 16 million women in Britain aged 16 to 59. A total of 6,400,000 live in households with children under 16, representing 40 per cent of all women under retirement age. Employment Gazette 1990. The vast majority of women living in households with children are mothers looking after their own offspring. *Hardship and Health in Women's Lives* explores the lives of these 6 million women. It is particularly concerned with their domestic lives and with the responsibilities and routines that structure what they do at home. Who's Fit to be a Parent? Mukti Jain, 2005-06-29 In recent years, the notion of parenting and parenthood have increasingly come

under examination from the media and professionals and in particular government and politicians More and more parents are being held to account by society for their failure to deliver the sort of citizens it wants But what are parents supposed to be doing Are there some people that are inherently unfit to be parents and does there exist a body of knowledge that defines fit parenting Who s fit to be a parent covers this highly topical and important subject in a stimulating and accessible way that cuts across numerous professional disciplines and opens up the boundaries between professional and personal expertise on parenting It is essential reading for any professional or student of social work and social policy those working in the voluntary services concerned with the family social policy makers and for anyone interested in understanding what it means to be a parent today

The Name of the Mother Marie Maclean, 2022-09-12 In this original and highly accomplished study first published in 1994 Marie Maclean studies the writings of social rebels and explores the relationship between their personal narratives and illegitimacy The case studies which Maclean examines fall into four groups those which stress alternative family structures and female genealogies those which pair female illegitimacy and revolution those which question the deliberate refusal of the name of the father by the legitimate those which study the revenge of genius on the society which excludes it Skilfully interweaving feminist theory French literary criticism social and cultural history deconstruction and psychoanalytic theory Maclean traces the place of these personal narratives of illegitimacy in history and their use in theory from Elizabeth I to Freud Sartre and Derrida The Name of the Mother will be of vital interest and importance to any student of critical theory feminist philosophy French or cultural studies

Good Enough Mothering? Elizabeth Bortolaia Silva, 1996 Currently lone mothers and their children make up almost 20 per cent of families with dependent children in the UK a threefold increase since 1970 Yet while they are often cited by politicians as both a symptom and cause of social breakdown relatively little is known of the causes consequences and conditions of lone motherhood in Britain and throughout Europe Good Enough Mothering provides accounts of historical patterns of mothering and ideologies of the family with cross national comparisons of policies and experience of lone motherhood in developed and developing countries Countries include Britain US Norway South Africa Kenya Thailand India Brazil and the Caribbean This engaging edited collection will appeal to students of social policy women s studies and social work
