British Messotinto Portraits John Chaloner Smith, 1884 **Portrait and Biographical Album of Jackson County, Michigan** ,1890 **The Social Imagination of the Romantic Wife in Literature** Linda L. Reesman, 2024-11-22 The emergence of social change in the daily lives of English society appeared most noticeably through the Romantic era response of human emotions to a period of reason that has defined the era of Enlightenment scientifically and philosophically Remarkably the dramatic political shift that occurred in 1789 from a French monarchy to a constitutional democracy foreshadowed social changes to the family unit that were more slowly evolving throughout England during the eighteenth century An intellectual movement to educate all members of society strengthened efforts to loosen ecclesiastical control allowing more secular definitions of social roles to emerge The nature of marriage during this period in England is central to understanding how the marriage covenant became a widely accepted civil contract Examining the sentiments of passion and

virtue the dynamics of traditional marriage emerge through newly established perspectives The role of the wife as a Romantic era concept tells the story of two women through their married lives and literary identities The social imagination provides a new perspective on domestic concerns to illuminate a feminine aspect of the literary market through an understanding of the ordinary wife among female writers Moreover a specific focus on marriage virtue and friendship as seen through two relationships examines individuals who define both a traditional and a non conforming approach to their domestic lives Two husbands who were political and religious activists with wives who were atypical domestics were chosen to exemplify the effects of social change on their particular lives and marital roles in an expanding literary world United States Magazine of Science, Art, Manufactures, Agriculture, Commerce and Trade ,1856 Portrait and Biographical Record of Sheboygan County, Wisconsin ,1894 **Comprising the continental states and island of Sardinia, Lombardy, and Venice** John Murray (Firm),1856 *Portrait and Biographical Record of Waukesha County, Wisconsin* ,1894 **The Master, the Modern Major General, and His Clever Wife** Henry James,Viscountess Louisa Wolseley,2012 As his letters attest for nearly forty years Henry James enjoyed a warm and gratifying friendship with Britain s foremost soldier of the last quarter of the nineteenth century and his wife The Wolseleys were notable figures Lord Wolseley the field marshal who became Britain s commander in chief of the British army was a national hero Both a bibliophile and an author Wolseley was described by Henry James to his brother William as an excellent example of the cultivated British soldier Lady Wolseley was also well read as well as stylish strong willed and shrewd and in Henry s view a delightful correspondent in short as the editor writes precisely the kind of woman James most admired In *The Master the Modern Major General and His Clever Wife* Alan James offers a collection of more than one hundred letters most of them published here for the first time that Henry James wrote to the Wolseleys the majority to Lady Wolseley Included are an overall introduction to the letters separate introductory profiles of Lord and Lady Wolseley along with commentaries on the factors that drew James and the Wolseleys together introductions to each of four sections of the letters divided chronologically and annotations throughout identifying the notable men and women to whom James refers as well as comparing what James and the Wolseleys thought of them and their work
