Along the Road Aldous Huxley, 2021-01-05 Witty and enchanting reflections on the experience of travel with a focus on art music and literature by the author of *Brave New World* The Spectator One of the most renowned and prolific writers of the twentieth century Aldous Huxley produced not only dystopian fiction like *Brave New World* and philosophical memoirs like *The Doors of Perception* but also insightful travel writing Here he discusses his visits to Italy France and other European destinations reflects on cultural landmarks and ruminates on the benefits and challenges of travel itself offering a fascinating glimpse into the Europe of a century ago and the mind of a remarkable author As opposed to those who believe that the best picture is the most famous or expensive one or the one that wins a prize Huxley speaks for those prepared to spend contemplative time with works of art The Sydney Morning Herald *A Generic History of Travel Writing in Anglophone and Polish Literature* Grzegorz Moroz, 2020-08-31 A Generic History of Travel Writing in Anglophone and Polish Literature offers a comprehensive comparative and generic analysis of developments of travel writing in Anglophone and Polish literature from the Late Medieval Period to the twenty first century These developments are depicted in a wider context of travel narratives written in other European languages Grzegorz Moroz convincingly argues that for all the similarities and cross cultural influences in the course of the nineteenth and twentieth century non fiction Anglophone and Polish travel writing have dynamically evolved different generic horizons of expectations While the Anglophone travel book developed relatively steadily in that period the Polish genre of the podr was first replaced by the listy kartki z podr y and then by the reporta podr niczy **Essays on Music** Theodor Adorno, 2002-08-08 A book of landmark importance It is unprecedented in its design a brilliantly selected group of essays on music coupled with lucid deeply incisive and in every way masterly analysis of Adorno s thinking about music No one who studies Adorno and music will be able to dispense with it and if they can afford only one book on Adorno and music this will be the one For in miniature it contains everything one needs a collection of exceptionally important writings on all the principal aspects of music and musical life with which Adorno dealt totally reliable scholarship and powerfully illuminating commentary that will help readers at all levels read and re read the essays in question Rose Rosengard Subotnik author of *Deconstructive Variations Music and Reason in Western Society* An invaluable contribution to Adorno scholarship with well chosen essays on composers works the culture industry popular music kitsch and technology Leppert s introduction and commentaries are consistently useful his attention to secondary literature remarkable his interpretation responsible The new translations by Susan Gillespie and others are outstanding not only for their care and readability but also for their sensitivity to Adorno s forms and styles Lydia Goehr author of *The Quest for Voice Music Politics and the Limits of Philosophy* With its careful full edition of Adorno s important musical texts and its exhaustive yet eminently readable commentaries Richard Leppert s magisterial book represents a brilliant solution to the age old dilemma of bringing together primary text and interpretation in one volume James Deaville Director School of the Arts McMaster University The

developing variations of Adorno's life-long involvement with musical themes are fully audible in this remarkable collection. What might be called his literature on notes brilliantly complements the notes to literature he devoted to the written word. Richard Leppert's superb commentaries constitute a book-length contribution in their own right which will enlighten and challenge even the most learned of Adorno scholars. Martin Jay, author of *The Dialectical Imagination: A History of The Frankfurt School and the Institute of Social Research*. There is a foot in Anglo-American musicology today: the first wholesale reconsideration of Adorno's thought since the pioneering work of Rose Rosengard Subotnik around 1980. *Essays on Music* will play a central role in this effort. It will do so because Richard Leppert has culled Adorno's writings so as to make clear to musicologists the place of music in the broad critique of modernity that was Adorno's overarching project and it will do so because Leppert has explained these writings in commentaries that amount to a book-length study so as to reveal to non-musicologists the essentially musical foundation of this project. No one interested in Adorno from any perspective or for that matter in modernity and music at all can afford to ignore *Essays on Music*. Gary Tomlinson, author of *Metaphysical Song: An Essay on Opera*. This book is both a major achievement by its author-editor and a remarkable act of scholarly generosity for the rest of us. Until now, English translations of Adorno's major essays on music have been scattered and often unreliable. Until now, there has been no comprehensive scholarly treatment of Adorno's musical thinking. This volume remedies both problems at a single stroke. It will be read equally and eagerly for Adorno's texts and for Richard Leppert's commentary on them, both of which will continue to be essential resources as musical scholarship seeks increasingly to come to grips with the social contexts and effects of music. No one knows Adorno better than Leppert, and no one is better equipped to clarify the complex interweaving of sociology, philosophy, and musical aesthetics that is central to Adorno's work. From now on, everyone who reads Adorno on music, whether a beginner or an expert, is in Richard Leppert's debt for devoting his exceptional gifts of learning and lucidity to this project. Lawrence Kramer, author of *Musical Meaning: Toward a Critical History*. *Along the Road*, Aldous Huxley (Schriftsteller, Grossbritannien, USA), 1948. **Encyclopedia of the Essay**, Tracy Chevalier, 2012-10-12. This groundbreaking new source of international scope defines the essay as nonfictional prose texts of between one and 50 pages in length. The more than 500 entries by 275 contributors include entries on nationalities, various categories of essays such as generic such as sermons, aphorisms, individual major works, notable writers, and periodicals that created a market for essays and particularly famous or significant essays. The preface details the historical development of the essay and the alphabetically arranged entries usually include biographical sketch, nationality, era, selected writings, list of additional readings, and anthologies. Global West, American Frontier David M. Wrobel, 2013-10-15 This thoughtful examination of a century of travel writing about the American West overturns a variety of popular and academic stereotypes Looking at both European and American travelers accounts of the West from de Tocqueville's *Democracy in America* to William Least Heat Moon's *Blue Highways* David Wrobel offers a counter narrative to the nation's romantic entanglement with its western past and suggests the importance of some long overlooked authors lively and perceptive witnesses to our history who deserve new attention Prior to the professionalization of academic disciplines the reading public gained much of its knowledge about the world from travel writing Travel writers found a wide and respectful audience for their reports on history geography and the natural world in addition to reporting on aboriginal cultures before the advent of anthropology as a discipline Although in recent decades western historians have paid little attention to travel writing Wrobel demonstrates that this genre in fact offers an important and rich understanding of the American West one that extends and complicates a simple reading of the West that promotes the notions of Manifest Destiny or American exceptionalism Wrobel finds counterpoints to the mythic West of the nineteenth century in such varied accounts as George Catlin's *Adventures of the Ojibbeway and Ioway Indians in England*

France and Belgium 1852 Richard Francis Burton's *The City of the Saints* 1861 and Mark Twain's *Following the Equator* 1897 reminders of the messy and contradictory world that people navigated in the past much as they do in the present His book is a testament to the instructive ways in which the best travel writers have represented the West Atlantic Automobilism Gijs Mom, 2014-12 Offering a sweeping transatlantic perspective this book explains the current obsession with automobiles by delving deep into the motives of early car users It provides a synthesis of our knowledge about the emergence and persistence of the car using a broad range of material including novels poems films and songs **The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950** George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of *The Cambridge Bibliography of English Literature* The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries **Travel Writing** Carl author.
